CURRENT GAMES ISSUES: July 2020

Leaning Tower of Pisa missing from collections

Windows 10 players cant open game or download update

CURRENT GAMES ISSUES: February 2020

- Ability to make purchase of one Key at a time
 - Inventory Tabs missing for: Temp. Items, Hints, Tools & Keys
 - ~~- Daily Calendar Missing - Fixed~~
 - Need Scroll Bar for Inventory
 - ~~Envelope counter not working~~ - Fixed
-

Game Improvement Suggestions:

- Do away with event avatars as rewards - or make the avatars do something.
- Offer better trade items from criminals that you pay coin to.
- Boss Battle - To be able to see the battle window first, see the points, see who is in the battle and how many points you have BEFORE you join.
- Be able to see how many collection items “you” have when looking at your neighbor collections.
- Add Chevron search points/count for Mastery Level back like was in FB game.
- Energy Freeze - To not start immediately and be able to save to inventory to use at a later date.
- Ability to click on a weapon in your inventory and have it take you to the criminal.
- Request the developers to NOT add the right side quests as soon as you hit that Level/Location and have them only trigger when you've completed the first quest for that Location. I have 18 right side quests for locations I haven't even started and they will expire before I even get a chance to start them.
- Make ALL chargers that are giftable - giftable every day - no more daily rotation.
- Amulet to increase Energy regeneration for Street Patrol.
- Reduce required items to unlock the Antique Shop.
- Be able to share/trade weapons & amulets.
- Increase Heart Reputation Level from 55.
- Search Bar for Weapons and Inventory.
- Have ALL chests show in the “Chest” tab.
- Collection Search Bar for “Location” or “Active Event” sort button. - **ADDED JULY 2020**
- Add player language, device played on & local time/zone to game profile.

- Add how long game player friendship is?
- Have the ability to see what game friends' daily gift list is.
- Have the ability to “delete all” boss battle requests from Wall.

Device Requirements:

	<u>MIN OS REQ</u>	<u>MEMORY REQ.</u>	<u>STORES</u>
