

All students have unique needs, and the [school name] community values inclusion and honoring differences. All educators at [school name] are committed to understanding and supporting each student. Some students have disabilities (e.g., learning disorder, AD/HD, mental health, mobility, health/body) and are provided with the supports and services they need to ensure they are supported with participating in all school-sponsored activities and are making educational growth.

If you have been diagnosed with any physical or mental impairment, suspect you may have an undiagnosed disorder, or are struggling academically, emotionally, or socially, please reach out to your school counselor or assistant principal. They will find ways to support your needs, connect with your parent/guardian, and ensure you are provided with any specialized services for which you may be eligible.
