## PROFILE

Senior Mobile Developer with 5+ years of experience designing, building, and maintaining scalable mobile applications in production environments. Strong expertise in React Native and JavaScript (ES6+), with solid experience in native iOS workflows. Proven ability to improve application performance, maintain code quality, and deliver stable solutions aligned with business goals.

Focused on clean architecture, performance optimization, and long-term maintainability.

## EXPERIENCE

PT Royal D'Paragon Land — Indonesia  
Senior Mobile Developer | Dec 2024 – Present

- Leading the development of internal and customer-facing mobile applications.
- Designing scalable and reusable component architectures for long-term maintainability.
- Translating business requirements into efficient and reliable technical solutions.
- Integrating RESTful APIs and managing data flow between mobile apps and backend systems.
- Improving application performance, UI responsiveness, and overall user experience.
- Contributing to technical decisions and mentoring junior developers.

PT Investree Radhika Jaya — Jakarta, Indonesia  
Mobile Developer | Feb 2020 – Feb 2024

- Developed and maintained large-scale production mobile applications using React Native.
- Collaborated closely with product managers, designers, and backend engineers in an agile environment.
- Refactored and optimized existing codebases to improve readability, performance, and scalability.
- Conducted debugging, performance tuning, and regression testing to ensure application stability.
- Participated in code reviews and shared best practices across the engineering team.

## CORE COMPETENCIES

- Mobile Application Architecture
  - React Native Performance Optimization
  - Code Quality & Best Practices
  - REST API Integration
  - Cross-functional Collaboration
  - Technical Mentorship
- 

## TECHNICAL SKILLS

### Languages & Frameworks

- JavaScript (ES6+)
- React Native
- React.js
- Node.js

### Mobile & iOS

- UIKit
- Xcode

### Development Practices

- Component-based architecture
  - Performance optimization & debugging
  - Production deployment & maintenance
- 

## EDUCATION

STMIK Duta Bangsa  
Bachelor of Informatics Engineering  
2013 – 2017

---

## CERTIFICATION

- Full Stack JavaScript Immersive — Hacktiv8
- 

## PORTFOLIO HIGHLIGHT

Mobile applications built and maintained in real-world production environments, with a focus on performance, scalability, and maintainability.
