Dear Barbara Janowski:

I am writing to illustrate my interest in your institute, I have always wanted to pursue a career in art. I have seen your website and I was delighted to see all that you have to offer. I am very passionate when it comes to art. My uncle, who is an art teacher, was the one who had inspired me to pursue art. I am very creative when it comes to art I've been like that for as long as I can remember.

My uncle had taught my cousin and I about art when we were young and it had stuck with me for years. I love to see things I can create with paint, colored pencils, and computers. Some of the classes I have taken in high school were graphic design and art. My style is fascinating because it is unique and has a great deal of potential that your school can help it evolve into something more.

I would love to come to the school to look around the campus and some of the classes. I would also like to talk to you more about the opportunities your school has to offer. So far I admire your Animation class but I would also like to see if there are other things that would interest me. Although, animation has always been something that I have admired and I would love to take the class.

I would like to hear from you soon so we can talk more.

Thank you for your time

Sincerely yours,

Mya Thomas
