WHY GIVE TO GULU CONNECTION?

(Gulu Connection is a ministry of Nechells and Overseas Care Fund,)
(Charity Commission Number: 10430610)

Need

Our fund supports the work of the Diocese of Northern Uganda health coordination department. Our main focus is **Oberabic Health Centre**. It is in a very poor area with very little health care. We also support other aspects of the department's work. Examples on the blog.

Integrity

Our work has total integrity. We have zero tolerance to "irregularities." This causes personal friction but makes the project very effective.

Now for some philosophy!

Health and education opportunities, particularly for the poor, are appalling in Sub Saharan Africa. The needs are in Africa and resources in the developed world. Western money can help transform opportunities for individuals. This is good. Western money, however, does harm when it is badly targeted, promotes corruption and disempowers locals. Some, both in Africa and the developed world think all aid should cease.

Our take is that humanity demands that corruption free, well targeted projects (like ours) should be supported. Common sense equally demands that poorly targeted projects should be avoided in favour of smaller ones. I would even dare to suggest that if you would like to help in Africa and are giving to a big charity that you switch your help away from the big to the small- maybe ours!

Small Print

The work in Gulu is called Gulu Connection and is a wing of the small charity Nechells and Overseas Care Fund – charity number 1043061
