OLIVER GRANT PROPOSAL NARRATIVE

This year the Leslie E. Booth Library and Media Center here at Boonton High School had the honor to be awarded a \$15,000 grant for use on the Nonfiction and Reference sections of our collection. Boonton High School is a four year 9th through 12th grade public school located in Morris County, New Jersey. The school serves 591 students from the towns of Boonton and Lincoln Park.

In preparation for the grant, the Library and Media Center evaluated and mapped the current collection in order to determine the best applicable uses for the funds. This most recent mapping of the collection illustrated the great need for this grant award. With an average age of 1979, the nonfiction portion of the collection is extremely outdated. Approximately 90% of the titles in the collection are aged, with only 2% of titles from 2010 or newer. The library holdings are lacking in available digital resources, online databases, eBooks, audio books, and multimedia works. A recent weeding of all VHS tapes has left the library with few video sources.

After discussion and review, it was concluded that the grant funding should focus on updating and providing newer resources in the areas of Philosophy and Psychology, Social Sciences, Science, Technology, Geography and History, Biographies, and access to multimedia, eBook, and online resources. Recent updates to curriculums, including Common Core and STEAM, as well as faculty requests and recommendations were also considering factors in determination of the grant spending and purchase proposal. Under this grant proposal, the Library and Media Center will be doubling the available amount of eBooks and multimedia resources, of which the majority are licensed for an unlimited number of users. Overall, updating and offering modernized selections will

help to transform our library into a 21st Century Media Center. This will help to provide our students and staff with resources that are necessary to succeed in a continuously evolving and technology driven age. Each area for spending will be discussed and purchases will be shown in detail below. The following chart offers a basic breakdown of the allocation of grant funds.

300 Social Science

OLIVER GRANT PROPOSAL NARRATIVE

Current average age: 1982

This section accounts for 15% of the library's current holdings. Although the library has quite a large selection of titles under the realm of social science, many are antiquated and no longer suitable for reference under new curriculums and state standards. Newer insights are necessary as society is continuously evolving. It is important to add more relevant and current topics such as cyberbullying, social media use, LGBTQ issues and awareness, and global awareness and change to our collection, as well as providing up to date testing resources for our students. Under the proposed grant budget, 19% of acquisitions would fall under this section and cost a total of \$3076.36.

900 Geography and History

Current average age: 1978

This section accounts for 24% of the library's current holdings. Although Geography and History makes up the largest title selection in our library, these sources are outdated, with many volumes in states of disrepair. The majority of these new acquisitions are for interactive digital eBooks and resources with unlimited user licenses. The interactive nature of these additions are true assets for our students, providing them with enhanced learning features. Many of the new DVD purchases under Geography and History serve as replacements for the VHS tapes that were recently weeded from our collection. Under

Reference

Current average age: 1983

This section accounts for 6% of the library's current holdings. In order to bring this section up to date, grant money for reference would be used to purchase:

- a one year unlimited user access to Britannica Library at a cost of \$750.
Britannica Library allows users to search encyclopedic entries, magazines, websites, news, and other valuable resources, which can all be sorted by user level and reading ability.
- a one year unlimited user access to Britannica Original Sources at a cost of \$750, granting users the ability to search over 420,000 original documents.
