------	--	--

Segment 1: Dallas Becomes FIRST Surveillance State

Hook	Were the Maui fire's an accident or was it an intentional attack? What if I told you this was part of the great reset. I think we are all at a point now where we've seen the devastation of the Maui fires but have you really looked into EVERYTHING? What if I told you that everything that we just witnessed is potentially part of the great reset agenda to implement Smart Cities. Well here are 2 indicators what may of lead us to this. (video 1) Last January of 2023 there was a Smart City Conference in Maui to turn Maui in an entire smart city ISLAND. Pushing everything electric and making 15 minute smart cities. Secondly, The government of Hawaii states goal for rebuild is to make the entire island of Maui the first Smart ISLAND. They want the entire island governed by AI as outlined in the Hawaii Digital government summit of 2023 that they have planned to host next month Monday, September 25, 2023 on Maui....Check out this video Daniel: (Dallas)mention and what smart cities even are.	"Anyone else think it's odd that Maui's Police chief of the incident commander for the Las Vegas Massacre?" https://twitter.com/dark_garbaggio/status/1690954257174761473 Maui - Plans for A High Tech Prison Island? https://sashalatypova.substack.com/p/maui-plans-for-a-high-tech-prison Here are some interesting facts about the fire in Maui that should make you ask questions. https://twitter.com/Inversionism/status/1690792280448204800 Smart Island for Maui: https://twitter.com/samtripoli/status/1690174529706823681?ref_src=twsrc%5Ftfw%7Ctwcamp%5Ftweetembed%7Ctwterm%5E1690174529706823681%7Ctwgr%5E192a66cc535cdfba5c85d1974886d64df7c8245f%7Ctwcon%5Es1_&ref_url=https
------	--	---

	Now if you think that's too far fetched. Just listen to what the Governor of Hawaii had to say.... (Governor Video) Now that sounds very very very close to The Great Reset. But not only that, this is very concerning that he mentioned "bomb". As with the speculation of direct energy weapons or DEW trending on just about every social media site. And these are a real thing, a simple google search will tell you all you need to know. Also who remembers this? (Video 4) This was a CCP satellite that was over Hawaii about 6 months ago. Now I don't want to make any concrete accusations but if the CCP is in lockstep with the WEF, to me, wouldn't it be outside the possibility that a DEW from China caused this to happen? (Daniel) Land Grab: (Response Video) Now here are 2 other things that are just not....well "normal" Maui Police Chief John Pelletier Was Las Vegas Mass Shooting Commander. He also attended the FBI academy.... https://twitter.com/realstewpeters/status/1691143609930625038 No Warning System, Children At Home, Human Trafficking And to top all this off.....Joe Biden.....No Comment	https://www.truthcomestolight.com/?on-the-wef-global-plans-for-smart-city-governance-who-caused-the-fire-in-hawaii

Segment 2: Bill Gates' Engineered Ticks Cause Meat Allergies?"

Hook	"Did you know there are ticks that can make you allergic to meat? A specific type called the lone star tick can cause Alpha-Gal syndrome (AGS) if it bites you. Normally, eating meat doesn't trigger a reaction, but when this tick introduces alpha-gal to your body, your immune system treats it as an invader and produces antibodies like immunoglobulin E (IgE). These IgE antibodies then react to alpha-gal in foods like steak and bacon. This phenomenon is rapidly spreading. In 2021, positive AGS test results increased by 41.3% compared to 2017, with 66,106 people tested that year. But is this accidental? Clues suggest figures like Bill Gates and Big Pharma might be involved. Let's explore these clues."	https://www.scientificamerican.com/article/this-tick-can-make-you-allergic-to-meat-and-it-s-spreading/ https://americanfaith.com/bill-gates-funded-research-into-genetically-engineered-cattle-ticks-now-450000-americans-have-red-meat-allergies-from-alpha-gal-syndrome-caused-by-tick-bites/ https://twitter.com/InfoWars_tv/status/1688829702113202176 https://www.defenseone.com/threats/2019/07/did-us-invent-lyme-disease-1960s-house-aims-find-out/158529/
Setup	Clue #1 - Back in early 2022 and 2021, several scientific sources reveal that scientists created a gene editing tool for ticks to fight back against diseases. The methods could allow scientists to alter parts of the tick genome that are involved in harboring and transmitting pathogens. (This is from Penn State) NIH had a similar article written back in May of 2021. Here's Clue #2: In the same year, The Bill & Melinda Gates Foundation awarded a substantial grant of \$1,469,352 for researching the Rhipicephalus microplus (known as the 'Asian blue') tick. This tick	https://www.psu.edu/news/research/story/worlds-first-gene-editing-tools-ticks-may-help-decrease-tick-borne-diseases/ https://allianceforscience.org/blog/2021/05/gates-foundation-funds-research-to-control-cattle-ticks-through-biotechnology/ https://www.ncbi.nlm.nih.gov/pmc/articles/PMC8141593/ https://americanfaith.com/bill-gates-funded-research-into-genetically-engineered-cattle-ticks-no

	is linked to AGS, confirmed by a publication in the ImmunoTargets and Therapy journal at the U.S. National Library of Medicine (NLM). The grant went to Oxitec Ltd., a biotech company that genetically modified male ticks with a 'self-limiting gene.' The goal was to control tick populations by releasing these modified ticks to mate with wild females in high-infestation areas. By June 2023, after Oxitec reported successful tick experimentation, the Gates Foundation granted an additional \$4.8 million. Now, let's uncover what Bill Gates had	w-450000-americans-have-red-meat-allergies-from-alpha-gal-syndrome-caused-by-tick-bites/

Hook	"Did you know there are ticks that can make you allergic to meat? A specific type called the lone star tick can cause Alpha-Gal syndrome (AGS) if it bites you. 	been involved in before all this. Context is crucial, after all. Back in 2017, his foundation provided over \$1 million to Ceres Nanosciences, a diagnostics company focused on detecting Lyme disease. So it does appear that Bill Gates had some hand and influence in research and experimentation on Ticks. And here's clue #3... During a lecture at the 2016 World Science Festival, Dr. Matthew Liao, director of the College of Global Public Health's Center for Bioethics at New York University. https://twitter.com/InfoWars_tv/status/1688829702113202176	

Hook	"Did you know there are ticks that can make you allergic to meat? A specific type called the lone star tick can cause Alpha-Gal syndrome (AGS) if it bites you. Climax	So it's clear what they're trying to do. It appears that they're trying to make more and more people allergic to eating real meat. And they'll try to justify this by saying that it's good for the climate somehow because cow farts are apparently bad for the environment, right? But if you follow the money, this has NOTHING to do with climate change. The REAL goal is two fold. It's all about Making more money for Bill Gates and Big Pharma.	

Hook	"Did you know there are ticks that can make you allergic to meat? A specific type called the lone star tick can cause Alpha-Gal syndrome (AGS) if it bites you. 	Bill Gates clearly wants more people in the world to be allergic eating real meat. This way, those with red meat allergies can switch to his lab grown alternatives. Bill Gates owns companies like Impossible Foods which creates meat alternatives. Basically plant-based meats which several reports indicate that it's worse for you and can make you sick. Might actually be the real goal so that Big Pharma can sell treatments and pills. Second - my prediction is that companies like Pfizer is going to come up with a "treatment" to ease the allergic reaction you'll get from eating your favorite rib eye or fillet mignon. It'll

	be some kind of a pill or a shot you take every 30 days or so. Each time you take it, the big pharma brands will get richer and richer. Subsequently, whoever holds the patent to the genetic technology behind these ticks will receive a royalty fee - likely to be Bill.	
Resolution	Our global elitists want more people to eat less natural foods, leading all of us to be sicker, weaker, and dependent on artificial food programs.
