

Hair/Makeup IG Posts Ideas:

1. Are you frustrated by stylists that do not listen to your needs? Are you looking for a fresh start?

Let's have a friendly chat where we can explore the most suitable option for you based on your needs and lifestyle. Start collecting your inspiration photos, either DM or call the salon at [insert phone number] and let the adventure begin!

Doing hair and makeup is my passion, making people feel more confident and bringing out their inner beauty is my calling. See you soon xoxo

2. Summer is right around the corner. Let's ditch those darker tones of the winter and welcome the lightness of the summer with healthy shiny hair.

So what are you waiting for, will it be strawberry blonde season or honey blonde? Or any other variations of your desire [within limits of respecting the hair integrity]? Appointments are now available for a limited time. Secure your spot before it's too late! DM or call at [insert phone number], and let's start the transformation.

3. Huge congrats to the class of 2024! You have now made it to your prom season, and you must be very proud of yourself. How about we team up together and make this prom a night to remember by? Yes I am not able to attend your prom but my makeup application and skills can make sure you look extra stunning in all your photos for the years to come!

What should we do? Hollywood glam? Glittery eyes or bold lips? DM your inspiration photos and don't forget to book your appointment today before it's too late!!!
xoxo

Public Service Announcement
