PROFESSIONAL EXPERIENCE

Company ABC

2012 – Present

A fast-growing multinational internet search engine company in Ho Chi Minh City, Vietnam.

Senior Software Developer & Team Leader

Led 3 person team. Worked closely with other developers to plan and launch features related to the financial systems of web-enabled merchant services.

Responsibilities:

- Set priorities, assigned tasks and gave feedback to developers on team.
- Collaborated with QA, product owner and scrum master to assess ROI, prioritize needs and produce high quality software changes.
- Identified key software architecture decisions, discussed with product owner to plan best structure for future feature additions.
- Implemented coding changes to search engine algorithm and transaction processing systems.
- Coordinated a geographically distributed team through online collaboration tools like Trello and daily Skype calls with overseas partners.
- Designed reusable components by utilizing various standard frameworks.
- Evaluated requirements and initial mock-ups; made technology recommendations that supported optimal construction, maintenance and performance.

Achievements:

- Increased speed of development cycles by 40%, from 5 to 7 releases per quarter through better planning, eliminating duplicate work and better communication.
 - Improved bug elimination to 100% every 2 weeks by creating bug tracker tool and training team in its use.
 - Made user chats searchable by redesigning chat file format and implementing backwards compatibility for search.
 - Eliminated cost overruns and delays for more than 25 projects by making a record and fixing regularly the system.
