

Directions for manually updating Chrome

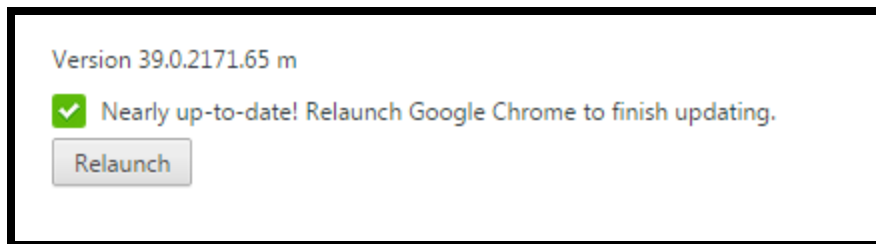

1. Go to the Settings using the 3 bar menu on the right hand side of your chrome toolbar and select About Google Chrome!

Once on the page you will be prompted to update the chrome to the latest version - you can complete this process by clicking on YES at the following screen:

Once complete you will see a relaunch option as shown below:

3. Relaunch your chrome.

Cautions

1. Tech leaders may have to complete this process for webmasters without rights (secretarial staff, teachers, etc)
2. **Do not** run the update on devices that might be used for testing since we have not completed our district tests of this version will all online testing options.
