

Fynni Gems Passive Income Guide:

Guild Daddy Marotori says:

"

- *Rank homesteads to 6*
- *Punch werewolves*
- *Put 3 cages down (assuming you also have the freebie for 4)*
- *Blossom should be on all Alts and main*
- *Profit"*

This includes the following steps in order(ish) as follows:

1. Create 8 characters
2. Get lvl 6 Homesteads on all characters
3. Obtain the Fynni Blossom Skill
4. Create 22 Fynni Homestead Cages
5. Collect Werewolf Fynni Gems
6. Blossoming the Werewolf gems on all characters
7. Sell 30/day Fynni Werewolf Whistles
8. Repeat steps 5-7

***Additional Requirements:**

A Main Character strong enough to solo Fiodh Int dungeon.

A Main character with the [Pet Training] Questline completed. Reference:

https://wiki.mabinogiworld.com/view/Pet_Trainer_Quests#Peculiar_Children

Steps in Detail:

Create 8 Characters:

- This should be simple enough in 3 card categories as follows:
- Initial Card:
 - This is the initial card you get from creating a new Mabinogi Account. Just use this to create your first character.
- Classic Card:
 - Upon completing the tutorial questline, you obtain 5 classic cards.
- Assistant Card:
 - You can obtain two additional cards by meeting with the Elf, and Giant leaders, and allying with each.

- This should leave you with $1+5+2=8$ Characters needed for the maximum Fynni Whistles to turn in per Mabinogi account.
- Notes:
 - Additionally, see https://wiki.mabinogiworld.com/view/Character_Cards for reference.

Get lvl 6 Homesteads:

- Experience required:
 - The cheapest method to get lvl 6 homestead, is to build 1 tent, 3 fields, and the rest into strawberries. Lvl 6 requires 3800 experience - 200 for the tent/fields = 3600 needed. Using strawberries, this will require 18 of them to lvl 6.
- Homestead Stones needed:
 - That will equate to 5 (tent) + 6 (3 Fields) + 54 (18 Strawberries) = 65 homestead stones, which is 7 real days of mining 10 homestead stones per character.
- Fast/Expensive method:
 - Additionally, you can lvl your homesteads by obtaining 'Homestead Golden Sprout' items, which provides 500 homestead experience. Each Sprout at the time of writing this, is roughly 75-100k each.
 - That means $3600/500 = 8$ sprouts (or 7 + 1 strawberry) per character = 64 (or 56 + 8 strawberries) which equates to 4.8~6.4mil gold required for a quick, same-day method to lvl all your required homesteads.
 - **Note: Additionally, see** https://wiki.mabinogiworld.com/view/Homestead#Homestead_Size_and_Experience for further reference.

Obtain Fynni Blossoming Skill:

- Getting Fluffy Fynn Bell tool:
 - You will need to find the NPC Price. He can be located by opening Info -> Traveler's Guide -> Price Current Location (Exmple: Dugald Aisle).
 - Once you find Price, you will need to buy 8 Fluffy Fynn Bell tools from him. The cost of this will be 1500 gold each ($1500*8=12,000$ Gold).
 - (See <https://wiki.mabinogiworld.com/view/Price> for reference)
- Starting Pet Training Questline:
 - Equip the Fluffy Fynn Bell tool, and you will automatically get the [Pet Training] questline.
- Getting Blossoming:
 - You will need to progress through 3 of the [Pet Training] Quests until you complete 'Two Pieces of Cotton Candy'.
 - Upon completion of 'Two Pieces of Cotton Candy' you will have a Fynni Pet, a free Blossoming Cage, and the Blossoming Skill.

- Note: If you are on your second character, you will notice you do not acquire a second 'Basket of Something Soft and Furry'. Instead of this item, you simply need to just summon your Fynni pet you created from the initial character when this comes up in the questline.
- Additionally, see https://wiki.mabinogiworld.com/view/Pet_Trainer_Quests for reference.

Create 22 Fynni Homestead Cages:

- 8 Cages for free:
 - You will get 1 cage for free per character. You will still need 22 additional cages for maximum selling per account.
- Crafting 22 cages =
 - 440 branches (Punching trees : <https://wiki.mabinogiworld.com/view/Branches>)
 - 1100 bundle flowers (Hoeing Flower patches in Emain Macha: https://wiki.mabinogiworld.com/view/Bundle_of_Flowers)
 - 220 iron bars (220 Iron ingots converted : https://wiki.mabinogiworld.com/view/Iron_Bar)
 - 440 Common cuilin stones (Mining in Sliab Cuilin: https://wiki.mabinogiworld.com/view/Common_Cuilin_Stone)
 - 110 sundew (Magic craft combining Shyllien, and Mutant Plant Mucilage : <https://wiki.mabinogiworld.com/view/Sundew>)
 - 220 Homestead Stones (3 additional days on all characters mining homestead stones)

Recommended Gathering methods:

- **Branches:** Punch trees with a pet active to double drop chances. Recommend you get a Border Collie pet. It is still available in the web shop for 4.7k NX. This pet collects dropped items automatically as long as it has stamina. I get around 2,500 branches a day with my branches collecting pet.
 - Also recommend fynni sync the pet for extra summon time, lvl it to 150~200, and utilize stamina regen skills to keep the pet gathering. I use Harmonic Saint lvl 50 skills, r1 Echoes of Salvation + r1 Voice of Vitality for infinite stamina regen for 3 minutes, rinse/repeat hours of collecting. You could get away with just Divine Link + r1 Enduring Melody skills.
- **Flowers:** Utilize a decent Hoe, and Phantasmal Sight with a Flower gathering Dollbag. At Emain Macha's East exit, there's a patch of 6 flowers you can gather from. (Also if you get Fresh Grass, craft/sell it. They are worth quite a bit as both grass or artificial turf in the AH)
- **Common Cuilin Stones:** Utilize Phantasmal Sight technique, and collect Huge Lucky's only. Easiest method is to craft Homestead Round Cuilin Stones in a 4x4 circle formation in your Homestead. You can also just utilize the normal areas to gather, but there's really only 7 stones you can utilize at once. With the Homestead method, you can get clumped up 10~12 Stone nodes no problem.
*(Unfortunately there is no Dollbag to pickup Cuilin. You will have to Alt+Click pickup each one yourself)
- **Sundews:** Collect Shyllien, and Mutant Plant Mucilage. If you're strong, in Area 2, within the Sasquatch mob mess, there's a giant crystal. This crystal has a 100% chance to drop Shyllien and stained Shyllien (Recommended to bring a 5/5 speed oak staff). Kill all mobs until they are spawn timer locked. Collect the mucilage while everything's dead as well.

Recommended to make Assimilation potions. These make it so no enemies target you for 10 minutes upon use. You can kill plants and/or just harvest directly to the big crystal

***(https://wiki.mabinogiworld.com/view/Shyllien_Assimilation_Essence)**

- **Iron Bars:**(Usually last item I gather) Iron bars take 1 Iron Ingot to make. Cheapest method is to Synth iron ingots with 1 iron bar + 25 Arat Crystals + 25 Holy Water.

***(See [Mabinogi Quick Synthing Guide](#) for more synth info)**

Then Craft an incomplete iron bar. Once you attempt to craft another, it will auto-populate the incomplete bar to complete. DO NOT COMPLETE; just click it out, and auto select another iron ingot. Do this repeatedly to save time and resources.

I repeat, the cages do not require completed Iron bars. It will accept incomplete bars no problem during cage crafting.

***(Please see [Mabinogi - How to Cheese Gathering](#) for further details on gathering methods and recommendations.)**

- **Crafting:**
 - To make a cage, you need to teleport to your Homestead, open the build menu, select Product Tab, and select Blossoming Cage.
 - You can transfer your mats to your alt characters to also craft in their homesteads to use their homestead stones, spreading the cost evenly.
- **Fast/Expensive method:**
 - Additionally, you can buy Homestead Blossoming Cages from the Auction house. Current prices range from 1~1.5mil.
 - This is roughly 22~33mil needed for all characters.

Collect Werewolf Fynni Gems:

- **Fiodh Int Dungeon:**
 - The current fastest method for obtaining Rank A Fynni Gems to blossom, is to run through Fiodh Int dungeon.
 - You can obtain Int Passes from the 'Researcher' NPC whos located to the most western end of the Dunbarton map (He also provides Veteran Passes)
 - Each Fiodh Int Pass costs 29,450 gold, and nets roughly 20~30 (25 avg.) Werewolf Fynni Gems per run.
 - You will need to successfully be able to run the dungeon, hit all the extra orbs, and collect all fynni gems.
- **Notes:**
 - Werewolves start to appear roughly around the 8th room and beyond, so speed through the first few rooms if you can.
 - For new characters, it might be best to run your main character through the Blaaid questline, and build up some AOE skill such as Chain sweep to clear mobs within the dungeon easier.

- ALSO NOTE: you only need to collect the Fynni Gems on one character, and transfer them via Bank to the other alternative characters.

Blossoming the Werewolf gems on all characters:

- Passing Werewolf Fynni Gems to all characters:
 - Once you have at least 30 Werewolf Gems, place them in the bank preferably in even stacks 4,4,4,4,4,4,2
 - Each character will then open the bank, and receive their needed gems for Blossoming.
- Blossoming:
 - You will simply take your Gems, Go to your homestead, click on the Blossoming cage, and place in the Werewolf gem.
 - **Note: Expect a 22 hour wait to blossom with Rank F.**

Sell 30/day Fynni Werewolf Whistles:

- Collecting the Fynni Pet Whistles:
 - Once the 22 hour time for Blossoming to complete, you can then collect the Fynni Pet Whistles from the Cages.
 - Simply click on each, and collect with each respective character.
- Trading Whistles to Main Character:
 - You will need to Store your Whistles in the Bank, and have your main character pick up for selling.
- Accessing Mag Mell:
 - You will need access to Mag Mell on your main character. Unlocking access to Mag Mell requires the player to do the Peculiar Children questline.
 - This essentially means completing the [Pet Training] Questline. Reference: https://wiki.mabinogiworld.com/view/Pet_Trainer_Quests#Peculiar_Children
- Selling the Whistles:
 - Finally, once you have Mag Mell unlocked, and your Whistles in your inventory, you will want to meet a Deer NPC by the name of Fionnait in Mag Mell.
 - You need to select 'Trade' -> Sell Fynni Whistles -> Sell all
 - Once you sell 30 Rank A Whistles, you will receive:
 - 1.2m Gold + 270~300 Gold Pine.
 - Note: You can do this with 30 Fynni Pet Whistles a day for the gold amount. You can continue receiving Gold Pine for additional whistles after the initial 30 a day, but not advised as the main point is to make gold.
 - Gold Pine can be used to collect 5 Precise Reforges a week (60*5=300 Gold Pine Required), and some ingredients for making pet beds.

Repeat steps 5-7:

- From here, you will be making essentially a passive, low-effort gold farming technique to receive 1.2M gold a day, along with Gold Pines for extra reforges, pet beds, and recovery potions (Needed if you ever mess up enchanting or special upgrading an expensive weapon)
- This process again, can be done every day for as long as it doesn't get nerfed.
