

Primary Blogging Sites

Are you a primary (ages 3 - 8) teacher who has a classroom blog or blogs for your students? Please add your link(s) below to help teachers who are interested in blogging to see examples of blogs. This document was started by [Kathy Cassidy](#), but includes all of these great resources thanks to the generosity of the teachers whose blogs you see listed below.

Are you a teacher who has never had a blog, but would like to see some examples? This is for you. These blogs are sorted by *blogging host* (for example, "Blogger" is the name of Google's free blogging service). If you like one of the blogs below, just look at the header it's listed under to find the name of the service and a link to sign up. (Note: Some blogs previously on this list that seemed to be no longer used [but were awesome blogs!] have been moved to a [new document](#).)

Blogger ([sign up here](#))
