Abstract

Abstract consists of no more than 250 words containing a brief description of the research background, research objectives, materials and methods, research results, and conclusions. Abstract must include a minimum of 3 words and a maximum of 5 words. Abstract is made in one paragraph. Abstract written using Arial font size 10 pt, single space.

Keywords: abstract, brief, conclusions, methods, objectives

INTRODUCTION (Capital letters, Arial 12, Bold, Justify)

Introduction contains general background, problem formulation (derived from the disagreement between empirical reality conditions), research gaps (voids resulted from the review of previous studies on the related topic), literature review, research novelty/contribution, the author's main argument, and the purpose of article writing. (Font: Arial 11 pt., Space 1.15, Justify)

LITERATURE REVIEW (Capital letters, Arial 12, Bold, Justify)

It contains theories / concepts / approaches / perspectives / paradigms, etc. which will be used to analyze certain cases or selected topics. The naming of the analytical framework may be adjusted or replaced by the names / terms that reflect the conceptual or theoretical framework to be used. (Font: Arial 11 pt., Space 1.15, Justify)

RESEARCH METHOD (Capital letters, Arial 12, Bold, Justify)

Minimum research method consists of research type, type and source of data, data collection techniques, and data analysis techniques. (Font: Arial 11 pt., Space 1.15, Justify)

RESULTS AND DISCUSSION (Capital letters, Arial 12, Bold, Justify)

This section contains an analysis of the cases / topics which is based on the predefined analytical framework. Discussion is subdivided into categories based on elements / components / variables in the analytical framework. In this section, the author can also add a separate section to discuss additional things which are not included in the previous categories. In this section the author should clearly state the answer to the research question. (Font: Arial 11 pt., Space 1.15, Justify)

CONCLUSION (Capital letters, Arial 12, Bold, Justify)

The conclusion part does not contain repetitions or fragments described in the previous section of discussion. This section reaffirms the case / issue topics in writing, the arguments and the author's findings in a concise way. In this section, the author presents critical reviews to the

analytical framework used in the writing and provides advice on future studies of the related cases / topics. (Font: Arial 11 pt., Space 1.15, Justify)

ACKNOWLEDGEMENT (Capital letters, Arial 12, Bold, Justify)

The author is able to acknowledge contributors who are not eligible for authorship in the acknowledgement section. Such contributors might include: (a) parties who provide financial support (e.g. scholarship, research grant); (b) parties who provide non-authorship assistance (e.g. proofread, consultation, informant) to the author during the writing process of the article.

REFERENCE (Capital letters, Arial 12, Bold, Justify)

Reference is written in arial, 11 pt., and 1 spacing. Each entry of the reference uses a 1.25-cm-sized hanging indent. The bibliographic list should have been written in ascendingly alphabetical order of the last name of the authors. References of manuscripts originating from more than one type should be classified according to books, journals, research reports, working papers, seminar papers, newspapers / magazines, official publications, annual reports, articles and other media at the time of initial submission. The author should use American Psychological Association (APA) 7th edition referencing style. We recommend using citation devices on References tools in MS Word, Mendeley, Grammarly, or Endnote.

An article is no more than 10 pages
