

Privacy Policy for PriceWatch ID

This Privacy Policy governs the manner in which PriceWatch ID collects, uses, maintains, and discloses information collected from users of the PriceWatch ID Chrome Extension.

1. Data Collection and Use

PriceWatch ID reads the URL of active browser tabs solely to detect if the user is currently browsing supported e-commerce websites (Tokopedia and Shopee). It also reads HTML content from product pages to extract price information for tracking purposes. This data is processed locally on the user's device and is not sold or shared with third parties.

2. Storage

The extension uses the browser's local storage to save the list of tracked items, target prices, and product IDs. No personal or authentication data is stored.

3. Changes to This Privacy Policy

We have the discretion to update this privacy policy at any time. Users are encouraged to check this document frequently for any changes.
