

Dear e-NABLE Community,

Wildemont, LLC, a strategic change management consulting firm, proposes a partnership with our network to enhance our global reach and impact.

Led by Dr. Adam Jennings and Jason Theunissen, Wildemont offers expertise in process optimization, outreach planning, organizational design, sales, and digital marketing. Their approach involves Wildemont Basecamp, a comprehensive data collection and analytics exercise, to clearly define our current state and identify opportunities for improvement.

Wildemont has identified key areas for development within our community:

1. **Member Engagement:** They propose strategies to enhance community involvement, such as social activities, online hub participation, and support for independent projects. They also suggest offering Continuing Education Units (CEUs) and recognizing volunteer hours to incentivize participation.
2. **Project Ownership:** Wildemont plans to address stalled projects by implementing a project management system, establishing a badge approval team, setting up a help desk team, and providing logistics support.
3. **Fundraising, Grant Capture, and Donor Outreach:** Wildemont aims to expand our funding pool through a comprehensive fundraising and donor outreach strategy. Additionally, they will pursue government grants and corporate sponsorships for targeted endeavors (e.g., growing our rehab engineering and assistive technology capabilities).

Understanding the financial realities with which e-NABLE operates, Wildemont is offering our community a significantly discounted monthly retainer agreement. Here is a breakdown of the proposed pricing structure:

Service	Description	Cost
Monthly Retainer	Up to 40 hours of consulting services per month	\$1,980 per month
Contract Duration	6-month renewable contract with a minimum engagement of 3 months per contract	Payment made quarterly at the start of each retained quarter
Grant Capture Service	Identifying, applying for, and securing funding opportunities	Separate from the quoted retainer fee. Project execution for secured funding can be conducted by Wildemont at their standard rates

This represents a 70% discount from Wildemont's standard rate.

At recent Town Hall meetings, Adam Jennings shared Wildemont's vision of a future in which our community forms deeper and more meaningful ties with amputees, clinicians, and systems of healthcare infrastructure, greatly expanding our reach and impact. They are excited about the potential of this partnership and are committed to our success.
