Notes/Minutes

- Keith asking about the lidar acquisition information so we can do a separate meeting
 - Tom Carlson: BAA process timeline, collection timeline, post-collection timeline, partnering agencies and differences
 - Arron Lee: perspectives and comments from vendor perspective
 - Keith: Followup questions for Marshall and Rynn and Tom: what are the cost/benefits for multiple partner complexities vs cost of scale
 - FEMA Marshall and Rynn: discussion of considerations and process for Tribal lands
 - Jason Wright: Where are these people finding out about the data that is not available?
 - Discussion: from 'upcoming data' page, Interagency Elevation Inventory - engineering firms are asking about
 - Make website more clear?
 - Geoff Klein: question for Tom: what are USGS' feelings on prioritizing backlog of queue, or getting advanced copies of data, if time-sensitive need
 - Jason update: 2019 Adams Co data final vertical accuracy has been accepted, USFS has hard copy, regional office
 - Contact Sanford Moss RE getting a copy

Action items:

- Josh: email Tom, Marshall, Eric to schedule meeting
- Josh: add Tom's list of project status updates to the website
- Josh: email Sanford and Keith RE 2019 Adams Co
