Before you look at this document and go “I’m not reading this.” I want you to understand a few things. I used to use F-List before this, but after learning of the unsavory and immoral things the website allows for I no longer felt comfortable on the platform, so I decided to migrate everything I had put down there onto here.

I’m also taking this time to put down more information that wouldn’t fit in a Twitter post, so think of this more as an extended pinned tweet than a giant monster of a document that you’re forced to read. With that being said, information is located below, then the kinks and limits below that.

Any additional information can be asked about. I’m still trying to think of all the finer details in her storyline, so that’s why none of it is listed.

Without further delay, though. Kinks and limits located below in order of preference.
