- Fishing curriculum Mrs. Davis
MCP & Vista have been doing "Cast a Fly, Catch a Student" learn about water & fishing safety. Gives kids an opportunity to learn something new that they could do outside and enjoy life long. Goal would be to teach it 3rd – 5th grade for a 10 week unit and then possibly do a 5th grade field trip to take them fishing. It is a 3 year commitment but 1 time fee. She has to pay \$2500; has a \$1000 grant; has looked for assistance through Communities in School but hasn't received any yet; Heidi had asked her to ask PTO and then she would try to add from building budget to finish it. Katie is trying to find places but haven't been able to as of yet. Alyssa proposes we pay the \$1500 now so we can get it started and then if we can get any donations to offset.
