TITLE (Times New Roman 14)

The title of the paper should be concise and informative. . It should be written clearly and concisely describing the contents of the research.

Author X[1], Author XX[2], AuthorXXX[3] (Times New Roman 12)
Affiliation includes departemen, faculty or University, city, and country
Corresponding : mobile phone and active email

ABSTRACT (Times New Roman 10)

Abstract must be integrated and independent which is consist of introduction and purpose, methods, results, and conclusion. Abstract must be written using 150 until 250 words which has no reference and accompanied keywords

INTRODUCTION (Times New Roman 11)

State the objectives of the work and provide an adequate background, avoiding a detailed literature survey or a summary of the results. Explain how you addressed the problem and clearly state the aims of your study. As you compose the introduction, think of readers who are not experts in this field. Please describe in narrative format and not using sub-chapter.

METHODS (Times New Roman 11)

Explain in detail about the research design, settings, time frame, variables, population, samples, sampling, instruments, data analysis, and information of ethical clearance fit test.

RESULTS (Times New Roman 11)

Result should be presented continuously start from main result until supporting results. Unit of measurement used should follow the prevailing international system. It also allowed to present diagram, table, picture, and graphic followed by narration of them.

Table 1. Table title begins with a capital letter, in a centered position above the table

Indicator	Code	Aspect	Value	Result	Description
Reliability	P1	xxxxxxxxxxxxxxxxxxxxxxxxx	xxxx	xxxx	….
	P2	xxxxxxxxxxxxxxxxxxxxxxxxx	xxxx	xxxx	….
Caution		Do not use bold letters in the title and contents of the table			

Gambar 1. Judul gambar diawali dengan huruf kapital, dalam posisi di tengah di bawah gambar, menggunakan format *sentence case*

DISCUSSION (Times New Roman 11)

Describe the significance of your findings. Consider the most important part of your paper. Do not be verbose or repetitive, be concise and make your points clearly. Follow a logical

stream of thought; in general, interpret and discuss the significance of your findings in the same sequence you described them in your results section. Use the present verb tense, especially for established facts; however, refer to specific works or prior studies in the past tense. If needed, use subheadings to help organize your discussion or to categorize your interpretations into themes. The content of the discussion section includes: the explanation of results, references to previous research, deduction, and hypothesis

CONCLUSIONS (Times New Roman 11)

Conclusion should be explained clearly related to hypothesis and new findings. Suggestion might be added contains a recommendation on the research done or an input that can be used directly by consumer.

REFERENCES (Times New Roman 11)

The author-year notation system is required and completed. All reference mentioned should be written down in reference using **Harvard Cite Them Right 10th Edition** style and arranged from A to Z, and minimal 25 references.
