**1. Kondisi**

Rangkaian percobaan 3 kondisi

Buatlah rangkaian seperti pada percobaan 3, ubah gerbang OR satu input 2 output menjadi gerbang NOR

**2. Gambar Rangkaian**

a) Sebelum rangkaian dijalankan

The image shows a logic circuit diagram. It consists of two input lines on the left, each with a small circle at the end, representing logic gates. These two lines connect to a single output line on the right. The output line has a small circle at the end, representing a logic gate. This configuration is characteristic of a NOR gate.
