Reflect

How easy or difficult was this to build a capsule wardrobe from beginning to end on Polyvore? How easy or difficult would it be to do in your own closet, with the clothing you already own? Do you think you could realistically minimize your wardrobe for each season into 30 pieces? Explain why or why not?

Extend

Create a capsule wardrobe with your own personal closet, documenting the process from beginning to end with a journal and photos. Photograph or video yourself modeling some of your final capsule collection. Utilize the [Capsule Planner](#) in your organization process.

After you've created and evaluated your capsule wardrobe, what is missing that you feel would complete the capsule?
