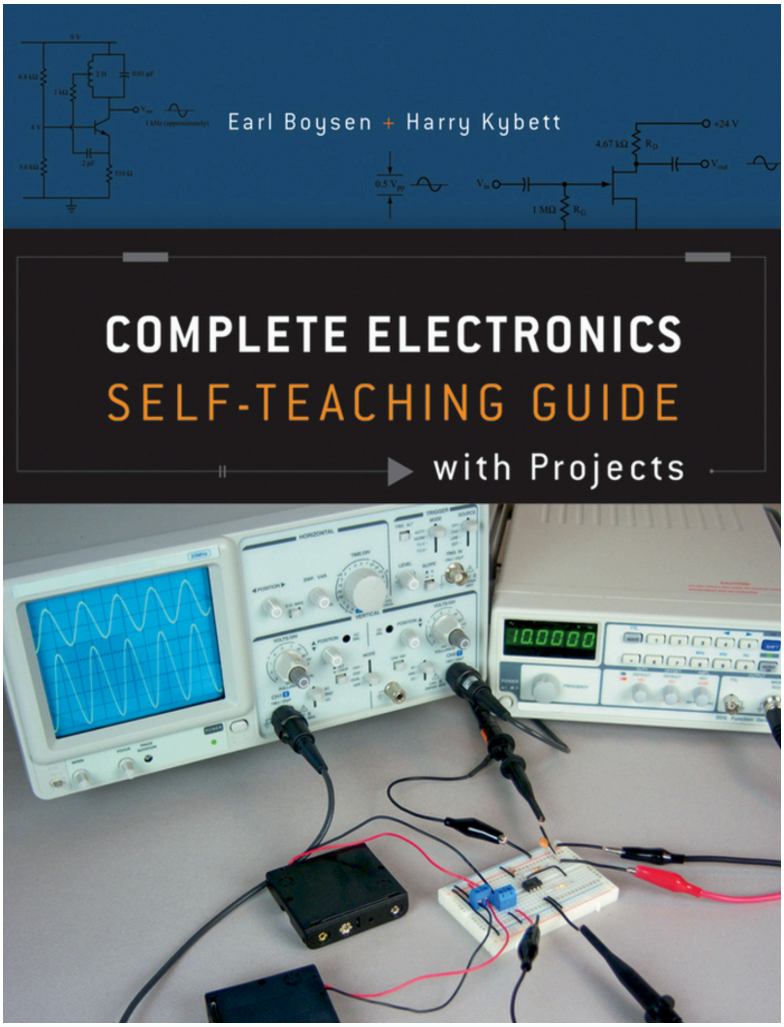
Homework 3

To help you out getting the most about your electronics understanding, read the following chapter and turn in a Word File with the answer to all the exercises in the chapter.

Exercises are both presented as “Questions” inline with the text (for example at page 4, you see questions A, B and C) and at the end of the chapter (DC Pre-Test at page 44). Answer both indicating the page for the questions (4A, 4B, 4C….). Note that some “Answer” boxes were not blank out and you do not need to answer those questions. Those answers are there to help you with the understanding. They are there for your understanding.


Submit your answer sheet (zipped doc file) using the online system by deadline.
