Living School is designed to help every student graduate with all of the following: a [TOPS University Diploma](#), college acceptance, a trade certification, a living-wage job offer, *and* the habits of a healthy life. We learn in a multi-disciplinary, project-based way, all while helping students earn the credits and certifications they need to succeed at whatever they want to do after high school.

9. Who is Living School affiliated with?

We are a new school that was born from a community organizing project that has involved over 1,000 New Orleanians and community members since 2012. We are a single-site charter school, not formally affiliated with any other schools or organizations, though we collaborate with many kindred folks around both New Orleans and the rest of the world.
