

Sustainability Case Studies Activity

Activity and Discussion:

1. In groups of 3 people, each person will be assigned to read one article about one company's efforts to achieve sustainability, or an industry's efforts to be more sustainable.
2. In the table provided below, use your assigned reading to answer each question or category by writing down main points or ideas or drawing a diagram or cartoon.
3. Summarize your findings to your group of 3. You may read a summary of points, or use your diagram or cartoon to explain what you have learned to your group members. Based on the summaries of your group members, use the space provided on this worksheet to take notes on the other categories.

Sustainability Case Studies

Company Name #1	
Sustainability Program or Action	
Benefits	
Drawbacks, ways to improve sustainability	

Company Name #2	
Sustainability Program or Action	
Benefits	
Drawbacks, ways to improve sustainability	

Company Name #3	
Sustainability Program or Action	
Benefits	
Drawbacks, ways to improve sustainability
