ABSTRACT

The abstract should be written in the same font and format specified in the template. Do not modify the formatting style. The abstract should contain 200-300 words and clearly summarize the purpose of the study, methodology, key findings, and major conclusion.

Keywords: Please provide 3–5 relevant keywords that reflect the core focus of the study.

INTRODUCTION

This section should introduce the research topic, provide the background of the study, and explain the significance of the research. Authors should clearly state the research problem, objectives, and the overall scope of the study.

The main text should be written in Bookman Old Style, font size 11, single spacing.

Level 1 heading in sentence case

Level 2 heading in sentence case

LITERATURE REVIEW

This section should review relevant theories, previous studies, and scholarly work related to the research topic. The literature review should demonstrate the research gap and explain how the present study contributes to existing knowledge.

METHODOLOGY

This section should clearly describe the research design and procedures used in the study. Authors should include details such as:

- Research design
- Population and sample
- Instruments or data collection methods
- Data analysis techniques

Figure 1 Title of figure in sentence case

Tahap konstruk dan dimensi dominan

FINDINGS AND DISCUSSION

This section should present the findings of the study. Results may include tables, figures, graphs, or statistical analyses where appropriate.

The main text should use font size 10, Bookman Old Style, single spacing.

Tables should use font size 10 and be labelled sequentially (Table 1, Table 2, etc.).

This discussion should interpret and explain the results of the study. Authors should relate the findings to previous research, discuss implications, and highlight important insights derived from the results.

CONCLUSION

This section should summarize the key findings of the study and highlight the overall conclusions. Authors may also include recommendations, limitations of the study, and suggestions for future research.

REFERENCES

References should be written in Bookman Old Style, font size 10, single spacing.

All references must follow the latest edition of the APA (American Psychological Association) Publication Manual.
