

ACTATEK EDGE AI FOR BANKS

Secure sensitive areas with resilient access control and building intelligence. Slashing energy bills by 25%+ — a system that pays for itself!

Audience Focus: Banks, branches, financial offices, cash-handling sites, and secure administrative facilities.

CURRENT MARKET SIGNAL

Financial sites need multi-factor access, audit trails, cyber-secure building systems, remote estate management, and resilient local control.

BUYER CHALLENGES & PAINS

- Banks require strong access rules, audit trails, multi-factor workflows, and protected back-office zones.
- Branch networks need consistent control, monitoring, and maintenance across many sites.
- Security-critical functions must keep working even during internet or cloud disruption.
- Constant cybersecurity threats

EXPECTED BUSINESS OUTCOMES

- Protect vault-adjacent, back-office, server, records, and staff-only areas.
- Reduce branch operating costs by controlling HVAC, lighting, and appliances by real occupancy.
- Unify security, workforce visibility, air quality, and energy automation in one platform.
- Enhanced cybersecurity protection

TAILORED SOLUTION FIT

- ACTatek supports RFID, biometrics, QR, and authenticators with single or multi-factor authentication.
- Encrypted communications and local edge operation align with banking-style reliability expectations.
- Remote diagnostics, online upgrades, alerts, alarms, and access logs simplify estate management.
- Integrates physical and cybersecurity to plug security loopholes

CORE PLATFORM CAPABILITIES

- Offline edge intelligence keeps credentials, schedules, logs, and automations active when internet service is unavailable.
- Unified control joins access, workforce tracking, HVAC, lighting, sensors, alarms, alerts, and video-aware visibility.
- Real-time occupancy plus sensor data supports 25%+ energy-saving potential by acting before spaces overheat or sit empty.
- Blocks local login attempts if not onsite as determined by physical access control

AI DATA ANALYTICS / APPLICATIONS

- Workforce Deployment: Optimize teller shifts and guard patrols based on customer entry traffic patterns.
- Facilities Optimization: Enforce vault dual-custody access rules requiring two authorized biometric scans.
- Predictive Maintenance: Smart IoT monitoring of vault locks identifies wear before breakdowns, keeping facilities secure and cutting emergency repair costs..

LAUNCH PATHWAY & STRATEGIC OFFER

Launch Angle: Deploy early in branches, back offices, records rooms, staff zones, and non-critical energy-control areas.

Recommended Offer: Deploy ACTatek where branch security and operational cost reduction need to work together.
