Arthur's Joke 2

Thought for the day, from Jamaica

Pfizer Corp. announced today that Viagra will soon be available in liquid form, and will be marketed by Pepsi Cola as a power beverage suitable for use as a mixer.

It will now be possible for a man to literally pour himself a stiff one. Obviously we can no longer call this a soft drink, and it gives new meaning to the names of 'cocktails', 'highballs' and just a good old-fashioned 'stiff drink'. Pepsi will market the new concoction by the name of: MOUNT & DO.

Thought for the day: There is more money being spent on breast implants and Viagra today than on Alzheimer's research. This means that by 2040, there should be a large elderly population with perky boobs and huge erections and absolutely no recollection of what to do with them.

**If you don't send this to five old friends right away
there will be five fewer people laughing in the world.**
