A passionate and results-driven Software Development Engineer with proficiency in modern programming languages, problem-solving, and software design. Seeking a challenging role to contribute to impactful projects, optimize performance, and collaborate with cross-functional teams to deliver scalable and reliable software solutions.

Technical Skills

- **Programming Languages:** Python, C++, JavaScript
 - **Data Structures and Algorithms:** Arrays, linked lists, trees, dynamic programming, sorting, and searching
 - **Version Control:** Git, GitHub, GitLab
 - **Software Development Lifecycle (SDLC):** Agile, Scrum, Waterfall methodologies
 - **Testing and Debugging:** Unit testing, integration testing, end-to-end testing, performance optimization
 - **Databases:** SQL
 - **APIs:** Gemini Api Integrations
 - **Front-end Development:** HTML, CSS, JavaScript, React
 - **Ui/Ux Designer:** Figma , UI developer , User-centric design skills
-

Professional Experience

Frontend Developer Intern

Nexverse , Pune Maharashtra

Jan 24 – june 24

- Built responsive web interfaces using React and CSS, increasing user engagement by 30%.
 - Implemented unit tests to ensure functionality and reliability of UI components.
 - Worked with the backend team to debug and resolve API integration issues.
-

Education

Bachelor of technology in Computer Engineering

G.H Raison College of Engineering and Management , Pune Maharashtra , India

Graduation Date: June 2026

Relevant Courses: Data Structures and Algorithms, Software Design, Database Management, Blockchain

Projects

Hospital Readmission Handling System [Tattva-AI](#)

- Developed a comprehensive application with team for reducing Patient Readmission rates

- Integrated APIs for real-time data retrieval and Machine learning Modules.
- Designed the user interface with Figma to ensure seamless user experience.

Technologies for Sustainability

- Created a presentation highlighting tech solutions for climate change, sustainability, and disaster management.
- Designed a prototype application to monitor carbon footprints, using cloud-based data analytics.

Blockchain Implementation for Secure Transactions

- Developed a prototype blockchain application for secure peer-to-peer transactions.
 - Implemented smart contracts for automation and transaction transparency.
-

Soft Skills

- Team collaboration and effective communication
 - Strong logical thinking and problem-solving
 - Adaptability to new technologies and frameworks
 - Time management and task prioritization
-

Interests

- Exploring frontend technologies and improving UI/UX design.
- Learning blockchain technologies to innovate secure applications.
- Engaging in photography and creative problem-solving.
- Designing intuitive user interfaces, having completed 12+ major design projects.
- Solving complex coding problems, with over 200+ questions solved on platforms like CodeChef, HackerRank, and LeetCode.
