

Session 1: Refining LOSCE Rubrics

Please revise the descriptor for this section of the rubric grid as needed. We will discuss the revisions later and use the final version for testing in the next session.

Original (Please do not edit the original sentences)

	Not done	Below expectation	Meets expectation	Above expectation
Patient centredness		<ul style="list-style-type: none"> • Doctor-centred consultation; does not involve patient in decision making. • Does not consider patient's values and preferences. 	<ul style="list-style-type: none"> • Involve patient in the consultation, including decision making. 	<ul style="list-style-type: none"> • Involve patient in decision making. • Incorporates patient's preferences and values in patient care

Revised (Please edit here)

	Not done	Below expectation	Meets expectation	Above expectation
Patient centredness Combine with management, must include patient-centredness in the management / communication domain		<ul style="list-style-type: none"> • Doctor-centred consultation; does not involve patient in decision making. • Does not consider patient's values and preferences. 	<ul style="list-style-type: none"> • Involve patient in the consultation including decision making especially addressing his or her idea, expectation, and concern. 	<ul style="list-style-type: none"> • Involve patient in shared decision-making • Incorporates patient's preferences and value aligns the
