Marion Terry- Spiderman

Calvin Pearson - Blood and Bone

I think the whole website as a whole worked, I finished the way I wanted to and it all came together smoothly. I believe I played the leader in this group, giving I was telling my classmates that they should do their website, I helped them by sending them links and giving many pointers to help them finish their website as well. I would rate this experience a 6 out of 10 because I didn't finish when I wanted to because the project was highly time consuming. I liked this project because of the background story of the movie I chose.
