<sup>\*</sup>When possible, "free" options are listed first. However, technology changes SO fast, we recommend checking with your school and other resources, like Cnet.com, to determine the best/most current brands for each type of software.

\*\* RECOMMENDED: Set up with parents at "back-to-school" night or equivalent.

## Log of Additional Software

In virtual learning, you will frequently use new software programs for a wide variety of purposes. Software is wonderful! But, it is also invisible. And, it can be challenging to understand and recall the purpose for every tool. The purpose of this log is to help you "see" all software tools in ONE place, to better comprehend and recall their purpose. This log is only to capture software above and beyond the "standard" tools listed on the previous page.
