Title	Progress Update	Status	ETA
Team Ico Retrospective	Ico, Shadow of the Colossus, The Last Guardian. All games have been recorded	Going Well	Fall 2023?
Super Mario Odyssey		Not Started	Christmas 2023
Katamari Damacy	Focusing on the brilliant design of the first two games, Keita Takahashi, Wattam, and the messages behind his games. Footage is mostly recorded and the script is partially outlined, but it shouldn't be too tricky to finish. We Love Katamari remastered just came out 😊	Paused	
Klonoa	KLONOA	Paused	
Metroid Retrospective	Not sure how I want to go about this, but I'm figuring it out right now!	Paused	
Left 4 Dead Retrospective		Paused	???
Mirror's Edge Retrospective	Includes my disappointment with Catalyst. Fear was one of the major reasons this video didn't release sooner. I was worried about the response to what I'd say about Catalyst, but I'm now realizing that I shouldn't have to be afraid of something that stupid. All footage is recorded and the script is partially outlined. Truthfully, I'm disappointed that I haven't made this video. I love Mirror's Edge more than most people do, and I have a lot to say. I recently picked this video back up out of nowhere. Maybe I'll finish it this time.	Paused	???
Uncharted Retrospective	Progress on this video has been completely reset since April 2020. With the PC port of Uncharted 4, I should be able to pick this back up.	Paused	
Understanding the Music of Kingdom Hearts	Been working on this video on and off for a while.	Paused

Xenoblade Chronicles	This would potentially be a MASSIVE project, so unfortunately I have to wait a while.	Not Started	
Understanding the Music of Halo		Not Started	
Halo Retrospective	I think I can finally do this. This video would likely be broken up into parts - the original trilogy, a short video on ODST, then a video on Reach, and finally a video on 343's reclaimer saga (Halo 4, Halo 5, Halo Infinite) This won't come out for a while.	Not Started	
TF2 - Class Analysis Videos	Deep dives into how each class matters to TF2, how each weapon/loadout can change the game (for better or worse), and a look at the characters themselves. So that's nine videos. I have no idea when I'll get started on this, as this is a massive project. A lot of it is contingent on playing in organized Highlander matches in pickup games. With that said, I have clips to work with from my years of experience with the game.	Not Started	
Something about TF2 Mann vs. Machine?	Maybe?	Not Started	
Understanding the Music of Persona		Not Started	
Super Mario Galaxy		Not Started	2023
Dishonored Retrospective	My brother and I wanted to work together on this someday.	Not Started	
Ms. Pac Man: Maze Madness	The arcade and puzzle design combo is fantastic in this game.	Not Started	
Snoopy Flying Ace	I can't buy this game, I can't download it - therefore I can't play it. And I really want to.	The Void
