

Wisconsin HOSA Competitive Events Summary

SECONDARY DIVISION - Regional and State Level Offered Events

POSTSECONDARY/COLLEGIATE DIVISIONS - State Level Offered Events

Emergency Preparedness Events		
CERT Skills (NEW)	Competitors will work together to demonstrate their knowledge and skills required for disaster preparedness and response.	Team (2 people) RLC = Online Testing at school & ThingLink Virtual SLC = On-site Testing & Skill Demo
CPR/First Aid <i>CPR/First Aid training and certification recommended</i>	Competitors will work together to demonstrate their CPR and First Aid knowledge and skills related to emergency situations.	Team (2 people) RLC = Online Testing at school & ThingLink Virtual SLC = On-site Testing & Skill Demo
Emergency Medical Technician <i>EMT course enrollment and/or completion recommended</i>	Competitors will work together to demonstrate their knowledge and skills within the EMT profession scope of practice. Critical thinking skills will be required in a mock emergency simulation scenario.	Team (2 people) RLC = Online Testing at school & ThingLink Virtual SLC = On-site Testing & Skill Demo
Epidemiology	Competitors take a knowledge test relating to epidemiology, the study of the effects of health and disease in populations.	Individual RLC = Online Testing at school SLC = On-site testing at State
Life Support Skills*	Competitors demonstrate skills related to basic life support to provide immediate, life-saving actions in the absence of emergency services. This event is specifically for HOSA members who are classified under IDEA (Individuals with Disabilities Education Act).	Individual IDEA Event* Eligibility Form Required RLC = ThingLink Virtual SLC = On-site Skill Demo
Mental Health Promotion	This event provides HOSA members with an introduction to Mental Health topics with a grounding in prevention. Competitors will create a social media campaign centered on building and promoting protective factors around a selected mental health topic.	Team (2-6 people) Materials Upload to HOSA Digital Upload System RLC = Online Virtual Presentation SLC = On-site Presentation

MRC Partnership (NEW)	Competitors will develop a portfolio highlighting partnership activities that improve public health, increase emergency response capabilities, and strengthen the resiliency of local communities. This event aims to inspire members to engage with the Medical Reserve Corps and to learn more about community-based groups committed to strengthening public health.	Team (2-6 people) Materials Upload to HOSA Digital Upload System RLC = Online Virtual Presentation SLC = On-site Presentation
Public Health	Competitors will develop an effective, dynamic, and creative presentation that informs the public about a selected public health issue. 2026-2027 Public Health Topic: <i>Fast-Check Your Feed: Taking Down Health Myths Before They Spread</i>	Team (2-6 people) Materials Upload to HOSA Digital Upload System RLC = Online Virtual Presentation SLC = On-site Presentation
Health Science Events		
Behavioral Health	Competitors gain knowledge and skills surrounding psychology, the mind, mental health, and substance use disorders. This competitive event consists of a written test with a tiebreaker essay question. It aims to inspire members to learn about and promote mental health resilience and how to support those in recovery, their families, and the health community.	Individual RLC = Online Testing at school SLC = On-site Testing
Biomedical Equipment Technician	Competitors gain knowledge and skills surrounding medical devices as related to public safety, electricity and electronics, reasoning, healthcare IT, safety in healthcare, and anatomy & physiology.	Individual RLC = Online Testing at school SLC = On-site Testing
Dental Terminology	Competitors gain knowledge and skills regarding language common to all dental careers and specialties. This competitive event consists of a written test with tiebreaker questions. It inspires members to learn about dental terminology, physiology, and pathophysiology.	Individual RLC = Online Testing at school SLC = On-site Testing
Health Administration	Competitors gain knowledge and skills surrounding globalization of health care delivery systems and challenges, leadership & management framework, organization design & coordination, conflict management, teams & team effectiveness, communication, health policy & regulation and ethics.	Individual RLC = Online Testing at school SLC = On-site Testing

Health Informatics	Competitors gain knowledge and skills related to health information systems, analysis of healthcare data and information, and clinical research processes.	Individual RLC = Online Testing at school SLC = On-site Testing
Human Growth & Development	Competitors gain knowledge and skills regarding biophysical, mental/cognitive, social, and emotional development throughout the human lifespan. This competitive event consists of a written test with a tiebreaker essay question. It aims to inspire members to learn more about growth and development across the lifespan.	Individual RLC = Online Testing at school SLC = On-site Testing
Medical Law & Ethics	Competitors gain knowledge and skills regarding U.S. medical law, ethics, and bioethics. This competitive event consists of a written test with a tiebreaker essay question. It aims to inspire members to learn about ethical and legal terms and how to analyze, synthesize, and evaluate information related to this field.	Individual RLC = Online Testing at school SLC = On-site Testing
Medical Math	Competitors gain knowledge and skills required to identify, solve, and apply mathematical principles. This competitive event consists of a written test with tiebreaker questions. It aims to inspire members to learn about the integration of mathematics in health care, including temperature, weights, and measures used in the health community.	Individual RLC = Online Testing at school SLC = On-site Testing
Medical Reading	Competitors improve their reading comprehension and understanding of special topics related to leadership development and the health community by reading the five selected books for the year and completing a 50 question, multiple choice test.	Individual RLC = Online Testing at school SLC = On-site Testing
Medical Spelling	Competitors take a multiple choice test, and then participate in a live spelldown event.	Individual RLC = Online Testing at school & Live Day Virtual Spelldown SLC = On-site Testing & Spelldown
Medical Terminology <i>Med Term Course completion recommended</i>	Competitors gain knowledge and skills regarding prefixes, suffixes, word roots, anatomy, physiology, pathophysiology, and occupations related to the health field.	Individual RLC = Online Testing at school SLC = On-site Testing

Nutrition	Competitors explore and learn about the relationship between nutrition and wellness and assess knowledge common in this health field. It aims to inspire members to be proactive future health professionals and to apply and analyze information related to nutrition and health.	Individual RLC = Online Testing at school SLC = On-site Testing
Pathophysiology	Competitors gain knowledge and skills regarding pathophysiology concepts. This event aims to inspire members to learn about the anatomy and physiology of human diseases impacting the health community.	Individual RLC = Online Testing at school SLC = On-site Testing
Pharmacology	Competitors gain knowledge and skills regarding the area of healthcare concerned with drug uses, effects, and modes of action. It aims to inspire members to learn about drugs' actions on the body, proper administration, and adaptations for different patients and conditions.	Individual RLC = Online Testing at school SLC = On-site Testing
World Health & Disparities	Competitors gain knowledge and skills regarding world health and disparities. The event aims to increase competence in understanding world health and identifying and overcoming health disparities.	Individual RLC = Online Testing at school SLC = On-site Testing
Health Professions Events		
Biotechnology	Competitors will gain knowledge and skills required for a laboratory setting using biotechnology. This event aims to inspire members to learn more about biotechnology careers.	Individual event RLC = Online testing at school & ThingLink Virtual SLC = On-site Testing & Skill Demo
Clinical Laboratory Science (Medical Laboratory Scientist)	Competitors will gain knowledge and skills required for a traditional laboratory setting. This event aims to inspire members to learn more about clinical laboratory careers.	Individual event RLC = Online testing at school & ThingLink Virtual SLC = On-site Testing & Skill Demo

Clinical Specialty	Competitors will gain knowledge and skills about a health career of their choosing. This event aims to inspire members to learn more about a health-related career and become skilled future health professionals.	Individual event Materials Upload to HOSA Digital Upload System RLC = Online Virtual Presentation SLC = On-site Presentation
Dental Science	Competitors will gain knowledge and skills required for dental careers. This event aims to inspire members to learn more about careers in the dental field.	Individual event RLC = Online testing at school & ThingLink Virtual SLC = On-site Testing & Skill Demo
Family Medicine Physician	Competitors will gain knowledge about this career path through interviews, research, and a peer presentation. This event aims to inspire members to learn about the dynamic field of Family Medicine and ensure patients from every community, everywhere, have access to a family physician.	Individual event Materials Upload to HOSA Digital Upload System RLC = Online Virtual Presentation SLC = On-site Presentation
Home Health Aide	Competitors will gain knowledge and skills required for supporting patients in their homes. This event aims to inspire members to be equipped to serve patients in a home health setting.	Individual event RLC = Online testing at school & ThingLink Virtual SLC = On-site Testing & Skill Demo
Medical Assisting	Competitors will gain knowledge and skills required to assist in administrative and clinical tasks. This event aims to inspire members to become allied health professionals who respond and assist efficiently in clinical settings.	Individual event RLC = Online testing at school & ThingLink Virtual SLC = On-site Testing & Skill Demo
Nursing Assisting <i>Nursing Assistant course enrollment and/or completion recommended</i>	Competitors will gain knowledge and skills required for patient care in medical settings. This event aims to inspire members to learn more about the field of nursing and how to provide quality care.	Individual event RLC = Online testing at school & ThingLink Virtual SLC = On-site Testing & Skill Demo
Occupational Therapy	The occupational therapy event allows members to gain the knowledge and skills required in occupational therapy. This event aims to inspire members to learn more about careers in the occupational therapy field.	Individual event RLC = Online testing at school & ThingLink Virtual SLC = On-site Testing & Skill Demo

Patient Care Technician (NEW)	Competitors will gain the knowledge and skills required for patient care in medical settings. This event aims to inspire members to learn more about the field and how to provide quality patient care. <i>NOTE: In order to participate in this event competitors must provide an official certificate of training in phlebotomy/venipuncture and/or provide a letter from their employer stating that they are working and have been trained in this field.</i>	Individual event RLC = Online testing at school & ThingLink Virtual SLC = On-site Testing & Skill Demo
Personal Care*	Competitors will gain knowledge and skills required for patient care in medical settings. This event aims to inspire members to learn more about the field of nursing and how to provide quality care. This event is specifically for HOSA members who are classified under IDEA (Individuals with Disabilities Education Act).	Individual event IDEA Event* Eligibility Form Required RLC = ThingLink Virtual SLC = Skill Demo
Pharmacy Science	Competitors will gain knowledge and skills required in pharmacy related careers. This event aims to inspire members to learn more about pharmacy careers and practices.	Individual event RLC = Online testing at school & ThingLink Virtual SLC = On-site Testing & Skill Demo
Phlebotomy (NEW)	Competitors will gain knowledge and skills required in phlebotomy. This event aims to inspire members to use critical thinking skills and be equipped with insight to treat patients in a clinical setting. <i>NOTE: Availability of this competitive event is contingent on securing a HOSA partner.</i> <i>NOTE: In order to participate in this event competitors must provide an official certificate of training in phlebotomy/venipuncture and/or provide a letter from their employer stating that they are working and have been trained in this field.</i>	Individual event RLC = Online testing at school & ThingLink Virtual SLC = On-site Testing & Skill Demo
Physical Therapy	Competitors will gain knowledge and skills required for assisting patients with recovery. This event aims to inspire HOSA members to learn more about physical therapy concepts and techniques.	Individual event RLC = Online testing at school & ThingLink Virtual SLC = On-site Testing & Skill Demo
Respiratory Therapy	Competitors will gain knowledge and skills required in respiratory therapy. This event aims to inspire members to learn more about respiratory careers, use critical thinking skills, and become allied health professionals who can respond and assist efficiently in clinical settings.	Individual event RLC = Online testing at school & ThingLink Virtual SLC = On-site Testing & Skill Demo

Sports Medicine	Competitors will gain knowledge and skills required for patient care in a sports medical setting. This event aims to inspire members to learn more about injury prevention, therapeutic intervention, and immediate care.	Individual event RLC = Online testing at school & ThingLink Virtual SLC = On-site Testing & Skill Demo
Surgical Technologist	Competitors will gain knowledge and skills required for surgical technology. This event aims to inspire members to learn more about Surgical Technologist careers, enhance critical thinking skills, and prepare to become allied health professionals capable of effectively assisting in surgical settings.	Individual event RLC = Online testing at school & ThingLink Virtual SLC = On-site Testing & Skill Demo
Veterinary Science	Competitors will gain knowledge and skills required for diagnosis and treatment of animals. This event aims to inspire members to learn more about the field of veterinary care.	Individual event RLC = Online testing at school & ThingLink Virtual SLC = On-site Testing & Skill Demo
Leadership Events		
Extemporaneous Writing - Health Policy	Competitors will gain the knowledge and skills required for writing an essay. This event consists of a letter to key stakeholders expressing support or opposition regarding a given health policy issue. This event aims to inspire members to learn more about health through learned writing skills.	Individual RLC = Online Letter SLC = On-site Letter
Health Career Photography	Competitors will gain knowledge about different health careers and analyze them through the medium of digital photography by photographing three different health professionals perform an aspect of their job, edit the photos, provide a written description of the career, and then present their pictures to judges.	Individual Materials Upload to HOSA Digital Upload System RLC = Online Virtual Presentation SLC = On-site Presentation
Healthy Living	Competitors will gain knowledge and skills required to understand healthy living and the impact on health throughout the lifespan. Competitors will focus on one personal healthy lifestyle goal and document their efforts in a personalized portfolio. This event aims to inspire members to learn more about health literacy topics and to develop healthy habits for a lifetime.	Individual Materials Upload to HOSA Digital Upload System RLC = Online Testing at school & Online Virtual Presentation SLC = On-site Testing & Presentation

Interviewing Skills*	Competitors will gain the knowledge and skills required to successfully apply and interview for employment and internship opportunities. This event requires competitors to prepare a personal statement, resume, and digital profile and then participate in a mock job interview. This event is specifically for HOSA members who are classified under IDEA (Individuals with Disabilities Education Act).	Individual IDEA Event* Eligibility Form Required Materials Upload to HOSA Digital Upload System RLC = Online Virtual Interview SLC = On-site Interview
Job Seeking Skills	Competitors will gain the knowledge and skills required to successfully apply and interview for employment and internship opportunities. This event requires competitors to prepare a personal statement, resume, and digital profile and then participate in a mock job interview.	Individual Materials Upload to HOSA Digital Upload System RLC = Online Virtual Interview SLC = On-site Interview
Organizational Leadership - (State Only)	The purpose of the event is twofold: 1) To assist State/Chartered Associations with selecting their Voting Delegates and 2) To encourage HOSA members to develop and apply their knowledge of the HOSA organization and Parliamentary Procedure to represent their State/Chartered Associations at the International Leadership Conference as an official Voting Delegate. Note: This is a second-chance event for competitors who did not compete or qualify in an event at RLC.	Individual SLC = On-site Testing
Prepared Speaking	Competitors will enhance their knowledge and skills in effective oral communication. This event requires competitors to develop a speech related to the selected annual topic theme. New resources by eDynamic Learning have been added: Public Speaking Courses 2026 - 2027 Topic: <i>Redefine the Standard</i>	Individual RLC = Online Virtual Speech SLC = On-site Speech
Researched Persuasive Writing & Speaking	Competitors will gain knowledge and skills required for researching a health issue, preparing written documentation supporting a thesis, and presenting information orally. This competitive event requires competitors to develop a speech and a written paper, either for or against, the provided annual health topic. 2026 - 2027 Topic: <i>Should Pharmaceutical Companies Advertise?</i>	Individual Materials Upload to HOSA Digital Upload System RLC = Online Virtual Speech SLC = On-site Speech
Speaking Skills*	Competitors will enhance their knowledge and skills in effective oral communication. This event requires competitors to develop a speech related to the selected annual topic theme. New resources by eDynamic Learning have been added: Public Speaking Courses. This event is specifically for HOSA members who are classified under IDEA (Individuals with Disabilities Education Act). 2026 - 2027 Topic: <i>Redefine the Standard</i>	Individual IDEA Event* Eligibility Form Required RLC = Online Virtual Speech SLC = On-site Speech

Teamwork Events		
Biomedical Debate	Competitors use debate as a platform for researching the pros and cons of a biomedical issue and showcasing what has been learned. Teams take a knowledge test and participate in a debate. 2026-27 Topic: <i>Limited healthcare resources should be allocated to patients with the greatest likelihood of long-term survival</i>	Team (3-4 people) RLC = Online Test at school and Virtual Debate SLC = Round 1: On-site Test Round 2: Debate Bracket
Community Awareness	Competitors educate their community about one health and/or safety related issue of local, state and/or national interest. Teams develop a portfolio that documents and explains the community campaign and activities. Teams present the community campaign to judges.	Team (2-6 people) Materials Upload to HOSA Digital Upload System RLC = Online Virtual Presentation SLC = On-site Presentation
Creative Problem Solving	Competitors analyze the problem-solving process and work as a team to apply their problem-solving skills in creating a solution to a hypothetical health or HOSA-related problem. Teams take a knowledge test, then participate in solving a potential problem related to HOSA, the health community, or a specific health issue and present their solution to judges.	Team (2-6 people) RLC = Online Test at school and Virtual Presentation SLC = On-site Test and Presentation
Forensic Science	Competitors work as a team to apply their knowledge and skills in creating a solution to a forensic science-related problem. Teams take a knowledge test, then are given a case study to analyze that may include physical evidence and written information such as police reports and an autopsy. After viewing materials teams write their conclusions with supporting evidence.	Team (2 people) RLC = Online Test at school & ThingLink Virtual analysis with Written Conclusion SLC = On-site Test & Crime Scene analysis with Written Conclusion
Health Career Display	Competitors research a career of interest, create a display board of associated career materials, and improve their presentation skills as they communicate the career information to judges.	Team (2 people) Materials Upload to HOSA Digital Upload System RLC = Online Virtual Presentation SLC = On-site Display & Presentation
Health Education	Competitors select a health related concept or instructional objective, then prepare a lesson for a targeted group of learners, provide instruction, and evaluate results. This competitive event consists of a portfolio and presentation to judges.	Team (2-6 people) Materials Upload to HOSA Digital Upload System RLC = Online Virtual Presentation SLC = On-Site Presentation

HOSA Bowl	Competitors gain knowledge and skills on various topics and situations in health, current health topics, HOSA, and parliamentary procedure. Teams complete a written test and compete by giving appropriate responses to items presented by a moderator in a “buzzer style” round.	Team (4 people) RLC = Online Test at school and Buzzer Competition SLC = Round 1: On-site Test Round 2: Buzzer Bracket
Medical Innovation	Competitors gain knowledge and skills required to impact the future of health and or the delivery of healthcare through the development of a new medical innovation. Judges will evaluate the created medical innovation and the team's oral presentation.	Team (2-4 people) Materials Upload to HOSA Digital Upload System RLC = Online Virtual Presentation SLC = On-site Exhibit & Presentation
Public Service Announcement	Competitors use technology to produce a public service announcement video that informs the community about the provided health topic. Teams upload their video to YouTube and show their PSA to judges as well as give a presentation about their creative process. 2026-2027 Topic: <i>Maintain My Brain: Practicing the Pillars of Brain Health</i>	Team (2-6 people) Materials Upload to HOSA Digital Upload System RLC = Online Virtual Presentation SLC = On-site Presentation
Research Poster	Competitors will think critically about a health-related issue in their community; pose a research question surrounding the chosen topic; and conduct research on that topic to develop a Research Poster showcasing their findings and present their research to judges. 2026-2027: The Event will move to Round 1 and 2.	Team (2 - 4 people) Materials Upload to HOSA Digital Upload System RLC = Online Virtual Presentation SLC = On-site Display & Presentation

Recognition Events - Offered at State and ILC Only

Academic Testing Center Exams AAFP Family Medicine Career Test Allied Health Statistics Anatomy and Physiology Biochemistry Biology Career Development Environmental Health General Chemistry Genetics ILC ONLY Human Heredity Leadership Math for Health Professionals Occupational Health and Safety	The goal of the HOSA Academic Testing Center is to provide as many HOSA Conference attendees with the opportunity to demonstrate their basic knowledge in preparation to become future health professionals. The series of events in the HOSA ATC are written tests based on items from the identified text specific to each event. Competitors will recognize, identify, define, interpret, and apply knowledge in a 50-item multiple choice test with a tie-breaker question. The written test will measure knowledge and understanding at the recall, application, and analysis levels. Higher-order thinking skills will be incorporated.	Individual Recognition SS, PS/Collegiate SLC = On-site Testing ILC = On-site Testing
---	---	---

Microbiology Organic Chemistry Physics College		
American Blood Centers and HOSA Blood Drive	America's Blood Centers and HOSA-Future Health Professionals Blood Drive recognition event allows HOSA chapters to connect with local blood centers and learn how to conduct successful blood drives in their communities. School-based blood drives are critical in helping address these challenges, securing many of the roughly 7 million annual blood donors. In fact, approximately 17% of blood drives last year took place in high schools or colleges.	Chapter Recognition MS, SS, PS/Collegiate SLC and ILC = Chapters will track their blood donations through the data portal found on the following website: https://americasblood.org/ho sa
American Red Cross Chapter Recognition	For over 140 years, the American Red Cross (ARC) has provided compassionate service to those in need. The American Red Cross' mission of preventing and relieving suffering every day provides opportunities for volunteer service in numerous ways. This event aims to inspire HOSA chapters to engage with the American Red Cross (ARC), to become lifelong advocates of the Red Cross, and to recognize chapters for their participation in American Red Cross activities.	Chapter Recognition SS, PS/Collegiate SLC and ILC = HOSA Activity Tracking System (HATS) Logging Advisor Approve Hours
American Red Cross Diversify the Blood Supply Video Challenge	The American Red Cross urgently relies on blood and platelet donations from people of all races and ethnicities to help save lives. For patients who need frequent transfusions, such as those with sickle cell disease or other chronic conditions, the right match can mean the difference between effective treatment and serious complications. In many cases, the most compatible blood comes from donors who share the same racial or ethnic background. The team will choose a specific target audience and create a 60-second (minimum)—3:00-minute (maximum) video to explain WHY someone should donate blood.	ILC event ONLY Individual / Team Recognition SS, PS/Collegiate ILC = HOSA Digital Upload and Submit to ARC Site
Barbara James Service Award	The Barbara James Service Awards provides members with the opportunity to become contributing members of their communities by performing worthy volunteer community service hours related to health. Levels of recognition: • Bronze Level: 100 – 174.9 approved hours • Silver Level: 175 – 249.9 approved hours • Gold Level: 250 + approved hours	Individual Recognition Event MS, SS, PS/Collegiate SLC and ILC = HOSA Activity Tracking System (HATS) Logging Advisor Approve Hours
Emotional Wellbeing Challenge	This recognition event has been developed in conjunction with SAMHSA (Substance Abuse and Mental Health Services Administration) to engage HOSA chapters and members in learning how essential good mental health—emotional, psychological, and social well-being—is to overall health and to introduce them to the concepts of mental health promotion and substance misuse prevention.	ILC event ONLY Team Recognition (2-6 people) MS, SS, PS/Collegiate ILC = HOSA Digital Upload

	The partnership goal is to help provide HOSA members with knowledge, experience, and opportunities to act around their own emotional well-being (reflecting on their own mental health and use of substances) and how to support their peers.	and Finalist Interview
Healthcare Issues Exam	The Healthcare Issues Exam provides members with the opportunity to investigate, analyze and apply their knowledge of current health related issues. This event consists of a multiple-choice test and one essay question that will be graded to break a tie. This event aims to inspire members to be proactive future health professionals and stay informed about current issues in the healthcare field.	Individual Recognition SS, PS/Collegiate SLC = On-site Testing ILC = On-site Testing
Health Literacy Ambassador	The Health Literacy Ambassador recognition event helps HOSA members enhance their health literacy skills and promotes the use of credible health information. This event supports the Surgeon General's priorities by addressing the threat of health misinformation, which can create confusion, erode trust, harm individual health, and weaken public health efforts. By teaching members how to evaluate the accuracy of health information and by introducing them to MedlinePlus from the National Library of Medicine as a reliable source, the event equips them to combat misinformation effectively. Participation will benefit all HOSA members to ensure how to find and use credible health information.	Individual Recognition Event MS, SS, PS/Collegiate SLC = Silver Level: Submission and approval of Level 1 Module Completion Certificate and related project in HATS. Gold Level: Submission and approval of Level 1 and 2 Online Module Completion Certificates and projects uploaded to HATS. ILC = Completion of Level 1 and 2 Certificates and project documented and approved in HATS
HOSA Happenings	HOSA Happenings provides members with the opportunity to gain knowledge and skills required to communicate information about the HOSA chapter in a manner that celebrates the chapter members and their achievements, as well as shares health related information with readers. This event aims to inspire members to be proactive future health professionals and tell the story of their chapter throughout the year using whatever form of communication they choose (i.e.: print or electronic newsletter, website, blog, social media platform).	Chapter Recognition MS, SS, PS/Collegiate SLC = Materials Uploaded to HOSA Digital Upload System Judged only at State Level ILC = Recognition and optional opportunity to display entry.
HOSA Service Project	The HOSA Service Project involves a nationally identified partner who HOSA chapters can choose to support through volunteer service and fundraising. Local chapters plan	ILC event ONLY Chapter Recognition

	service projects to support the selected organization. Chapters document their involvement and submit documentation via the online HOSA Activity Tracking System for the opportunity to earn recognition at the state and international levels. Ongoing Service Organization: NMDP NMDP.org/HOSA	MS, SS, PS/Collegiate ILC = Service is logged using NMDP NMDP.org/HOSA
Wisconsin HOSA State Service Project SLC ONLY	The HOSA Service Project involves a state identified partner who HOSA chapters can choose to support through volunteer service and fundraising. Local chapters plan service projects to support the selected organization. Chapters document their involvement and submit documentation via the online HOSA Activity Tracking System for the opportunity to earn recognition at the state level. This event aims to encourage HOSA members to provide community service and collectively support the selected service organization. 2026 - 2027 Service Organization: American Cancer Society	Chapter Recognition MS, SS, PS/Collegiate Wisconsin HOSA State SLC Only = Wisconsin HOSA State Service Project Tracking Form Logging Advisor Approved Hours and Funds Raised.
