

TASK 1:

- Define birth rate, death rate and natural growth.
- Take notes in your notebook about:
 - Birth rate in Spain and United Kingdom in 2017. You can check the data [here](#).
 - Death rate in Spain and United Kingdom in 2017. You can check the data [here](#).
 - Natural growth in Spain and United Kingdom in 2017. You can calculate it using birth and death rates.

TASK 2:

- Define migration and its types: immigration and emigration.
- Take notes in your notebook about:
 - Immigration and emigration in Spain in 2016. You can check the data [here](#) and [here](#)
 - Immigration and emigration in United Kingdom in 2016. You can check the data [here](#)
 - Net migration in Spain and United Kingdom in 2016. You can calculate it using immigration and emigration data.
- Why do you think people migrate?

TASK 3:

- Define life expectancy and population density.
- Take notes in your notebook about:
 - Life expectancy in Spain and UK (men and women). You can check the data [here](#).
 - Population in Spain and United Kingdom. You can check the data [here](#).
 - Surface in km² of Spain and United Kingdom.

- **Population density in Spain and United Kingdom.**
You can calculate it using population and the surface in km² of both countries.
- **Explain the differences between active population and inactive population.**

TASK 4: Elaborate a report including all the information you have discovered about population in Spain and United Kingdom.

The report must have:

- **An introduction explaining what the report is about and what you have done.**
- **Definitions of important concepts: birth rate, death rate, natural growth, immigration, emigration, net migration, population density and life expectancy.**
- **A chart including all the data in Spain and UK in the year 2015:**
 - **Birth rates**
 - **Death rates**
 - **Natural growth**
 - **Immigration**
 - **Emigration**
 - **Net Migration**
 - **Population**
 - **Population Density**
 - **Life expectancy for men and women**
- **Conclusions explaining what you have learnt while doing the tasks.**

Please, try to be polite and check your spelling.

EXTRA TASK: Choose a different country from Spain and UK and elaborate a chart showing the main characteristics of its population: [birth rate](#), [death rate](#), natural growth, [population](#), population density and [life expectancy](#).
