TEAM 1	
Team Nickname:	
Number of students in this team (3–5):	

TEAM 2

Team Nickname:	
Number of students in this team (3–5):	

TEAM 3	
Team Nickname:	
Number of students in this team (3–5):	

TEAM 4	
Team Nickname:	
Number of students in this team (3–5):	

TEAM 5	
Team Nickname:	
Number of students in this team (3–5):	

ℹ️ **More than 5 teams?**
If your class has more than 5 participating teams, simply copy the team block above (Team Nickname + number of students) and paste it below for each additional team, numbering them sequentially (Team 6, Team 7, etc.).

Data protection notice: To protect student privacy, this factsheet does not ask for student names — only team nicknames and the number of students per team. Teachers should keep their own local record linking each nickname to the students involved, in case it is needed later. Only for winning teams will the competition team contact the teacher directly to request students' names, solely for the purpose of personalised certificates and public recognition on the Young Smart Cities website. Before publishing any winner's name on the platform or website, we will ask for their consent, in line with data protection rules. Data will not be shared with third parties.

Young Smart Cities is an Erasmus+ funded project. Co-funded by the European Union.
