in Damascus, Oregon — Efficiency Heating & Cooling

Looking for reliable HVAC service in Damascus, Oregon? [Efficiency Heating & Cooling](#) is a family-owned heating and cooling company that has proudly served the Portland metro area since 2008. Our NATE-certified technicians specialize in [furnace repair](#), [AC installation](#), [heat pump service](#), and [emergency HVAC](#) repairs throughout Damascus and surrounding communities.

Damascus is a sprawling unincorporated area in Clackamas County east of [Happy Valley](#) with a rural-suburban character. From routine maintenance to complex installations, we bring the expertise and integrity that Damascus homeowners count on.

Furnace Repair and Heating Services in Damascus

A working furnace is not optional during an Oregon winter. If you are searching for [Damascus furnace repair](#), Efficiency Heating & Cooling should be your first call. Our technicians diagnose problems accurately the first time — whether it is a faulty ignitor, a [cracked heat exchanger](#), a malfunctioning blower motor, or a thermostat that is not communicating with your system.

Damascus properties range from newer construction with modern heat pumps to older homes on large lots with aging furnaces that need replacement or significant repair. We work on all major brands including Bryant, Carrier, Lennox, Trane, Rheem, and Goodman. If your furnace is beyond repair, we provide straightforward replacement estimates with no pressure and no hidden fees.

As a trusted [heating contractor Damascus](#), we also offer comprehensive [heating maintenance](#) plans that catch small problems before they become expensive emergencies. Regular tune-ups extend the life of your furnace, improve energy efficiency, and help maintain your manufacturer warranty.

Air Conditioning and Cooling Services

Portland summers are getting hotter, and Damascus homeowners are feeling it. If you need [AC repair](#) in Damascus, our

technicians can troubleshoot and fix any cooling issue — from refrigerant leaks and compressor failures to frozen evaporator coils and faulty capacitors.

Damascus sits at a slightly higher elevation than Portland, catching colder east winds in winter and experiencing hotter, drier conditions in summer. That means reliable [Damascus air conditioning](#) is not a luxury — it is a necessity for keeping your family comfortable and safe during heat events.

Whether you need a simple AC repair or a complete air conditioning installation, we help you choose the right system for your home. We perform Manual J load calculations to ensure proper sizing, because an oversized or undersized AC unit wastes energy and shortens equipment life. Our team installs high-efficiency central air conditioners, [ductless mini splits](#), and heat pumps from trusted manufacturers like Bryant and Mitsubishi.

[**Heat Pump Installation and Repair**](#)

Heat pumps are an increasingly popular choice for Damascus homeowners who want year-round comfort from a single system. Modern cold-climate heat pumps can heat efficiently even when temperatures drop below freezing, making them an excellent option for Oregon weather.

As a leading [Damascus HVAC company](#), we install and service both ducted and [ductless heat pump](#) systems. Our NATE-certified technicians can help you evaluate whether a heat pump, a traditional furnace, or a dual-fuel system is the best fit for your home. We also help you navigate available rebates and tax credits — including [Energy Trust of Oregon incentives](#) and federal tax credits that can significantly reduce your upfront cost.

Damascus is conveniently located near Happy Valley and Boring in the Portland metro area, and our service trucks are in the area regularly. That means faster response times and lower travel charges for Damascus residents.

[**Emergency HVAC Repair in Damascus**](#)

Heating and cooling emergencies do not wait for business hours. If you need [emergency heating repair Damascus](#), Efficiency Heating & Cooling offers prompt service to get your system back up and running. A furnace failure during a winter cold snap or an AC breakdown during a heat wave is more than an inconvenience — it can be a health and safety concern, especially for young children, elderly family members, and pets.

When you call us for emergency service, you get a real person — not a phone tree. We dispatch experienced technicians

who arrive with fully stocked trucks, ready to diagnose and repair your system on the spot whenever possible.

Why Damascus Homeowners Choose Efficiency Heating & Cooling

Choosing the right [HVAC company](#) is about more than just price. Here is why Damascus families trust us with their home comfort:

Family-Owned Since 2008 — We are not a franchise or a national chain. Owner Matt Rohman built this company on the belief that HVAC service should be honest, fair, and done right the first time.

NATE-Certified Technicians — NATE certification is the gold standard in the HVAC industry. Our technicians have earned this credential through rigorous testing, and they stay current with ongoing training.

Licensed and Insured — We hold Oregon CCB license number 187834 and carry full insurance for your protection.

Transparent Pricing — We provide written estimates before starting work. No surprises, no hidden fees, no upselling services you do not need.

Local Knowledge — We understand the specific challenges of heating and cooling homes in Damascus and throughout the Portland metro. The housing styles — newer suburban developments, established homes on multi-acre parcels, and rural properties — each have unique HVAC considerations that we account for in every recommendation.
