

Whereas, the NPC created the Trump Administration Response Committee (TARC) at our November meeting to serve as a hub of anti-Trump organizing and make strategic recommendations to the NPC;

Whereas, TARC has been meeting regularly for the past few months to plan actions fighting back against the Trump administration's attacks on federal government employees, immigrants, trans people, and others;

Whereas TARC has identified three actions it recommends to the NPC as strategic in this moment: formally joining the Fight Back Table, gaining access to VAN in states with swing-district Republican House members, and obtaining a New Mode account;

Therefore be it resolved:

1. The NPC formally authorizes TARC to join the Fight Back Table on behalf of DSA, for the purpose of gaining access to coalition resources and coordinating actions with other left and progressive groups.
2. Staff are directed to turn on VAN access in the following states, at an estimated yearly cost to DSA of \$10,887.50:
 - Alaska
 - Arizona
 - California
 - Colorado
 - iowa
 - Michigan
 - Nebraska
 - Pennsylvania
 - Virginia
 - Washington
 - Wisconsin
3. Staff are directed to obtain a New/Mode account through TMC, allowing DSA to text tools for more complicated calls to action like calling Congress, etc., directly to phonebank targets, leading to a higher conversion rate than standard phonebanks, for a six-month trial period, at a monthly cost of \$383, for a total cost for six months of \$2298.
