

Use “Netiquette”

When you are engaged online, we expect that all students, staff, and community behave appropriately. Unionville-Chadds Ford students must follow our Acceptable Use Policy (Policy 815).

A few reminders when engaging online:

- Use respectful behavior and language
- Be honest and show academic integrity
- Wear appropriate clothing during video meetings
- Use appropriate pictures, emojis and/or avatars
- Appropriate video transmissions

Please remember to treat others online as if you would treat others in person. Act kindly and show consideration for others.

Using Gmail to stay informed

All UCFSD students grades 5 to 12 have Gmail email accounts. These accounts are provided to the students by the UCFSD school district.

Distance learning relies on using online communication tools such as Gmail to receive information from teachers about coursework, lessons, and other content. Gmail is considered a very important tool for the success of distance learning. We expect students to check their email throughout the day to receive teacher communication.
