I am grateful for the living universe that is communicating through us, the living planet, a medium and expression of love.

I am here on Earth to navigate metaphysical gravity, to explore the way of listening to the universe to build a world of love.

I am committed to living in synergy with the creative, collaborative, self-organizing learning community, expressing love through the cycles of life, in creating, living, and dying.

Write in the chat an expression of gratitude for the person, including their name so that these expressions of gratitude can be easily found in the chatlog for each person.

Unmute at the end of each share and respond with, "I/we see you" "I/we feel you" or something similar

Indicate holding, beaming, uplifting each person with expressions and hands on camera so that we can all feel the collective energy.
