

### **How to Wash Your Mask:**

1. Take one individual mask and wrap its strings around itself and tie it in a loose knot
  - a. Should look something like this:

2. Repeat this for each individual mask
3. Put masks in the wash and wash on a normal cycle
4. Take masks out and untie and unwrap them
5. Let masks air dry
6. YAY! Your mask is now safe to reuse!

\*We suggest washing masks after every use to ensure your safety as well as those around you\*
