

## **Suicide Prevention and Safe2Tell Parenting Training**

Educating our students about how to care for themselves and friends is an important task. To proactively address these issues we are offering multiple prevention training programs that align with depression awareness and suicide prevention training. These programs include:

- Signs of Suicide Program for 6<sup>th</sup> grade scholars. The program was developed by the highly regarded non-profit organization and is used by thousands of schools nationwide since 2000. It has proven successful at increasing help seeking by scholars concerned about themselves or a friend (*American Journal of Public Health, March 2004*).
- Safe2Tell Colorado is a Colorado model prevention strategy operating under the Colorado Attorney General's Office, Department of Law. Safe2Tell Colorado is required to be part of school safety planning by the Colorado Department of Education. Programming focuses on educating students on the importance of reporting concerns and how to anonymously report to Safe2Tell Colorado.

We will be providing multiple parent presentations on Suicide Prevention and the Safe2Tell Program during Teacher Parent Conferences. Below are the directions to join the Google Meet for these presentations. We will also provide in person presentations.
