The witness testimonies are taken from the “11k” police testimonies taken from the witnesses

In each case where I cite something a witness said in a TV interview, its one of the links included, and the timestamp given. Unfortunately a lot of these have since been unlisted from youtube.

- Richard Castaldo - Before the shots began, gunmen in trenchcoats were off to his left, and threw a pipebomb which exploded
  - Richard Castaldo - describes in a tv interview, the pipe bomb “went off” and “didn’t really do anything”
  - Richard Castaldo - in his police testimony, describes a football sized object, with sparks emanating from the object and it was making noises similar to that made by fire crackers. Says after the object had been thrown he remembers hearing shooting
  - Kenny - describes the first bomb resembling “firecrackers sparkles”.
  - Adam Thomas - describes Eric and Dylan standing atop the stairs; moving away from the “blackcat fireworks” they had just lit
  - Denny Rowe - “He thought they sounded like “black cats”. Said first he heard ~15 firecrackers, and then he saw the gunmen pull out their weapons.

At the bottom of the stairs; the sounds attract the attention of Autenrieth and Blair; they begin looking up to see what's going on

- Autenrieth - describes after hearing the sounds, Eric put his duffel bag on the ground, unzipped the bag, and pulled out a gun. Then, Dylan pulled out a gun.
  - Because Autenrieth heard sounds before seeing them take out the guns; those sound/sounds were clearly not gunshots, but rather the sound of the initial pipebomb described by Castaldo. Denny Rowe also says the same thing.
- Blair - describes Dylan standing east, and Eric standing west (relative to each other), both were shuffling through some bags lying on the concrete. After putting down duffel bags, gunmen observed looking at one another and "nod". They were armed at the time they nodded
  - Based on this positioning, POSSIBLY Dylan throws initial bomb (no direct testimony)
- Evidence # 2356 "bomb fragments", "around dumpster" - possibly the initial pipebomb

## - Rachel/Richard shot

- Evan Todd - in the library, describes hearing "a few more than ten" shots approx 15 seconds after hearing an explosion
  - Rachel was shot 4 times, Castaldo was shot 8 times. This is 12 shots ; perhaps Evan Todd was hearing this..
- Richard Castaldo - describes hearing shots after the initial pipebomb was thrown.
  - Richard Castaldo - in an interview describes that the first shot hit Rachel, and he was shot within half a second after her; that he braced himself. However, in another interview he gave the gap in time between Rachel being shot and him being shot as "a few seconds".
  - **Laura Smalley -**

Laura stated the suspects were at the top of the stairs when she heard two shots and looked up to see the suspects shoot at the school. She stated about 15 students were in the immediate area. The suspects were shooting the glass doors at one time.

- "Shooting at the school" is how several other students describe shots at west entrance, because of the wall blocking people's view of what exactly they were firing at.
  - Note; when you look at the map, when shooting at Rachel/Richard, the bullets would also hit the doors
- This would mean there were two shots (first at Rachel, second at Richard), a pause, then shots continuing.
- The reference to there being 15 students in the immediate area of the gunmen at the time, and the mention of them shooting at the glass doors at another point after this indicates this was at the beginning of the attack; these shots being at Rachel/Richard
- **Doyle** - Saw Eric shooting to his right, towards the west doors, THEN, Dylan turns to his right and began shooting in the same direction
  - **Blair** - describes that sometime after both gunmen nodded, Dylan turned to fire at the west doors
  - **John Cook** - (sometime after "firecrackers" heard) Dylan turned around and shot a girl that was sitting nearby; Rachel Scott. The girl was sitting down and fell over.
  - **Michael Johnson** - "observed one person shooting two people sitting outside...described shooter as a white male using a long gun and was using both hands to shoot the weapon."
  - **Danny Rowe** - "He then saw this male shoot two females that were sitting against the wall outside of the west doors. The girls immediately slumped over. He thought the two suspects were only about 10feet away when the girls were shot" (should note; castaldo had long hair)
    - Note that Richard Castaldo had long hair; hence being mistaken for a girl.
  - Many witnesses exclude Eric from their descriptions. Based on ballistics, Dylan only fired 3 times with his TEC-9 outside, and Eric fired 47 times. A similar mistake happened with witnesses believing Dylan had shot Dan Rorrbough's group. However, a bullet retrieved from Rorrbough's body matched a bullet from Eric's weapon. (El Paso report).
- **Autenrieth** - Eric was "shooting enough bullets he had to reload", Eric's carbine magazine holds 10 bullets.

. As will be described later, Dylan returned to fire again at Richard from a distance.

Evidence items 2174, 2189, 2252, 2253, 2220, 2255, 2256, 2257 are listed as 'Bullet Fragment'

- John cook drawing

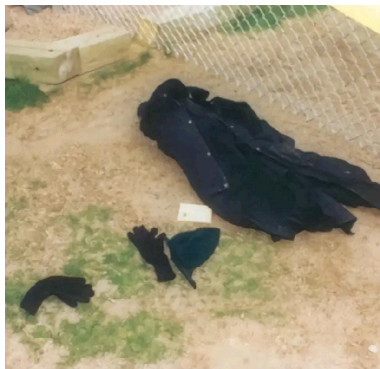

## - Dylan and Eric reload

- **Autenrieth** - Describes seeing Dylan reload a large magazine first (approx 12 inches long), then, Eric "had to reload" a "curled type magazine".
  - Since no magazine (other than the one left on the hill; which has its own witness description) from Dylan was left in that area, it was likely he was simply tinkering with it. Later on in the outside attack, a full magazine was left near the grass hill (and this one has more firm evidence). Also, several live bullets (not fired) from Dylan's gun were found, possibly left from him trying to clear jams. His gun may have jammed after the first shot and he was trying to figure out the problem.

## - Eric takes off Trenchcoat

- **Denny Rowe** - sees Dylan shoot at "two females" before Eric takes off his trenchcoat
- **Adam Thomas** - reports seeing gunmen take their black trench coats off and dropped them on the ground, after throwing a firecracker, and just before firing towards kids on grass hill.
- **John Cook** - "Eric handed his gun to Dylan and took his coat off dropping it to the ground next to the fence." According to him, the Trenchcoat was taken off before Rachel/Richard were shot.
  - We have one testimony saying the trenchcoat was taken off before Rachel/Richard were shot, and another saying after. Generally, the short 15

second gap Evan Todd describes between the initial pipebomb and the shots at Rachel/Richard means its more reasonable to think this was after they were shot.

- Photo from the El-Paso report of Eric's trenchcoat left outside.

## - Eric and Dylan look out into parking lot

- **Cara Sanders** - Described seeing Dylan and Eric beside walkway near grass hill - Dylan in front of Eric, Eric behind him to Dylans right - "an arms span apart", just to the left of the stairs - Dylan makes eye contact with a witness in the parking lot. - she then describes going to her car, some time passing, and then seeing Hochhalter shot. This means this occurred early on in the attack
  - According to Autenrieth and Blair, Dylan left their view from the bottom of the stairs. Later, according to Kirklin and Graves, Dylan came back into view from the west entrance (where Rachel/Richard were) just before turning and shooting at this. This moment of stepping on the grass hill to look at the parking lot must have taken place before Dylan walked out of view.
- **Hochhalter** - "she observed both individuals shooting toward the west and towards the parking lot"
  - she sees them shoot towards the west entrance (at Rachel/Richard), and then towards the parking lot. Rather than actually firing into the parking lot; they may have simply been pointing their guns in that direction.
- According to a grass hill witness; Eric seen moving his gun above Dylan as though covering him, sometime before kids on the stairs were shot

## - Dylan walks off

- **Autenrieth** - describes that approximately 1 minute into the attack, Dylan walked off out of his view. (Autenrieth was on the grass knolls by the parking lot. Note the wall which would have blocked his view as Dylan walked off).
- **Blair** - also describes Dylan walk out of view, towards the west entrance.

- **Sean Graves** and **Lance Kirklin** - would describe that, later on, they saw Eric alone atop the stairs, then, Dylan came into view running backwards from the area of the west entrance to join up with Eric.

## - Grass hill first time

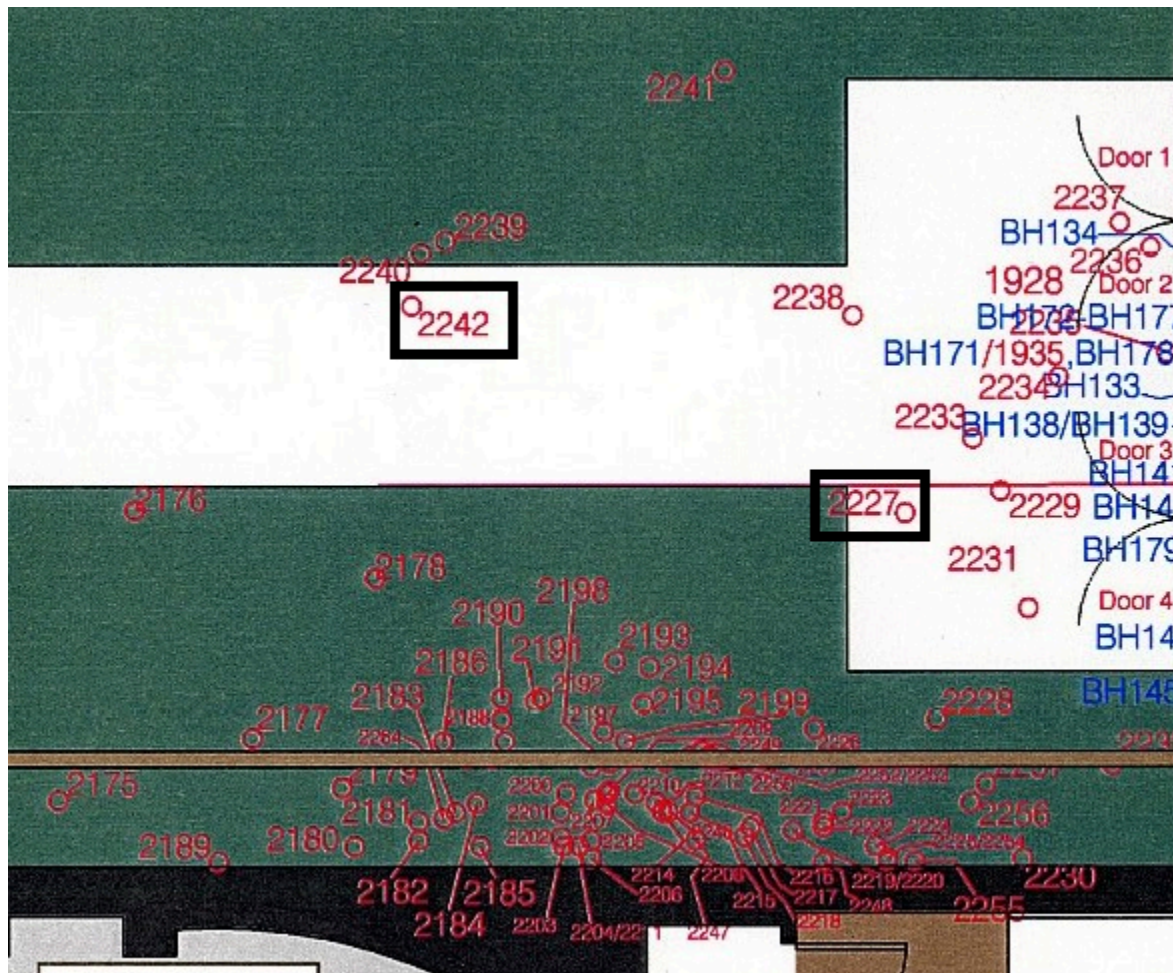

Done <https://www.youtube.com/watch?v=YCO0AN8PJmA>

- 0:30
- **Autenrieth** - Sometime after Dylan walked off out of view, Eric "continued firing"
- **Adam Thomas** - Eric turned the weapon towards them with what Thomas thought was an AK-47. Eric started to raise the weapon which was on the right side of his body, once the weapon reached Eric's hip area, Eric started firing, moving it back and forth from side to side. Eric was smiling and appeared to be laughing, and he was walking or standing kind of hunched over. "at this point Dylan was standing off behind Eric and he didnt see exactly what Dylan was doing"
  - Thomas would then describe the shots fired at kids at the bottom of the stairs (Rohrbough, Kirklin, Graves, Hochhalter), and then seeing the gunmen again turn their attention to his group and shot at them again.
  - Thomas would later state he believed Eric had missed the initial shot(s), but in fact; Mark Taylor was hit in the knee
- **Mark Taylor** - Describes being shot "the first time", this being the shot that hit him in the leg. He says that after this, he saw Hochhalter being shot, and then more shots were fired at him and his group
- **Pitoniak** - sees an injured kid at top of the grass hill (likely Mark Taylor), before Dylan came down to shoot at kids coming up the stairs.
  - **Adam Thomas** - would describe how his friend Denny Rowe checked his watch at this time to see a time of 11:20 am. He would initially state the time of 11:20 happened after the firecrackers; then later clarifies it occurred when Eric shot at them the first time.

## - Dylan shoots Richard up close

Rachel/Richard together suffered 12 wounds (Rachel was shot 4 times, Richard was shot 8 times); yet Eric's carbine holds 10 bullets. Evidence #2266 and #2227 are 2 casing from Dylan

As described previously, several witnesses saw Dylan walking off towards the west entrance just after the shots at Rachel/Richard, one saw Dylan “standing off behind Eric and he didn’t see exactly what Dylan was doing”, and two witnesses (including Lance Kirklin) later saw him walk/run backwards exiting that area.

- #2227 is listed as Klebold - Tec9 Cartridge Case
- #2242 is listed as Klebold - Tec9 Cartridge Case
  - BOTH 2227 and 2242 are listed as bullets fired by Dylan. There are 4 shells outside from Dylan, i do not have an explanation for why JEFFCO's final tally only lists 3.

=====

- CBI 1013/JCSO 10097 = **Dylan TEC-9 fired bullet removed from Richard Castaldo wounds**, and described as “Round nose FMJ bullet, Castaldo”.
  - Ontop of this; when looking at the map there is a #2255 Dylan bullet fragment right beside where Castaldo lay (Also confirmed by Randy Browns notes).
  - So this is direct evidence, when Dylan walked off he went to shoot Richard Castaldo up close
  - According to a gofundme set up for him; “Richard Castaldo was shot 8 times in the Columbine massacre in 1999. 1 of the bullets lodged in his spine, paralyzing him”. If this is true, #10097 bullet from Dylan paralyzed Richard.
  - News Source NBC: “Mr Castaldo was hit with eight separate bullets, one of which lodged in his spine shown here”:

- CBI 1048/JCSO 10283 = Eric Hi-Point-9mm fired bullet taken from Rachel Scott's Backpack
  - copper jacketed bullet from backpack #2372 (rachel scott)
- CBI 259/JCSO 8740 – Metallic fragment with no comparative value, removed from Rachel Scott's Wounds

#### ANSWER:

- According to Richard's witness testimony: "Castaldo advised he believes he had taken all of the shots by the time he had fallen over on his back. Castaldo advised the suspects may have thought him dead since he does not recall feeling that he was being shot by more bullets after falling over". In an interview from a documentary, he says “i dunno, i guess i fell back because i couldnt move anything below here” - again he suggests paralyzing shot sustained during initial volley.” Also, from denver post June 13, 1999:

““he was lying in the grass crying," Castaldo later told his mother. "They walked over to her and shot her again.”” (Must be careful with statements from Castaldos mother).

- There are 4 shells total from Dylan outside. 2 by the stairs fired at Dan Rohrbough (leg) and Sean Graves (read Sean Graves' witness testimony) and 2 beside Rachel/Richard. The direction of BOTH of these bullets is known
  - #2255 Bullet fragment from Dylan is located just beside/closest to Richard. However; maybe this had been fired at Rachel and bounced off
  - #10097 Dylan TEC-9 fired bullet lodged inside of Richard's spine; paralyzed him. Per the X-ray photo, it is undamaged/whole/not deformed
- Both bullets fired by Dylan are accounted for: 1 bullet left inside Richard Castaldo, and 1 bullet fragment on the floor, closer to Richard than to Rachel. Generally; both bullets from Dylan directed at Castaldo.
- Generally; there is no direct evidence for Dylan shooting Rachel up close. Although Castaldo says no shots came after he had been hit, and his mother states gunmen returned to shoot Rachel while she was crying, this bullet from Dylan left inside him proves otherwise.
  - 4 Eric @ Rachel
  - 6 Eric @ Castaldo
  - 2 Dylan @ Castaldo
- No explanation as to why Richard describes the exact opposite. Possibly; he passed out after the initial volley (like Lance Kirklin, who passed out after being shot 4 times). In his witness testimony he also says he had been on the ground for about 20 minutes before law enforcement reached him and took him from the area. He was shot around 11:18, and swat removing him occurred at around 12:30 - much more than 20 minutes. He may have been going in and out of consciousness.

## - Dylan walks backwards

- Done <https://mega.nz/folder/YnQ1zAYa#1iXV0hZZFY0cPdAu2LIE1Q/folder/si5gAS5Q>
  - 7:48

After shooting Richard Castaldo up close he returned back to Eric:

- **Sean Graves** - Reported seeing Eric alone atop the stairs shuffling with a duffel bag that was on the floor. He would state he realised there were two gunmen once Dylan came running backwards back into view
- **Lance Kirklin** - Saw Dylan running (or walking quickly) backwards and joining up with Eric atop the stairs. Provides a drawing (included below)
- **Graves** describes how they stopped to look up at what they saw, before “pushing forward” up the stairs
  - **Opfer** describes how he exited the cafeteria door alone and joined up with Rohrbough. This explains why Graves and Kirklin do not mention him.
  - Sean Graves stated the students going up the stairs were “almost at the top” when they were shot at, while Kirklin states “they had just begun to walk up the hill”. Graves said they walked up the stairs in the following order: (left to right) Rohrbough, Kirklin, and then Graves. Graves and Kirklin described that they were actually walking up the dirt path that was beside the stairs.
- **Sean Graves** - When Dylan joined up with Eric, Dylan pointed his gun towards them first, and then Eric began pointing his gun.
- **Autenrieth** - Describes Eric as being the one to shoot at the kids coming up the stairs
  - Graves and Kirklin both believed it was Dylan who had shot them.

- Kirklin's Map, the silhouetted gunman is Eric, the tall gunman is Dylan. His drawings, depict this moment, as multiple witnesses describe Dylan walking backwards “very fast;” after he walked off to shoot Castaldo. Later testimonies say Eric fired at the kids coming up the stairs by leaning his gun on the fence. So, he moved onto the fence before firing.

## - Shots at Rohrbough+

“Rohrbough+” is the nickname I gave to Daniel Rohrbough and the kids walking up the stairs towards the gunmen with him.

- Extra testimonies
- **Kirklin** - states they had just began coming up the hill/stairs when they were shot at. Graves says they were almost at the top.
- **Kyle Bramlett** - describes the kids walking up the stairs fall down screaming
- **Sean Graves** - says Dylan Klebold was the first to shoot, he pointed his gun at Dan Rohrbough and shot him in the leg
- **Lance Kirklin** - Also describes Dylan Klebold shooting Dan Rohrbough in the leg.
- **Denny Rowe** - Dan Rohrbough “stumbled and tried to run away” before he was shot a second time
  - A photo of Dan Rohrbough’s corpse on the pavement, and the major investigation into his cause of death (The El-Paso report), also demonstrates he died while running away.

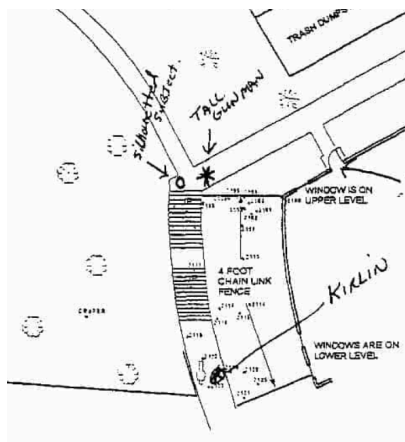

- **Kirklin** - describes having had enough time to attempt to catch Rohrbough
- **Opfer** - describes looking over to speak to Rohrbough, that Rohrbough made a strange face at him and collapsed. (Likely wincing from being shot)
  - The El-Paso report would note injuries to Rohrbough's face consistent with him falling on the concrete.

- The El-Paso report determined that the shot to the chest and abdomen were parallel and at an upward angle; consistent with Rohrbough falling or bending to his right.
- The identical angle of the shot to chest and abdomen would also indicate these were shot rapidly
- The bullet in Rohrbough's body was a "textbook match" to a bullet from Eric Harris' Carbine
- Evidence item #2112 is a bullet from Eric which smashed onto the stairs; following a path that would have been consistent with Eric aiming at Rohrbough. In an interview, **Kirklin** would describe seeing bullets hit the floor.
- **Graves** - In an interview; describes Kirklin having had enough time to "give grief" to him about this "prank".
- **Graves** - describes Dylan Klebold point the gun at him (Sean) and then Sean was grazed by a bullet in the shoulder, after Rohrbough was shot and before Kirklin was shot
  - <https://www.fbi.gov/video-repository/echoes-of-columbine-2019a.mp4/view> he says "when the first bullet hit, it just took out a chunk of my shoulder" @ 2:25
- **Kirklin** - in tv interview, describes the gap between the first shot which hit him in the leg, and the rest of the shots, as "seconds later, maybe at the same time". He was shot 4 times by Eric

- **Tiffany Lien** - described Kirklin having enough time to grab his leg, which was bleeding, before being shot more.
- **John Cook** - describes Eric pointing his gun over the fence when shooting Lance Kirklin
- **Karnes**: states Eric fired 6-7 shots, Dylan came down a few steps then back up, Eric fired 2-3 shots, and Dylan came down a few steps again, then back up. Says Dylan came down the steps to look at the bodies.
- This may correspond with Kirklin mentioning a brief gap between first shot to his leg, and 3 other shots. Although he says "seconds later, maybe at the same time," Tiffany Lien mentions him having enough time to reach for his bloody foot.
- Therefore: 6 shots at Rohr, Pavement, Graves, Kirklin - pause; 3 shots at Kirklin
- This is the only explanation for that quote.

After the first shot to his leg, Kirklin was shot 3 more times, suffering 4 wounds total before taking the 5th to the head later on.

- Kirkin's map of his location
- One witness describes Kirklin being half on the grass, half on the pavement.

Graves was shot 5 times total. At this point he has been shot once, and after Eric shoots him he is shot by Dylan. This leaves 3 shots by Eric as he was running after Lance had been shot.

- "The tall one pointed and shot at me (Sean) and it grazed the right side of my neck". Sean thought that it was "a paint ball gun", thinking that it was "senior prank day".
- Sean stated that he was still standing when "Lance turned and started to run".
- Sean stated that "Lance was shot in the leg and fell to the ground".
- Sean stated that he then "turned around to run" and thinks they "shot me in the chest one time".
- Sean stated that he continued to run "down the hill and through the (chain link) fence" as he was "shot in the back". Sean does not know how many times he was shot.
- Sean stated that he continued to run to the west cafeteria doors and was "shot in the leg".

- From the El-Paso report. After Kirklin was shot, he was shot once in the chest as he began to turn around, once in the back as he reached the fence, and then another time in the leg at which point he fell and landed behind the concrete wall. In interviews, he stated that while behind the concrete wall, a stray bullet hit his backpack and ricocheted into his spine.
- **Graves** says he was about a few feet from the door when he was shot.

Stray bullet from Eric hits Sean Graves in the back

- **Kyle Bramlett** - after seeing two kids (Rohr and Kirklin) fall down the stairs, describes Dylan coming down via the hill by the stairs pointing a gun, then a third kid who was running to the cafeteria door (Graves) was shot; he was screaming "get it off me, get it off me". (in interviews Graves discusses how he thought he had been hit with tranquilizers because his legs stopped working and was asking people to get them off. Terrifying.)
  - **Pollock:** (who was with Karnes) "saw a man (description matching Dylan) running up and down the stairs...two or three times" and "did not see [Dylan] fire his handgun"
- **Jason Brehm** - describes Dylan "shooting randomly" as he went down the stairs, got to the bottom, then went back up. This witness believed Dylan was alone, never saw anyone else.
- **Graves** - <https://www.youtube.com/watch?v=eXXOjVQWj40> @ 0:58 - he was shot 4 times, and then, although "I managed to get my entire body behind a concrete wall", a 5th "stray bullet" got him.
  - Based on Eric's location, he may not have been able to shoot at Graves who was behind the wall. Dylan coming down the stairs however, would have had a better angle at hitting him. This is supported by his shell casing left on the stairs and the witness testimonies.
- **Will Beck** - <https://www.youtube.com/watch?v=M79yCJxCFHo> - says graves was shot, and then "they shot him again".
- **Christina Redmerski**, - said she heard a knocking sound on the window, then "a couple of seconds later" heard a second knocking sound, and then a third which was much stronger and louder. She looked out the window to see two kids lying on their stomachs - after which she had a chance to speak with Sean Graves (who was now in the cafeteria entrance) for a bit until she heard more gunshots
- **Medaugh** - heard 3 shots, then 5-7 seconds later heard 3 more shots - before seeing that kirklin/rohr/graves were on the floor. Timing suggests these shots were of last rohrbough+ being shot.

- **Jeremy Mullen** - heard 3 shots, looked at the door and saw sean graves on the ground yelling that he was paralyzed
- **Monte** - Says that after kids on the stairs were shot, Dylan came down the stairs and stood over them holding his tec-9. Her map does not make sense though regarding the position of the two kids, but does seem to agree with Bramlett that he descended the stairs at this time via the grass hill/walkway beside the stairs.
  - Evidence #2118 is a live bullet left by Dylan near the bottom of the stairs, perhaps in an effort to clear a jam.

**Chris Therrien:** says he saw Lance Kirklin fall down, then saw another kid fall down, then saw a female (Hochhalter) fall down. "At this same time" he saw Dylan klebold coming down the stairs alone

(General)

- **Lindsie Macey** - describes the shots fired at Rohrbough+ as "at first slowly, and then in rapid succession, possibly 9 shots"
  - Note; one witness misheard the 2 shots at Rohrbough as he was fleeing as a single shot, so too may have Lindsie Macey.
- **Ramsouer** - 7-8 gunshots "like a shotgun being discharged"

**Chris Therrien:** says he saw Lance Kirklin fall down, then saw another kid fall down, then saw a female (Hochhalter) fall down. "At this same time" he saw Dylan klebold coming down the stairs alone

- **Adam Thomas** - describes seeing a female (description matching Hochhalter, although he initially believed it was Rachel Scott) stood up jokingly and commented to Eric and Dylan "Do you guys want to fight, do you want a piece of me?" At this point, Adam sees Dylan raise some type of rifle, point it at the female and fire one round. Describes her location as "standing at the bottom of the stairs"

- **Kim Blair** - After Eric had shot kids coming up the stairs she recalled he immediately made eye contact with her. After making eye contact, Eric then fired in her direction, weapon fired from a shoulder position, Hochhalter was hit. In a tv interview, she describes how Eric initially pointed the gun at her, apparently recognized her as her sister, and turned the gun away to aim and then shoot at hochhalter ;; describes the gap between shots fired at 3 kids and hochhalter being shot as a "moment".
- **Tessa Nelson** - Dylan coming down hill, pulls out Tec-9 hidden in trenchcoat - shooting while coming down stairs - held in right hand; Dylan a fourth of the way down the stairs, hochhalter hit.
- A kid on the grass hill specifically describe smoke coming out of the gun?
  - **Cara Sander** - Two females go over to help hochhalter before a male tries to lift her
  - **Autenrieth** - describes going over to help Hochhalter, and left after hearing more shots. These were likely the shots fired at the grass hill

- Pitoniak map of where hochhalter was when she was shot. He did not see any gunmen
- According to several witnesses; she was running away as she was shot. According to Adam Thomas, she was "standing at the bottom of the stairs", but this is probably not literal; as that would put her standing over Dan Rohrbough's body.

Hochhalter was shot twice. According to her, the first shot was the one to her back which paralyzed her. The bullet remained inside her and was taken out, matching a bullet from Eric.

Jason Brehm:

The party wearing the trench coat began shooting randomly as he walked down the stairs, got to the bottom, then turned around and walked back up the stairs. He then started shooting at a student that Jason knew as Denny Rowe. Jason reiterated that the guy in the

- John Cook and Adam Thomas describe seeing Hochhalter being shot before the gunmen fired at their group a second time.
- Dylan switches to a shotgun according to one of the grass hill witnesses (possibly because of the TEC-9's constant jamming)
- Gunmen were facing the stairs before switching their attention to the kids on the hill
  - **John Cook** - mentions "the two gunmen remained back to back as they swirled around in a circle a couple of times" after mentioning Kirklin being shot, and before his group on the grass hill were shot.
- **Michael Johnson** - describes during the second time they were shot; feeling a warm feeling on his leg, hesitating to get up at first, then seeing Mark Taylor hit. Later, he felt himself get hit in the face as he was running; his jeans were covered in blood - heard Mark Taylor yell "oh my god, i've been shot!"
  - Based on the number of shots fired by Eric up to this point, having a magazine which has 10 bullets, he had to reload during the grass hill shooting.
- **John Cook** - Michael was in front of him, he was hit in the right leg, then Mark Taylor collapsed, then Michael was shot in the back of the neck.
- **Danny Rowe** - sees Michael Johnson's wound gushing
- Michael Johnson was shot 3 times total.

**Joel Hatfield** - Saw gunman (white? shirt with trenchcoat, with a gun matching description of TEC-9 = Dylan).

- He was north of the chain link fence, fired once at Mike Johnson's knee, who was on the grass hill.
- Then the gunman turned and fired a bunch of shots (rapid fire) while turning
  - Based on later statement of gunman walking north, then going "back down the hill", he may have descended a bit while turning at this point
- Again, Dylan fired only 4 times outside. More likely; Eric was firing. We know Johnson was hit once and then Mark Taylor was shot multiple times. This tells us; Dylan was facing grass hill when Mike Johnson was shot, and then began turning as Eric fired more shots at Mark Taylor.
- This may also tell us Eric was out of view (witness was in cafeteria)

- He says gunman then fired a single shot at a guy who was standing near the chain link fence in the upper body. The victim fell to the ground on the east side of the walkway (later revealed to be Kirklin)
  - This can't be right, Kirklin was shot at before grass hill shots. Same with Sean Graves. Multiple witnesses describe Lance Kirklin attempting to get up; perhaps he momentarily did.
- The gunman then changed clips, witness does not know what he did with the clip he took out.
- Gunman then walked north and picked up a shotgun lying on the ground
- Then the gunmen came "back down the hill" towards the shooting victim near the fence and pointed the shotgun at Kirklin and fired two times (Kirklin was only shot once point-blank with a shotgun)
- Then the janitor yelled at everyone to get down and everyone did.
  - According to this witness, Dylan retrieved his shotgun shortly after the shots at the grass hill. According to Adam Thomas, who was on the grass hill, "it was just after Dylan picked up that second weapon that Dylan and Eric turned back towards Adam and his group and started firing"

Timing: John Cook describes shed as 50 yards (45 meters) away from his groups location.

Done <https://www.youtube.com/watch?v=lcHN0NBzuXE&t=16204s>

- 34:10 Justin Woods, who was on the soccer field
- **\*\*Justin Woods** - Describes Eric shooting at Rohrbough+, estimated at least 8 shots, then a lot of people in the parking lot began running, then Klebold began shooting at them. Then, they heard two explosions from the roof of the school and saw smoke on the roof after they had ran off. Then, he saw both suspects walk down the stairs and more smoke in the parking lot.
  - Although (like many instances) the witnesses believed Dylan was shooting at them, it would have actually been Eric.
  - Based on this; soccer shooting occurred after Rohrbough+, and just BEFORE bombs thrown onto roof. I.e; this is a recounting of the grass hill shooting. Shots fired at the grass hill were also in the direction of the soccer field.
- **Apodaca** - saw gunmen "creeping around the corner", then 3 kids were shot with a shotgun, then Dylan began shooting at soccer field. In a tv interview; says Eric threw bomb on roof AFTER the soccer shooting
  - Like Justin Woods, this is an observation of the grass hill shooting from the pov of the soccer field.

- The 3 kids were not shot with a shotgun, but with a carbine. Many witnesses described the slow rate of fire when rohrbough+ were shot and the gun sounding like a shotgun.

**Heather Avery** - Describes Eric looking towards her direction after shooting at kids directly west of him (Grass hill), at which point she ran into the cafeteria.

## - \*\*\*\* Bomb at Hochhalter

**Wade Frank** describes seeing a kid running towards the soccer field, and then a girl who had been shot. Tyler Jackman, who was with him, clarifies the girl was being helped by her friends and that Dylan was at the top of the hill with a shotgun, "Dylan seemed nonchalant about what he was doing"

- After seeing dylan at the top of the hill with a shotgun, he heard an explosion at some point.

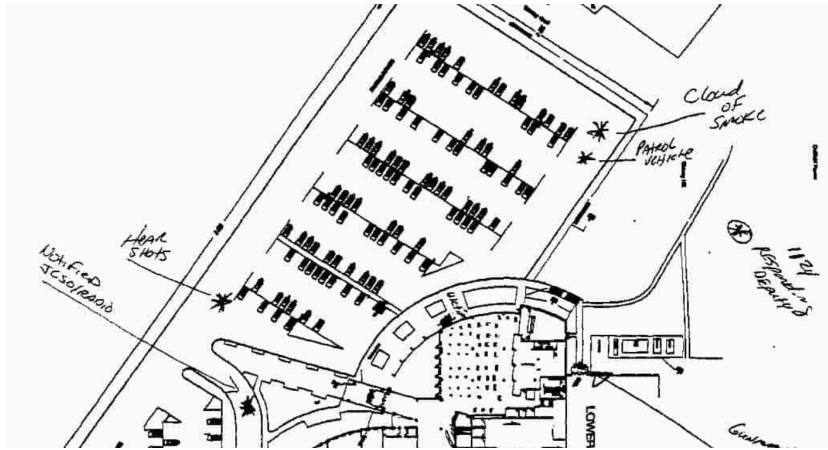

- **Autenrieth** - describes a bomb being thrown in the area where Hochhalter had been lying was while he was dragging her away

- **Hochhalter** - new testimony from Hochhalter in a facebook post of hers "a pipe bomb was thrown at me and my friends and it landed on a raised patch of grass and exploded over me"

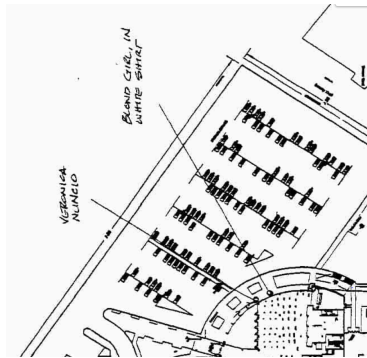

**Seth Dubois** - Sees Hochhalter dragged away before Kirklin is shot in the face (and of course; hochhalter dragged occurred around the time bomb was thrown near them). As Hochhalter is being dragged, Dylan is standing with a shotgun at the top of the stairs.

- Wade Frank and Tyler Jackman say the bomb thrown into the parking lot by dylan came AFTER Kirklin was shot. Seth Dubois says hochhalter was dragged BEFORE Kirklin was shot.

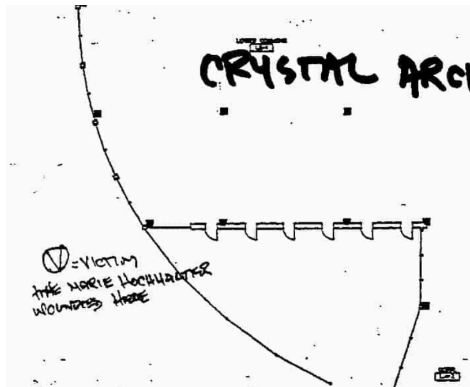

- evidence #2710 listed as "nail-duct tape-shut" near one of the grass knolls. nails were used as shrapnel in Eric/Dylan's homemade bombs, and most pipebombs were wrapped in duct tape.

- A. Marton ( with gardner) map of where Hochhalter was when he arrived on scene. Matches evidence markers for blood of hochhalter while she was being dragged in that same area.

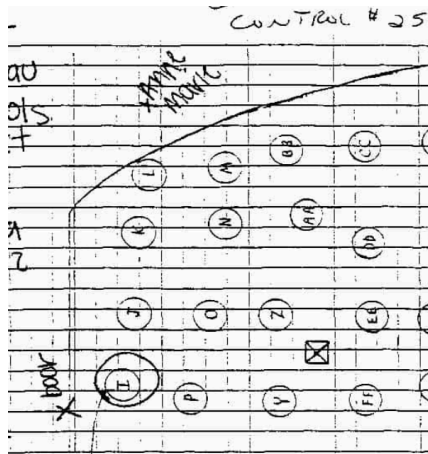

- Cristina Redmerski (in cafeteria) map of Hochhalter's location, "blond girl in white shirt"

- Crystal Archuleta's map of Hochhalter

- Diana Barker's map of Hochhalter, "Anne Marie"

**Nicholas Antonio** - saw black smoke outside the west windows of the cafeteria, he ran to the windows and saw a subject in a white shirt apparently throwing unknown items towards the roof.

- This first black smoke may be referring to the bomb thrown towards hochhalter.

## - \*\*\*\* Bombs on Roof

- **Apodaca** - says that Eric threw 2 bombs onto the roof, the first bomb exploded 1-2 seconds after thrown, and then he threw a second.

- Jackman says Dylan walking down the stairs to shoot Kirklin occurred "simultaneously" to seeing Hochhalter screaming

Done <https://www.youtube.com/watch?v=e9v-Gb8rims>

- 0:40

- **Jason Brehm** - states Kirklin was shot after Eric threw bombs onto the roof

- **Apodaca** - says just as roof bombs thrown/exploded Dylan "walked west from the northwest side of the cafeteria" he "shot at three students near the southwest corner" with a shotgun. This was an observation of Kirklin being shot - and agrees with other witnesses saying kirklin was shot just after the roof bombs. Dylan used his shotgun only twice outdoors, at Kirklin, and later at Nick Foss.

- Trujillo's map, T (written on "4 foot chain link fence") is Dylan; he states as he was looking out the window he saw Dylan standing there looking down at kids on the floor.

**Matt Parsons** - Saw Lance Kirklin on the ground screaming while Dylan Klebold was standing on the hill in front of the fence, looking over him (same location described by Trujillo). At this time, Hochhalter was by the curb of the parking lot "laying there crying and screaming", and pushed herself up with her arm.

**Michael Lavan** - he was at table UU in the cafeteria he saw a boy by the cafeteria door who was bleeding, and then another boy (must be Lance Kirklin - Dan Rohrbough died) was attempting to move around and was screaming.

Beginning 11:22:22 on the cctv footage we see kids at table UU and VV looking out and around the windows; this is what the kids who were at those tables saw:

- **Justin Warren** - "i looked outside because everyone was screaming, and i saw a guy, long hair dressed in black trench coat and he was leaning over shooting a kid. There were two kids laying on the ground" ""one of the kids looked like he had a sawed off shotgun and saw him shooting + kid on the ground" "he saw someone standing over another student with a sawed off shotgun. He saw this person point it at the party down and fire"
- **Daniel Palmeter** - saw people along window stand up and look out window. he looked out and saw dylan point a shotgun at student near stairs and shoot the student. then heard a teacher yell "get down"
- **Leia Murphy** - "i noticed commotion at the door, i thought it was a fight, went to get a better look outside, saw a guy recognized as (matching descr Dylan). Later; describes how she saw him standing (standing at the bottom of the cement stairs) for 15 seconds, then begin "running" in an uncertain direction
  - Countless witnesses near the windows would describe trying to get a "better look" at what was going on; it is likely, she only saw the upper half of him.

Leia Murphy map of Dylan location

- **Fuselier** - describes seeing Dylan holding shotgun and seeing barrel, only saw the side view: gunman's left side facing cafeteria windows
- **Brooke** describes that there was a commotion by the windows, she heard a single "pop" and then a janitor yelled for everyone to get down.
- **Aracelli Gaucin** - She saw Chris Redmerski with Sean Graves, then she looked outside the window and saw another male lying on the ground. At that point, she heard a gunshot immediately followed by a couple of people who yelled "Get down! Get down!"
  - On the CCTV footage, we see them react suddenly to something at 11:22:32, and then shortly after everyone begins to get down. According to the kids near the windows by tables UU and VV, Kirklin was shot by Dylan with a shotgun shortly before people got down.
- **Philip Secrist** - While a girl was bleeding and on the floor and being helped by a guy, he looked to the right of those people and saw Dylan with a double barrel shotgun. Dylan then shot another boy who was huddled down on the other side of the fence, held the gun in one hand; possibly right hand - and shot him in the back, and Philip looked away

**Wade Frank** - Gunman came down to male, looked around and then shot the male lying on the pavement in the mid or upper back with the sawed off shotgun. Could see smoke coming out of the sawed off shotgun.

**Lance Kirklin** - in interviews; describes sensing someone behind him and asking for help; assuming this was still a paintball prank. Gunman responds "sure, i'll help you" and shoots him point blank; he recalls his face feeling jolted.

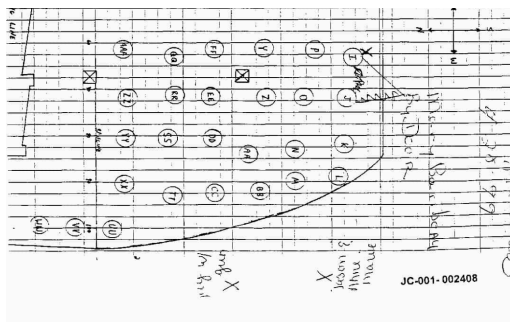

**Karen Nielson** - on the 911 call, describes a kid with his face “hanging” (the shotgun blast point blank to Kirklin’s face caused serious damage)

**Stephanie Duffy** - describes Dylan reloading the shotgun after shooting Kirklin, saying it took him a while. Doesn’t specify location where he reloaded.

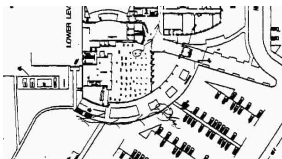

## - \*\*\*\* Klebold approaches Hochhalter

**Mary Baribeau** - says while in the cafeteria, at table I (i), Kim Blair ran in and asked Mary for help. She went outside and saw Ann Marie Hochhalter bleeding, with Jayson Autenrieth looking after her, in the location matching where Autenrieth dragged her. She never heard anything while outside. While outside, she turned away from Anne Marie and saw subject matching description of Klebold; trenchcoat with handgun. The gunman was “pointing his gun and turning”, “he wasn’t really pointing at anything in particular”. Mary Baribeau says when she returned to the cafeteria she got down on the floor.

- We can see exactly what she describes on the CCTV. At about 11:22:36 (after the shot at Kirklin) a few people come into the cafeteria from the south entrance (the one with multiple doors) with one girl (Kim Blair) seeming to yell/plead at another girl (Mary Baribeau) at table I, and they get up. At 11:22:51 the people return to that table and they get down on the floor.
- So, this incident occurred between 11:22:40 and 11:22:50

- Dylan's location per Baribeau's map. Her map has limitations because there was no way for her to show Klebold's distance from the windows.

- **Angela Nelson's** map of where she saw Klebold, before he returned towards the stairs.

- According to her, he was shooting towards the cafeteria and she remembers the windows being shot out. This is impossible; not only are there no cartridge cases from Klebold in this area, but the glass windows of the cafeteria were not shattered.
- Nelson's map fixes Baribeau's map; demonstrates that Klebold was further from the windows, to the west of the grass knoll

**Jerry Alber** - says that after Dylan shot a boy on the ground with a shotgun, "there was a white female lying on the ground face up, Dillon went over to her and shot her point blank, we all got down & Dillon disappeared"

- Hochhalter is the only girl who was shot in this area; she was not hit by a shotgun. This does however confirm that Dylan approached Hochhalter, and that right after, kids in the cafeteria got down.

**Nicole Lunetta** - one of the Blair sisters came running into the cafeteria from outside yelling "help help", Blair grabbed Mary Baribeau and they went outside. Nicole heard one gunshot from outside, at which time mary and blair came running back into the cafeteria.

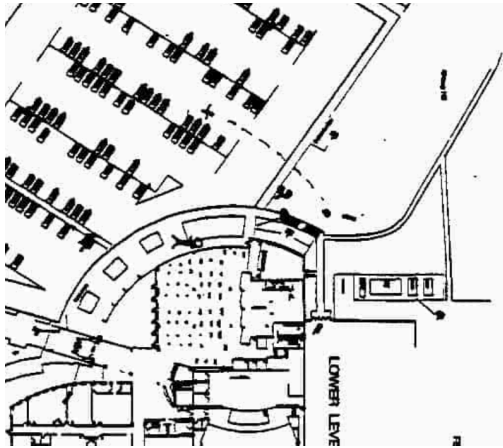

- Baribeau and Blair are last seen about to exit at 11:22:38, and then seen running back in at 11:22:52. It is possible that what Nicole was hearing was actually an explosion, or, the shots at the parking lot.

## - \*\*\*\* Bomb into Parking Lot Dylan #1 [clock bomb]

- **Ali Boukalfa** - describing Dylan throwing bomb from base of stairs with **wires** attached (meaning timer clock pipe bomb was not left in advance) while near the base of the stairs
- **Sammuario** - describes Dylan bomb #3, then while there are shots happening in hallway/after cafeteria evacuated; sees explosion in parking lot
  - Clock bomb's existence is undeniable; witness description + evidence #2738 "clock remnants" near exact spot where witness Sammuaro saw/mapped bomb in lot explode while shots were happening inside hallways.
- **\*\*Kari Klapper** - saw EXPLOSION in lot AFTER shots into parking lot.
- **\*\*Janine Roberts** - shots in parking lot at them, THEN a bomb in lot explodes
- **\*\*Doyle** - (with Janine Roberts) describes bomb taking 30 seconds to explode
  - Dylan threw clock bomb ~11:22:38, threw second bomb at 11:23:00 - since this is a personal guess; this could be taken as 30 seconds.
  - She says her bomb was orange; others say it was silver. Small/insignificant error.

Ali Boukhalfa (wires) - says dylan threw the bomb then ran to the stairs, then he himself got down; then heard booms. ;; explosion did not happen while Dylan was heading upstairs to throw #2 bomb.

- **Anthony Sammuaro** - According to witness, this bomb was thrown before everyone in the cafeteria got down. He was on the south side; the south side of the cafeteria is seen getting down at 11:23:00.
- According to witness, bomb was thrown, and then at least 1 minute later (by the time shots in the hallway above him could be heard), he looked out and saw this device explode. ~11:24:30 is first shots in hallway.

- Possible solution; bomb #1 was the clock bomb, bomb #2 thrown from grass hill exploded on impact - people who saw #2 explode thought it was #1.
- In the exact spot where Sammuaro places the explosion on the map, there is evidence marker #2738 "clock remnants" right beside Dylan's car. Was this bomb hooked to a timer? This would explain 1 minute difference. "Remnants" leads me to think these were bomb frags rather than something left from Dylans car.
- Says Dylan entered cafeteria "moments later" after throwing that bomb. This means Sammuaro saw Dylan parking bomb #3 thrown, and later saw Dylan parking bomb #1 explode

**Ali Boukhalfa** - After Kirklin shot: "he also saw the man [dylan] throw a grey tube with wires attached into the student parking lot. He heard it explode and saw a lot of smoke.", - Later says; he saw what he thought was a pipe bomb go flying through the air and then the suspect ran to the north side and up the stairs. He then heard several loud booms as he was getting down.

- So, according to him, the bomb did not explode as Dylan was running upstairs, rather, he saw it being thrown, then after he ran up the stairs he heard noises and assumed those noises were tied to the thing he earlier saw Dylan throw. .

**Nathan Anema** - describes Dylan throwing a silver cylinder-shaped canister into the student parking lot. "It then burted into a dark white smoke" -

In another interview; "Anema then saw a male standing near the bottom of the west cement stairs throw what Anema thought was a pipe bomb into the parking lot. " then janitors told us to get on the floor.

- Also says dylan was 50-70 feet away from the windows. Is this grass hill?
- **Evan Todd** - Looking out through the library windows, sees an explosion, flash and smoke near a "black explorer" in parking lot - then sees kids on soccer field running
  - Evan todd only describes 1 explosion, not 2

## - \*\*\*\* 2 Shots into Parking lot

- Proof that this is not a confusion for the soccer shooting is that witnesses describe Dylan throwing bomb in parking lot WHILE on the grass hill, before aiming his gun at the soccer field. Meanwhile, these (especially jackman) describe shots being fired before an explosion in the parking lot and before Dylan even reaches the grass hill.
- **Tyler Jackman**: While Dylan was halfway up the stairs (coming back up after shooting Kirklin), he heard "a burst of gunshots from semi automatic fire" ("rapid gunshots coming from a semi automatic gun" possibly from a second suspect [Eric])
  - Note; parking lot witness mentions the parking lot bomb exploding after shots were fired towards them - and Kari Klapper saw Eric firing into parking lot and a cloud of smoking in the lot.
  - Wade frank describes how when Dylan got to the top, he went to speak to Eric "it happened so quick" then went around the fence and onto the grass hill
  - Wade Frank was with Tyler Jackman and does not mention this
- **Janine Roberts** - states just after seeing mark taylor crawling on the hill, and around the time a bomb explodes; shots are fired at them in the parking lot "even bullets being fired in their direction" -- Eric is shooting into parking lot before a pipe bomb in parking lot explodes, leaning on fence
- **Kari Klapper** - sees Eric shooting into the parking lot, then, smoke coming from the parking lot is seen
- **Jessica Arzola**. According to her, kids were looking out of the cafeteria windows for about two minutes before student Chris Markham yelled for everyone to get down. While on the floor, sometime before everyone began to get up and run, she heard two gunshots and "may have seen two flashes" from outside the cafeteria windows.
  - As described earlier, students got down on the floor right after kirklin was shot with a shotgun. Based on the witness testimonies, shots in the parking lot happened as Dylan was returning upstairs after this. These two shots and two flashes may correspond to shots into the parking lot.

- **Ogle** - Eric was shooting into the parking lot, while at the same time; the kids on the soccer field were "standing around" - therefore, shots at parking lot occur before shots at soccer field
- **Chris Masias** - heard 2 gunshots, then saw a puff of smoke from behind a bunch of cars. then custodians came running telling everyone to get down.
- Diana Barker - said she heard shots around the time she and Mary Baribeau went to look over at Hochhalter, before they returned back into the cafeteria. They are seen reentering the cafeteria at 11:22:50
- Richard Green - same as below; says 2-3 shots
- **Samuel Granillo** - Mr. Sanders ran into the lunchroom from the senior parking lot (he is described by several witnesses as going out the west cafeteria entrance to see what was happening outside), tell people to get down, "he ran back out" - at which point he heard 2 shots and "we hit under tables" - "a very short time later, Mr Sanders ran into the lunchroom a second time and again told people to get under tables. "i then heard a loud explosion, mr sanders again came and told everyone to get down" = [People are seen dropping suddenly at 11:22:50, Sanders' second entry can be seen after 11:23:00]

## - \*\*\*\* Bomb in parking lot Dylan #2

- **Wade Frank:** says after Kirklin was shot, Dylan went up to the top of the hill, spoke to Eric very briefly, "it happened so quickly" then went around the fence onto the grass hill and threw the bomb into the parking lot "where it exploded"
- **Tyler Jackman:** After walking a bit after hearing the rapid gunshots, then he and wade saw something fly through the air and land between the third and fourth row of cars in the parking lot. It exploded on impact

- **Cindi Nichols** - describes how after Dylan went back up the stairs "shooting guns and throwing bombs" he went back down the stairs a second time and threw a bomb at a moving truck and yelled at the truck to go away

- **Laura Smalley** - describes vehicle as a grey pickup truck

**Alicia Mae** - saw Dylan walking down a hill (later clarifies; the grassy hill), reach into coat and throw an object in the parking lot. she heard an explosion, then Dylan walked towards the soccer field. Later says "she thinks she recalls this suspect carrying a long gun, as she thought he fired at some point toward the soccer fields. She went on to say at some point this person retrieved a pipe bomb from his coat and threw it into the student parking lot." (so; per her

testimony, soccer shooting occurred just after Dylan threw bomb in lot?) When she returned inside the cafeteria, many of the students were on the floor.

- Just like soccer witnesses describing a bomb in parking lot going off while they were shot at; this appears to confirm Dylan's bomb in the lot as described by Wade Frank, and the soccer shooting occurred back-to-back. Dylan walking in the direction of the soccer field (and also him reloading his gun on that spot) may also be the reason soccer witnesses believe Dylan had fired at them.
- After Dylan #2 parking bomb and the soccer shooting, kids in the cafeteria are under the desks. On cafeteria cctv, this happens after Dave Sanders runs in ~11:23:00

## - \*\*\*\* Soccer shooting

- Investigative reports: understanding why 2002 @11:18
- The narration presents this as trying to understand the gunmen's actions that day. Rich Long: says he heard "pop pop pop, four in succession, and I go "what is that?""
  - He never states these are shots at Patti. Rich Long in the 11k states he heard "some sounds", then Carol Weld asked him to check it out; and THATS when he saw Dylan. Four shots must be the "some sounds" he heard.
    - Carol Weld said she heard 5-6 shots [sometime] before she went to check out what happened; and HER first observation was Eric yelling at his jammed gun.

- Her path through the library, based on her testimony (periodical=magazine room) - not a long distance
- The soccer shooting was not more than 20 seconds before Nick Foss shooting/Eric jamming; therefore 4 shots may have been soccer shooting. Agrees with witness saying; they heard 5-6 shots, some of which possibly being bomb explosions
- **Kathol** - While Dylan is shooting, Eric switches to shotgun, and moves down toward hill - not firing, later described throwing 3 bombs into parking lot == says Eric was 120-150 yards behind Dylan, indicating Dylan was on the grass hill during the soccer shooting.
  - Agrees with Mike Kenney; soccer shooting AFTER bombs on the roof.

- **\*\*Mike Kenney** - He says he was running after shots fired at them; then, “10 seconds” after first shots fired at soccer field began, he turns while running to see smoke from the roof = “they could see smoke and more explosions” including possibly the parking lot  
 === Says Eric was about 10 feet behind Dylan (ie; Dylan was on the Grass hill)
  - Soccer shooting, AFTER bombs on the roof.
- **Evan Todd** - In the library; says he looked out the window and saw an explosion near a car in the parking lot, then, saw kids on the soccer field running away.
- **\*\*Donald Arnold** - Describes Eric throw a bomb onto the roof, and then Dylan, with a shotgun, shoot towards the parking lot, at which point 3-4 people in the parking lot dropped. Dylan then turned towards the soccer field and fired 5-6 rapid fire shotgun blasts towards the soccer field. “thinks that some of the shots he heard from the gun which was not a shotgun might have been explosions; Arnold did not see [Dylan] reload his shotgun
  - This is AFTER bombs on the roof;
  - No explanation for Dylan shooting a shotgun at 3-4 kids in parking lot. He says Dylans shots into the parking lot occurred just before shots into the soccer field. Incidentally, Eric is described firing at the parking lot just before Dylan turned onto the grass hill by witnesses. In the same way Dylan is wrongly credited with the soccer shooting; perhaps this witness is doing so regarding shots at the parking lot.
- **Sarah Brown** - (in cafeteria) After she got down she heard 4 gunshots, a pause, then an explosion, and then a “stream” of gunshots before she joined people escaping the cafeteria
  - 4 gunshots may be the soccer shooting, according to other witnesses a bomb in the parking lot went off shortly after the soccer shooting. Stream of gunshots may be explained by mistaking all of the following which occurred shortly after/back-to-back/before everyone in the commons ran: 1 explosion in lot, 1 shot at Nick Foss, 2 shots at Patti/Anderson, 1 bomb into parking lot, 1 bomb far end of parking lot
- **Jacob Baur** - just before Mr Sanders came in and said to get down, he heard **3** popping sounds, then he got down
  - Dave Sanders is first seen on CCTV at 11:23:02, running from the teachers lounge into the main cafeteria
- **Kathrine Carlston** -  
from the outside, on the hill. Everybody was crawling around. She heard more shots, maybe 3 or 4. Every body starting screaming. She
- **Bae** - After janitors yelled at everyone to get down she got under her table. She then heard 4 popping noises from outside and began to look up from under her table when she saw 2 suspects/gunmen out on the sidewalk.
- **Sue Liane** - heard shots around the time Dave Sanders and another student ran into the cafeteria. This can be seen 11:22:54 - 11:23:03

- **Bryan Stepp** - "He then stated that the subject wearing all black then pointed his gun towards him and the people playing soccer and began shooting. He stated that he could hear bullets go by his head, so they laid down. When they looked up it appeared that the subject was reloading the gun.

- Evidence #2359 is listed "9mm bullet"
- Evidence #2358 is listed "black magazine w/(40) 9mm luger r.p." [a full magazine Dylan dropped on the floor]
  - It appears, again, Dylan's TEC-9 jammed and he left the magazine on the floor.

across the student parking lot. At about this time the shooters noticed the people on the soccer field and began firing at them. Billy reported that during the shooting he believes that a long gun one of the shooters had jammed as there was a pause in the firing, and he observed the shooter making a rear ward pulling action at the gun, like he was "cocking a cross bow".

- William Arapkiles. May have been seeing Dylan reloading his gun which was jamming.

#### \*\*\*\* bombs on grass hill

- One of the evidence maps shows a crater at the upper/north end of the grass hill
- 1 bomb on grass hill "Crater" on the evidence map, and 2361=exploded pipe

#### \*\*\*\* roof bomb explodes

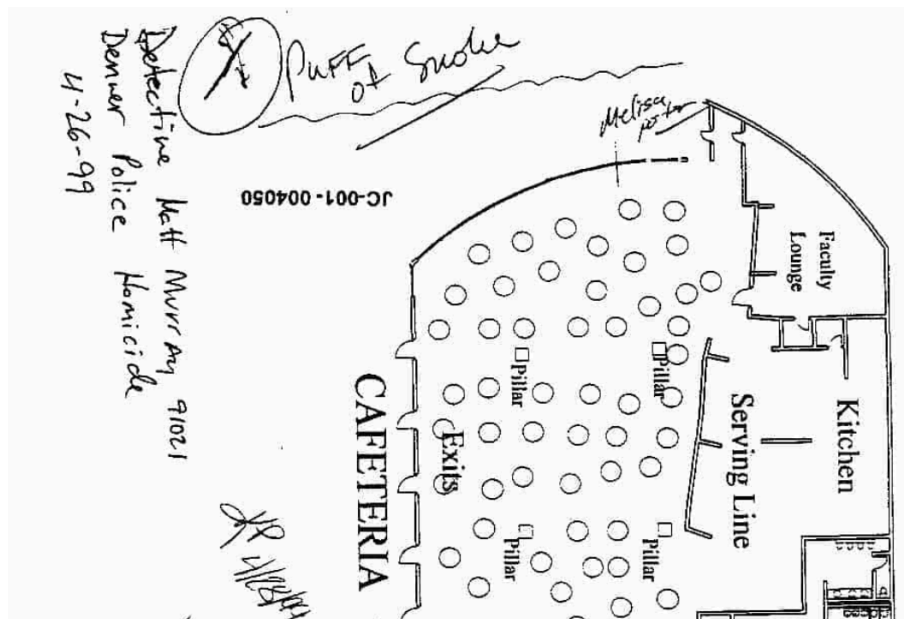

Soccer witness mentions 10 seconds after running from soccer-field shots, he turns back to see smoke

- (handwritten) "i then heard what appeared to be a bomb go off inside the building, the force of the explosion shattered the glass and i fell against the wall."
  - Thinking it was from "Inside the building" can only be the roof bomb
- But also: "as he ran they began firing at him and the windows in front of him shattered"
- Bryan Stepp mentioned seeing a gunman (dylan?) go up to windows and shoot at the windows?

- **Answer:** Explosion caused glass inside to shatter, glass on the cafeteria windows is not damaged.
- **Jamie Munkeby** - while in the cafeteria, shortly after Dave Sanders had ran in telling kids to get down, heard an explosion which she believed was just overhead and possibly in the vicinity of the library upstairs
  - Sanders enters cafeteria approx 11:23:00 - so just after this.
  - Since witnesses on the soccer field said they saw this second explosion on the roof about 10 seconds after they were shot, Munkeby's testimony paired with theirs lets us know that the Soccer shooting occurred ~10 seconds before 11:23:00

## - Eric bombs in lot

- **Kathol** - While Dylan is shooting, Eric switches to shotgun, and moves down toward hill - not firing, throws 3 bombs into parking lot - Eric described throwing bombs in the direction of Klebolds' car.
  - Evidence item #2743 listed as "pipe" - exploded [close to caf. south entrance/student store]
  - Evidence item #2706 listed as "pipe bomb with powder" = unexploded
  - Evidence item #2735 listed as unexploded cricket [this bomb matches description of bomb thrown in direction of Klebolds car]

- Kaci Peregoy - ran out of rebel store while everyone got down, after Sanders ran in telling people to get down. Saw a puff of smoke, possibly near a car. Her map of the location matches evidence #2743

**Megan Steckly** - After someone yelled for people to get down under the tables, he saw a guy in a white shirt walking down the hill from the soccer fields? possibly carrying a gun. we got down under the tables

- **Nicholas Buhrer** - Heard 5-6 gunshots before seeing an explosion outside the cafeteria near the student store.
- Estimates bomb in lot went off 1-2 minutes after Dan/Lance were shot.
  - 5-6 gunshots may be shots at parking lot (2) and shots at soccer field (3) which occurred close to one another in time (5 total), just before Eric threw bombs into lot as described by other witnesses; explosion outside cafeteria near student store/entrance may be #2743 - which is Eric bomb near the student entrance cafeteria.
- **Alisa Owen** - While everyone in the cafeteria was down on the floor, she looked up and saw Dylan on the grass hill trip and fall down [awesome], and that there was a second subject (who she later says was wearing camel army pants, and thought they might be wearing a trenchcoat = Eric) standing by the cars that were parked closest to the building. (she goes into detail; these are the cars where Eric/Dylan normally parked, beside Zak Hecklers car)
  - further confirmation; Dylan was on grass hill shortly after soccer shooting while Eric was in parking lot.
- **Jami Amo** - says that after a student named Chris Markum came in the west door yelling "theres a guy with a gun, get down!", Amo then sat on the floor, heard shots and then she observed a white male in a white t-shirt outside the windows but did not see gun"
  - Nick Foss was also described wearing a white t-shirt, so this could possibly be him.
- **Jason Brehm** - observed a party wearing a white shirt walking calmly from the parking lot towards the scene where the gunman in the trench coat had been firing. Appeared odd to Jason that everyone else was running from the area, and here was a guy walking directly to into the location
  - He says he did not see this person holding anything. Nick Foss was described wearing a white shirt and a bandana. It is possible that although Nick Foss describes himself running; this sighting by Brehm relates to Foss approaching gunmen rather than Eric.
- **Vitale** - Saw Eric Harris in white shirt with a shotgun that had a pump near the cafeteria west entrance, about 1 minute after Vitale first saw Eric at the top of the stairs - "Alongside the wall next to the single door on the west side of the cafeteria, just below the stairs" and "standing by the single door that is by the teachers lounge on the west side of the cafeteria"
  - Vitale says he heard about 30 pops/shots before turning away. At first sighting eric was faced "partially towards the school"

**Evan Todd** - describes sometime after shots at the soccer field, he heard a voice yell "look at this fuckers head" and a second voice respond "this is awesome". Based on witnesses describing Eric going to the parking lot at this time/the events taking place here; voice 1 is likely Eric, voice 2 likely Dylan.

- This is confirmed as Eric based on the fact that according to Evan Todd, this occurred after seeing a bomb in the parking lot and kids on the soccer field running. Dylan went upstairs and onto the grass hill before those events.

**Loni Brown** - Guy wearing white t-shirt, short-cut hair (matching descr. Eric) seen running up hill, all by himself

**Christopher Lucas** - After hearing an explosion and smoke beside one of the cars in the parking lot, there was then another explosion; louder and with more smoke. A kid ran east from the west door, then Mr. Cram came running in yelling at everyone to get down.

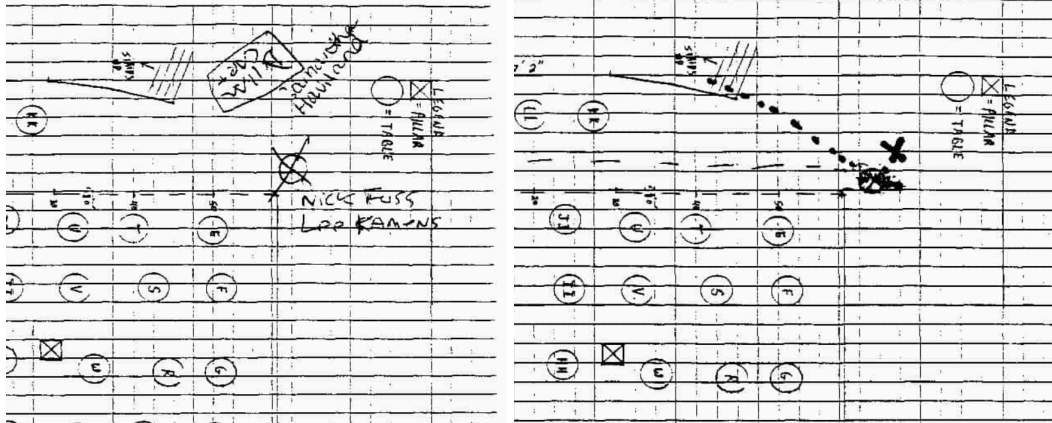

- According to teacher Alan Cram, he was in the classrooms/science area when he first heard gunshots/firecrackers. Consequently, Christopher Lucas' description of a student running into the cafeteria and then being followed by a teacher (Sanders) is seen exactly from 11:22:53 - 11:23:04.
- This means there were two explosions in the parking lot before student and Sanders entered at approx 11:23:04
  - I believe, first bomb christopher describes is Dylan parking bomb #2, and second bomb christopher describes is Eric parking bomb near the cafeteria south entrance/student store. This may agree with witness who saw Eric descending grass hill before everyone gets under tables in the cafeteria ~11:23:00

## ----- Nick Foss shot

- **Nick Foss movements before encounter with gunmen:**

**Samantha Haviland** - After people yelled that someone has a gun and someone got shot, a janitor "skinnier one" and Mr. Sanders ran towards the windows. "A table of Jocks", NICK FOSS and Lee Kamens were sitting at a table beside the windows. "Nick went outside and was ducking behind benches attempting to see what was going on." The janitor ran along the windows to make sure everyone was getting down

- 11:23:37 may be janitor running along south door windows

- Her map, and Leigh Kamens map. Nick Foss was near here. There is also a witness who describes **Nick Foss helping hochhalter later on and being shot at (from library)** but not hit. = table D
- The windows she refers to would appear to be the south commons windows.
- **Crystal Archeluta**:

\* She said that a "jock" named Nick or Chris Foss then came out to where she was with the shooting victim. He crawled over to them and asked if they were okay. He then stood up to aid Hochhalter. She then heard more gunshots and thought the suspects were shooting at Foss. She saw Foss spin around, but he was not hit.

- Describes this happening well after gunmen disappeared from outside, and after the shootout with Gardner; she thinks she was outside between 15 to 20 minutes. Was Nick Foss actually shot around this time, from the library? No, he describes the gunmen shooting at him while atop the stairs.
- **Isiah Salazar** - Saw a Janitor begin running through the cafeteria in a westerly direction towards main windows. Then, "Isiah said he saw another person by the name of Nick Foss run outside the cafeteria". Then a teacher told everyone to get down on the floor and under the tables.
  - The Janitor is seen heading towards the main windows @ 11:22:51
  - Dave Sanders first appears around 11:23:03
    - Per Salazar, Nick Foss exited in between these two times; 11:22:51-11:23:03

**Nick Foss** - He says he "ran out the lunchroom door"; saw Rohrbough and Kirklin and attempted to wake them.

- He saw the gunmen atop the hill, they were heard yelling things, like "Yeah!" and "O Ya", were shooting guns and throwing bombs
- He asked them what they were doing. Describes how suspect matching descr. Dylan shot a shotgun at him "shooting from left to right, pumping the gun rapidly". He felt a shot wizz by his left temple; he suffered a graze to his head. Also stated the other gunman's gun jammed on him; pointed the gun towards his head but it didn't go off when the gunman pulled the trigger.

- When he got inside an explosion went off and he fell against a wall
  - According to acolumbinesite, Nick Foss was treated for a graze to the head
  - Dylan's gun did not have a pump, Eric's did; but Eric did not use his shotgun while outside according to ballistics.
- "One of them opened his cape and had a shotgun. Finally I started figuring out these guys shot to kill, for no reason," said student Nick Foss. The gunman "didn't say anything. When he looked at me, the guy's eyes were just dead."
- We saw one kid lying on the stairs, and one was on the ground. They were just dead, purple, their eyes still open."
- News report: He didn't want to leave Rohrbough on the ground. So he went to check on him. "I said, 'Come on. Get up.' But he wasn't moving. I told him I loved him," Foss told Petrone." And "Before Foss could drag Rorhbaugh to some kind of shelter, the gunmen trained their weapons on him. A bullet grazed his head as he ran away."

**William Secord** - after hearing two shots back to back and then getting under the table in the cafeteria, he looked up and saw Nick Foss outside the cafeteria "on the patio", said Foss appeared to be holding his head or was running, could not be sure/provide more details since he then ducked back under the table. Foss was wearing a white bandana, white shirt.

- Because William saw this while everyone in the cafeteria was down (between 11:23:00 to 11:23:50), this confirms Nick Foss was shot during the outside events. Nick Foss holding his head confirms that he was injured to some degree by the shot.
- William says he and his friends ran out of the cafeteria "a short time" after seeing Nick Foss
- Nick Foss was wearing a white shirt and bandana. Several other cafeteria witnesses describe seeing a person in a white shirt and bandana as well.
  - Two shots back to back heard shortly before could be @ patti and anderson? Ie; William Secord saw Nick Foss hold is head after Patti/Anderson had been shot (so, he was not acctually seeing foss getting shot at, but the aftermath"

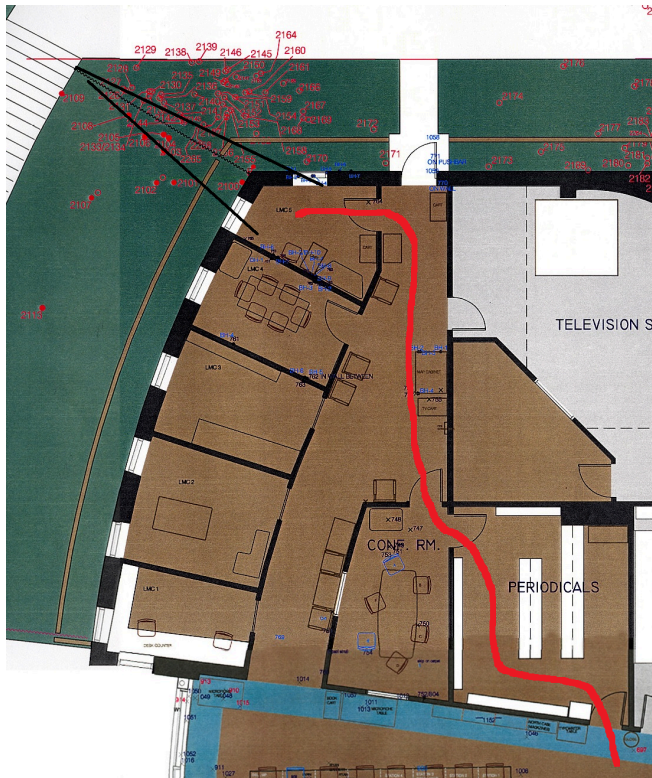

**Evan Todd** - Describes hearing a shotgun blast shortly after the "look at this fuckers head" comment, and before some rapid fire gunshots

- Of course, how could he know what he was hearing was a shotgun blast? This does help, but the better confirmation of this is Patti/Anderson seeing Dylan reload his shotgun/smoke rising around him, as well as library staff seeing Eric yell at his jammed gun shortly before patti/anderson were shot at:::

**Library Staff** (combination of testimonies from Rich Long, Peggy Dodd, and Carole Weld, who were looking near doors) - Library Staff witnesses Eric leaning on fence and yelling profanities at his gun which jammed (which we can connect to Nick Foss saying Eric's gun jammed when Eric tried to shoot him) - klebold to the left a few feet away from Eric with shotgun which he was reloading.

- Eric yelling profanities at his gun comes from it jamming when trying to fire at Nick Foss (per Foss's own description of gun jamming), Dylan reloading shotgun just before Anderson/Patti approach doors.

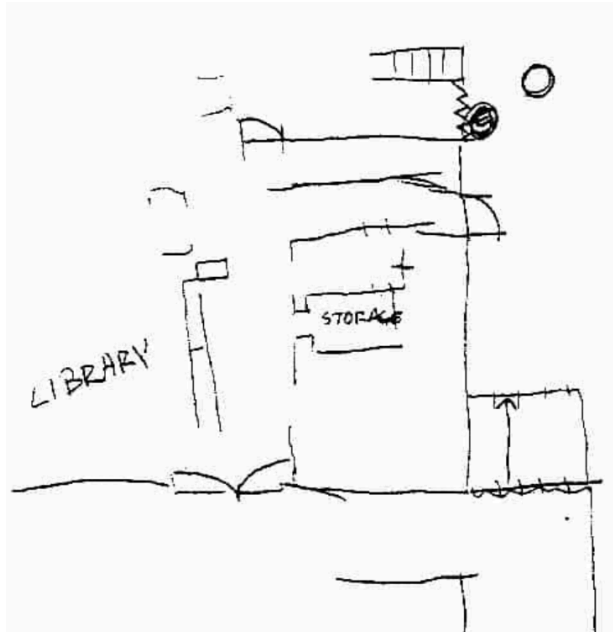

- Carole Welds path through the library; she describes being about 20 feet away from Eric
- She also says by this point, Dan ("boy in fetal position") had been shot.

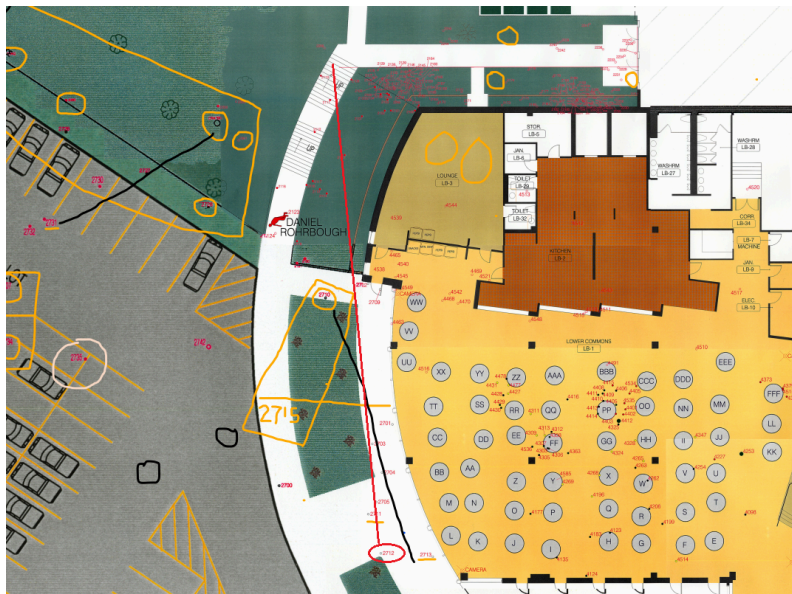

**Patti Nielson** - heard a "noise" looked out and saw Dylan standing near the library back door; saw "smoke" appeared to be "rising" around the area he was standing  
(These would both indicate Patti and Anderson heard/saw Nick Foss being shot at before they went out to confront the gunmen; smoke from Dylans shotgun)

**Brian Anderson** - describes Dylan facing the parking lot, reloading a shotgun before they go out to confront him. In a news interview, when asked what his strongest memory of that day was, described Eric was aiming his gun at the parking lot when he turned to fire at him.

- Location of evidence markers for the two shotgun shells left by Dylan matches the drawing Brian Anderson provides of Dylans location as he was reloading the shotgun

- 
- In his drawing, black is Eric, white is Dylan reloading the shotgun.

- #2712 is shotgun wadding, may be from Dylan shooting towards Nick Foss. According to Foss, he was running towards the west entrance doors when he was shot at.

- Dylan briefly approaches west entrance

According to Wade Frank and Tyler Jackman, after Dylan had thrown a bomb into the parking lot while on the grass hill (parking lot dylan #2), he ran towards the west entrance.

- They do not describe shots at the west entrance, this may have happened before Nick Foss was shot at

she could identify as Dylan KLEBOLD, walking west from the entrance at the top of the stairs by the grassy hillside. As this suspect got to the top of the stairs he turned back toward the entrance from which he had just come and fired a handgun about ten times in quick succession towards the school / entrance. She recalled this suspect was holding the handgun in his right hand.

NUNCIO described after firing the shots the suspect then turned and went back to the area at the top of the stairs, stood by the edge of the grass. She watched as he reached into his trenchcoat and pulled out what she thought was a pipe bomb with his right hand and threw it towards the senior parking lot. She could not recall what the suspect had done with the handgun he was shooting with his right hand just prior to this. At this time

- Sometime after Anne Hochhalter is shot; therefore, shots described by Nuncio belong to Patti Nielson/Brian Anderson. "Walking west from the west entrance...as this suspect got to the top of the stairs he turned back towards the entrance from which he had just come from..."
  - So, Dylan was leaving the area of the west entrance doors sometime just before Patti/Anderson approached
  - Brian Anderson says just before heading out, Dylan was near the fence reloading the shotgun. So, Dylan briefly running to west entrance occurs before Nick Foss is shot.

Patti Nielson/Brian Anderson describe going towards the gunmen right after their observations of Nick Foss being shot at and Eric yelling at his jammed gun.

- **Evan Todd** - shots heard after shotgun blast heard, Nielson runs in "within moments" of those last shots heard - gets on phone

**Brian Anderson** - Says Eric "fired a single shot" which "exploded" the window,

**Patti Nielson** - in media outside her police testimony; she describes Eric firing once, which missed, and then Eric fired a second time; this shot grazing her neck. In an interview with Denver Post in June 1999, she says Eric shot at them, she spun around to see a hole in the window, and then Brian Anderson was shot in the chest. Later, she realised she had been injured as well.

- She said a medical worker at one of the triage centers told her had this shot been a few inches closer; she would have died.

**Jennifer Mathews** - (was with Brian Anderson) "Then the boy turned around and shot him twice in the chest." = again demonstrates Eric fired twice at Patti/Anderson

**Teacher Rich Long** - saw Dylan reloading, as Dylan was doing that he heard firing from the same area (from Eric, whom he could not see). Dylan was looking back towards the double doors, Dylan was holding a gun, smoke was coming out of the gun. Dylan began to fire rounds out of the TEC-9, ejected a clip and put in another one. Everything above occurred within 3-5 seconds. When he came back into the library, Patti Nielson was on the phone.

- There is no Tec-9 magazine in that area.

\* Another witness, **Nuncio**, describes Dylan pointing his gun towards the west entrance and firing 10 times with his TEC-9, then throwing a pipe bomb into the parking lot. Of course, no where near 10 shots were fired by Dylan at this time; he fired 4 times total outside.

- There are some reasons for thinking Dylan didn't fire here. According to Rich Long, he heard gunshots from a different gunman and then saw smoke coming from Dylan's gun. By his own description, smoke had been coming from Dylan's gun before Dylan had even fired. Once again, there are only 4 tec-9 cartridges/casings outside.

**Tim Williams** - while in the hallway, he saw teacher (Patti Nielson) going toward the double doors of the west entrance, he saw her approach the two suspects. There were 2-3 girls standing between the double doors that lead outside at this time. The two suspects started shooting causing the glass in the double doors to break and fly all over. Then Mr. Williams ran to the gym area.

**Adrien Grimm** - was in the hallway, "catty corner from the front entrance into the library." Stopped short of the door when she heard what sounded like a BB gun. She took two or three steps backwards, and saw a male student (Anderson) stagger and fall on his face, she said that she thought he was injured by flying glass. She saw Mrs. Nielson, teacher, run into the library through the side door, yelling "get help, get help".

Note: the west entrance was just beside the library entrance.

**Vannessa Grimes** - she was in the cafeteria, heard shots and people yelled and screamed, and some students started leaving. When she exited the cafeteria she looked back to see if her friend was getting out, when she saw Dylan Klebold outside the cafeteria window, made eye contact with him. He was about 40 feet away when she saw him. He then walked approx 15 feet from the window "and then saw the glass explode with a boy inside being shot and falling backwards"; she said this was Brian Anderson.

- west entrance; not cafeteria

"Dylan then walked into the cafeteria through the double doors"

- Is she referring to the cafeteria south/student/rebel corner entrance? This is impossible; Lindsie Macey was using the phone that is attached to the rebel store double-doors; she would have been killed. She must either be referring to the cafeteria west entrance (which is correct; Dylan entered the cafeteria shortly after Patti/Anderson were shot), or the west entrance double doors.

from and she said just from other students that were in the Park. Stephanie told me that she had spoken to numerous students that said that the shooters came in by the stairway door. She said that is not correct, as she was standing there and no one came in by her. She believes that they came in on the west end of the cafeteria. I asked Stephanie if she had seen who was doing the shooting and she said no, she did not.

- Stephanie Wujcikowski - "stairway door" refers to the cafeteria student entrance/rebel corner, as stephanie describes being sat at one of tables A, B, C, D
- Must be referring to West Entrance upstairs.
- We do know from girl who was with Hochhalter that Dylan approached Hochhalter/parking lot and then went upstairs before eventually Anderson was shot. Vannessa may simply be omitting some things about what she saw.

## - Both gunmen descend stairs \*\*\*\*\*

Two testimonies to be combined:

**Kenny Rupp** - says after seeing smoke in the parking lot, he saw the back of a gunman wearing black shirt and boots running up the stairs, and Dylan walking towards the stairs and then up the hill by the stairs. <He describes this gunman shooting some people as he went up the stairs, but witness is probably referring to Kirklin/Rohr/Graves>. Then, everyone in the cafeteria started running for the stairs, then shots heard inside building.

- First gunman with black shirt may be Eric, black shirt is witness' brief glimpse of Eric's black combat vest

**Alex Marsh** - sees Dylan walking north up hill (by stairs?) then out of sight for "a few" seconds. Dylan returns, this time with a canister down the hill, throws it into the parking lot where it exploded. She then anticipated he might enter the cafeteria. Did not see Eric.

- According to Krista Hanley, Alex Marsh saw Dylan Klebold shoot a gun
  - Perhaps; he goes up the stairs, then comes down via the grass hill = soccer shooting/bomb??

Another witness who described at one point seeing BOTH gunmen at the bottom/near the bottom of the stairs:

- **Bae** - After janitors yelled at everyone to get down she got under her table. She then heard 4 popping noises from outside and began to look up from under her table when she saw 2 suspects/gunmen out on the sidewalk.
- Confirms their dual descent down stairs happened while kids in cafeteria were down.

**Richard Castaldo** - Says after he had been shot, the gunmen left for a period of time, and then returned. He says when they returned he saw both of them fire at the glass of the west entrance (this would be shots at Patti/Anderson). "Castaldo advised after the doors had been shot out the

suspects disappeared from his view ... he believed the subjects walked around the corner and that is when he lost sight.”

- After smoke seen in the parking lot, the next occurrences are the soccer shooting, shots at Nick Foss, shots at Patti/Anderson, and then the 3rd parking lot bomb (Pasquale) and west cafeteria entry. There is a gap between Patti/Anderson and the 3rd parking lot bomb; below combination of Rupp+Marsh testimonies may be explanation::
- \*\*\*After Patti/Anderson are shot, both gunmen head downstairs [Castaldo] (Eric perhaps only partway down the stairs, Dylan deeper into lot). Then, Eric runs upstairs while Dylan walks towards stairs (ie; Eric is ahead of Dylan when ascending the stairs). [Rupp] Dylan walks north up the grass hill carrying a gun [Marsh + Rupp], then returns “a few” seconds later with a canister/throws it into the parking lot (this being parking bomb #3; Bree Pasquale, just before entering commons) [Marsh]

## - Dylan throws third bomb in parking lot

- **Bree Pasquale**- says that while Patti Nielson is on the phone, she walks to the windows where he sees Dylan at the “top of the hill” by the stairs throwing a pipebomb into the parking lot, which “subsequently exploded”. Then, he descends the grass hill and appears to enter the cafeteria west door.

**Tyler Stark** - at the time he saw victim whose name he was unsure of, called him Patrick (in a youtube interview, refers to this person as Michael, then later says “i saw michael, the fellow student who had been sitting next to me, up on the hill, and it looks like he’s fallen because his pants are shredded, and there’s a little bit of blood” - this is Michael Johnson, who was injured on the grass hill)

picking himself up off the ground and start to move, but was limping - he saw Dylan coming down the stairs, holding a Tec-9 and pipe bomb. Dylan threw it into the parking lot where it landed near a black jeep, he heard the explosion and saw smoke from the explosion. While Dylan was on the stairs, after throwing the bomb, Dylan appeared to look toward the cafeteria area, at which time he believed that Dylan was going to come into the cafeteria. He began to run to the stairs.

**Terry Lawson** - after everyone in the cafeteria fell to the floor to take cover, Lawson remained standing and looked out the window. He saw Dylan standing near the door to the cafeteria, approx 4 feet from the window. There were two male students running up the hill north towards

the tennis courts. Klebold turned his attention from Lawson to the two people running up the hill and shoots at both of them. Lawson thinks he shot one of the individuals twice in the leg and the second was shot in the back. both continued up the hill. After shooting at the two people Dylan reached into his backpack and produces a pipe bomb, **silver, lights a red cloth that is a wick** attached to the pipe bomb and throws it with his right hand (left hand still holding tec-9) into parking lot. Laughing out loud while throwing. Lawson and Hales run out cafeteria after this

- Ian Hales; says he ran out when everyone starting leaving. Table AA or N (just off-camera in CCTV)
  - "While running to exit the building, Lawson heard about 5 more shots from INSIDE the building"
  - Bree Pasquale does not even say Dylan was not holding a TEC-9; she only responds w describing the pipe bomb when asked if Dylan was holding a weapon. Tyler Stark, in the cafeteria, also saw Dylan holding both TEC-9 and bomb at this time.
  - ANSWER; this is the #3 parking bomb; Lawson initially saw Dylan near the cafeteria door; but Dylan threw third bomb later on. Dylan being near the bottom of the stairs/cafeteria door shortly before #3 parking bomb also matches other witnesses descriptions
- Evidence item #2733 listed as "spring" (which was a bomb component)
- Evidence item #2707 listed as "powder residue"

she could identify as Dylan KLEBOLD, walking west from the entrance at the top of the stairs by the grassy hillside. As this suspect got to the top of the stairs he turned back toward the entrance from which he had just come and fired a handgun about ten times in quick succession towards the school / entrance. She recalled this suspect was holding the handgun in his right hand.

NUNCIO described after firing the shots the suspect then turned and went back to the area at the top of the stairs, stood by the edge of the grass. She watched as he reached into his trenchcoat and pulled out what she thought was a pipe bomb with his right hand and threw it towards the senior parking lot. She could not recall what the suspect had done with the handgun he was shooting with his right hand just prior to this. At this time

- According to Nuncio, the above occurs sometime after she sees Anne Hochhalter on the ground after being shot
- Appears to be describing Dylan throwing a bomb into the parking lot after shots fired at Patti Nielson/Brian Anderson. However, nowhere near 10 bullets were fired at this time, although he may have looked toward the west entrance.

\*\*\*\* Dylan points shotgun into Parking lot \*\*\*\*\*

**Carmie Rose Deihl**, in the cafeteria, says that after kids get down on the floor; she sees smoke by a car, sees Dylan standing by that car, then Dylan approaches cafeteria door with a shotgun,

then he fires shotgun, and she sees a girl who is outside of the cafeteria fall to the ground.

- No girl was injured with a shotgun outside.
- Possible solution: There are 3 bombs thrown by Dylan into the parking lot, the third was as Dylan was heading towards the cafeteria. Around this time, Eric was throwing another bomb into the far end of the parking lot. Perhaps, after seeing the explosion by the car thrown by Dylan and seeing Dylan approach the Cafeteria entrance (which he did do after throwing that third parking lot bomb), she heard another sound (Eric's bomb in the parking lot), then saw Hochhalter injured outside the cafeteria, and saw Dylan holding a shotgun; and so made the assumption that he had shot her.
- This happens in the witness testimonies somewhat frequently; for example, Seth Dubois had to clarify that she had not actually seen two girls get shot, but simply saw them bleeding/on the floor

**MICHAEL KELLOG** - (and several other witnesses) describe seeing Dylan with shotgun just before Dylan's entry. According to Michael Kellog, he saw Klebold in parking lot with a shotgun, "i didnt see him shooting the gun but i did hear shots" - before Mr. Sanders told everyone to get upstairs.

- Like other witnesses, they say they hear shots around the time of Dylans entry into the cafeteria.
- Kellog may be confirmation that Deihl is wrong and that dylan DID NOT fire into Parking lot at this time. Simply pointed the gun
- This also demonstrates that dylan did not enter before 11:24:04? The real prompt for the sudden movement at 11:23:50 was Dylan's approach with a shotgun?

WOOLSEY stated he was sitting in the west corner of the cafeteria near the vending machines when the attack began. He heard the sounds of gunshots coming from outside. WOOLSEY looked outside and saw a white male, over six feet tall, thin build, wearing a black trench coat, a black baseball cap worn backwards, and carrying a shotgun. WOOLSEY said he saw this individual outside the commons area raise the shotgun in the direction of the school. WOOLSEY then dropped to the floor and heard the sound of the shotgun blast. The shooter then moved toward the front of the school. According to WOOLSEY, many students started running towards the stairs and WOOLSEY heard the sound of gunfire coming from the upstairs area. WOOLSEY stated he ran into the kitchen bathroom and hid with five to six other people

- Sound of shotgun may have actually been Eric bomb at far end of lot?

- **Matthew Depew** - after seeing Dylan enter the west entrance he tries to call 911, it doesn't work, so he messages his dad on his pager. According to his dad, this message was received at 11:23

JANELL recalled Mr. Sanders and an unidentified janitor telling them to "get down," which they did. Shortly after this she watched a few students attempting to see what was going on outside, after which they began screaming, "here they come!" JANELL said she and many others stood and ran out of the school. JANELL said she ran down the hallway by the Foreign Language area then out by the junior parking lot, and crossed Pierce Street and waited in Leawood Park. She described that her sister, Aleia ran another direction than she had.

- "Here they come" as the prompt for the beginning of activity at 11:23:50, + several witnesses saying they saw Dylan near the doors (not yet entered) when everyone began to get out.

out west window and identified Dylan Klebold standing on top of hill by stairs and throwing an object into the west parking lot; saw same looking suspect walking toward west cafeteria door from bottom of stairs moments later; saw no other suspect; saw no guns; saw no

- Anthony Sammauro; same description as Bree Pasquale.
- **Sean Graves** - in news interviews; described the gunman step on his back as he entered the cafeteria, he flinched, and the gunman said "sorry dude"
- Leigh Kamens** - says people were still on the floor when suspect matching klebold description enters, people began to run when he began shooting [that could still be as late as 11:24:00]
  - So, importantly, people DID NOT begin running when he entered. This states he already entered the cafeteria when the pandemonium at 11:24:10 started
  - Despite some testimonies describing Dylan shooting in the cafeteria; there are no shells in the area dylan was when he entered
  - People begin moving at around 11:23:50

**Kyle Hayes** - says just as dylan entered, people began to follow mr sanders out, seen with face covering -

- Mr Sanders exits 11:24:05

**Bae** - says Dylan enters around time everyone began running

- On cctv people begin running around 11:24:10

**Fuselier** - describes Dylans position beside table WW

One witness described "he just ran in"

- Timing conclusion: Based on the above testimonies, Dylans entry occurred around 11:23:50 to 11:24:05. According to testimonies, people were still on the floor when he entered, and people began following Sanders out as he entered. We also so initial activity prompted by "here they come" at 11:23:50

what she did, and she said that herself and her friends at the table quickly got under the table where they huddled. She said one of her friends, Jamie Munkeby, then asked her, "Did you hear that gunshot?" Brittany said that she did not hear it and that she was told about the gunshot. After hearing the gunshot the people that were towards the west side of the cafeteria all started to move east. She said that she grabbed her friend, Jamie, by the hand, at which time they went to the kitchen area. Shortly after

- Brittany Davies. As this was a faint noise that some heard and others didn't; this may have been the sound of the explosion in the parking lot from below.

Norman states that he had left weight lifting class and had met Matt Katzenmeier in the hallway and that they walked to the cafeteria at approx. 11:20 and that while he was at the vending machines next to the west doors of the cafeteria, he heard shots out the west door and that he looked out and saw two people go down and that Dylan Kliebold then came into the cafeteria via these doors and started shooting, and that Kliebold was shooting all over the cafeteria. Norman also related that as the bullets were going by whizzing by his head that he was busy getting people out of the cafeteria.

It should be noted that this is the first time this Investigator has heard that Kliebold entered the cafeteria by this door and that he also fired numerous shots from this location. When Norman described this alleged shooting from inside the west door of the cafeteria, he held his hands by his hips as if holding a gun and did a spraying or sweeping motion from this position as he described Kliebold's actions.

Norman states that nobody was with Dylan, and that Dylan was wearing a black trench coat, black boots, a "goofy" face, long blond hair, and a big nose. Norman states that he did not see a duffel bag and cannot describe a weapon.

Melinda had gotten down when she saw a person dressed in all black, wearing a trench coat with something dark wrapped around his upper face; she couldn't see if he was wearing a hat or not; walk into the cafeteria from the north door by the pop machines. Melinda stated that the party had a long black gun and was alone.

heard. Nathan said that he started to crawl to the main entrance of the cafeteria and stopped at one point to hide by a pillar near table EE. While doing so, he observed Dylan Kliebold walk into the cafeteria through the door near the teachers lounge and vending machines. He was the only person standing up and he was walking around like he was in charge. He did not see a gun or any other type of weapon; however, he believed that Dylan was involved in some way by the way he was walking around. Nathan said that he could not recall how Dylan was dressed.

want to believe what was happening was true and she stood up for a second. She said that people had started making their way across the cafeteria toward the stairs and as she was standing looking across the cafeteria she saw a person standing with a gun. She said this person was a male and was wearing dark clothes, black pants. He was wearing a light colored shirt and she could see a long gun silhouetted in his hands. She could not describe what type of long gun it was, but said it definitely not a hand gun. She said that she also believes that this person shot the gun several times. She said that she first observed this person near table SS then he moved between the tables ending up between table EE and the pillar. She said as this person was moving through the cafeteria she turned and started to exit and could not identify this person. She said she saw people run into the kitchen and as people were running she heard what she thought were five shotgun blasts, although she did not see anyone shooting. She added that she thought the suspect she saw in the cafeteria might have had a backpack on and did have dark hair.

#### \*\*\*\*\*Disproving Dylan shooting from inside the Cafeteria

Virtually every witness recounts about 4-5 shots around the time of dylans entry/while running upstairs.

- There were a TON of students crowding/still heading towards the stairs/on the stairs when first shot inside 11:24:30, 11:24:34, 11:24:35, 11:24:42,
- According to one witness, he got the sense that they came from the cafeteria because the sound echoed in the cafeteria. (last name m?)
- Shannon Myers - while everyone was under tables; thought she heard 3 shots and estimated that they came from the centre of the cafeteria. Obviously untrue.
- Shelby Myers - "i heard about 5 loud shots, and i didnt know if it was inside or outside" while everyone was under tables.
- Michael Naifeh, ""Then was told to run to the stairs. I was on the stairs when i heard someone yell that he was inside. at the top of the stairs i heard more gunshots" Imagine hearing someone yell "he's inside" and then hearing gunshots (which are able to be

mistaken as coming from the cafeteria, as shown above). You would think the gun man was firing in the cafeteria. Looking at the footage, of how many kids were still crowding the stairs to get out when 11:23:30 shots in the hallway began; multiple students had the same above experience as Michael Neifeh.

- Proof dylan did NOT fire when he entered the cafeteria; no shells in the vicinity, and, Karen Nielson's 911 call from the cafeteria teachers lounge does not report it. If dylan had been firing, he would have been right beside them. Later on, an explosion from a pipebomb in the opposite side of the cafeteria terrified the people making the call enough to say "they just shot someone in the cafeteria, im gonna have to call you back!" and hang up.
- For an insight into how deceptive the noises could be; although what Karen Nielson/Sue Caruthers reacted to was an explosion from a bomb at the far end of the cafeteria; in her witness testimony Karen says she thought the sounds came from directly outside the faculty lounge.

He said that then he and other students began running towards the stairs and as they ran Orban could hear what he described as booms thinking in retrospect that these were pipe bombs. Orban

tables. Braden said he was there for approximately two minutes and heard someone from the back of the cafeteria yelling "he's in here....he's in here". I asked where this yelling came from and he said it was towards the west end of the cafeteria. Braden said he heard two gunshots that he believed to be in the cafeteria, but could possibly have been outside. Braden said that he stood up with other students and left the cafeteria through the door by the "Rebel" corner, and then went across the street to Leewood Park to

- The reason many believed the gunshots were coming from within the cafeteria because those were the first shots from inside the school.

#### \*\*\*\*\* Dylan runs along the cafeteria windows

**Anthony Hassman** - as everyone in the cafeteria was running out towards the stairs he saw a dark figure run along the west window of the cafeteria to the southeast.

- Multiple witnesses describing Dylan walking towards the south entrance of the school, with a few saying they saw him inside the commons in the south entrance. Issue is; this is impossible. If he had entered the commons this way, he would have ran into a witness who remained with Anne Marie Hochhalter for the duration of the massacre (archuleta), as well as Lindsie Macey who was at the phone by the student entrance, and would have run into the multiple people running away at this time. However, the idea that he simply ran by the windows again might be possible.

**Stephanie Pansini** - before everyone ran outside, she saw someone in a long black coat running outside the south windows

- Alternatively; this could be referring to dylan running after shooting kirklin/approaching hochhalter.

**Brandi Wiseman** -

trench coat, who appeared to be running south toward the southwest corner of the cafeteria. Brandi said that the glimpse she caught of this individual was very brief, and that she did not see his face or any weapon. Brandi said that other than the black trench coat, she did not notice any other clothing or features on this individual.

## \*\*\*\*\* - Crater bomb grass hill

**Mark Taylor** - in his book "i asked and god answered, a columbine miracle" he says "just before they left [into the school, as he says earlier], one of them threw a couple pipe bombs towards me; one landing not far from me but rolling down the hill before it exploded, the explosion scattered shrapnel, some of it struck me leaving permanent scars."

- This would be the bomb on the grass hill which left a crater, a photo of which can be seen in the El-Paso report
- In an article he is quoted as saying 2 bombs were thrown towards him.
  - Perhaps Dylan throws bomb #1 causing crater, then walks towards Mark Taylor/grass hill to throw bomb #2 into parking lot.

There is also a witness (Archuleta) describing Dylan throwing bomb onto grass hill from the base of the stairs.

- Says he "threw one pipe bomb on the hill above the cafeteria"
- "As he then walked up the stairs" - may indicate that she meant the bomb was thrown from the bottom of the stairs, and landed ON the grass hill; the crater bomb.
  - She then clarifies elsewhere that he was walking up the grass hill beside the stairs.
  - Then he went out of her sight towards the library entrance.
  - When the male disappeared on top of the hill by the west doors, she heard more gunshots and heard glass breaking. [ie; shots in the hallway begin]
    - "She thought she was laying on the ground for 15 to 20 minutes" and her next observation was seeing Gardner fire towards gunmen. This means her observation of Dylan throwing the bomb and disappearing towards the west entrance is of Dylan's final return up the stairs after having entered the commons.

## - Police Officer Gardner Arrives - Final parking lot bomb

Done <https://www.youtube.com/watch?v=YCO0AN8PJmA>

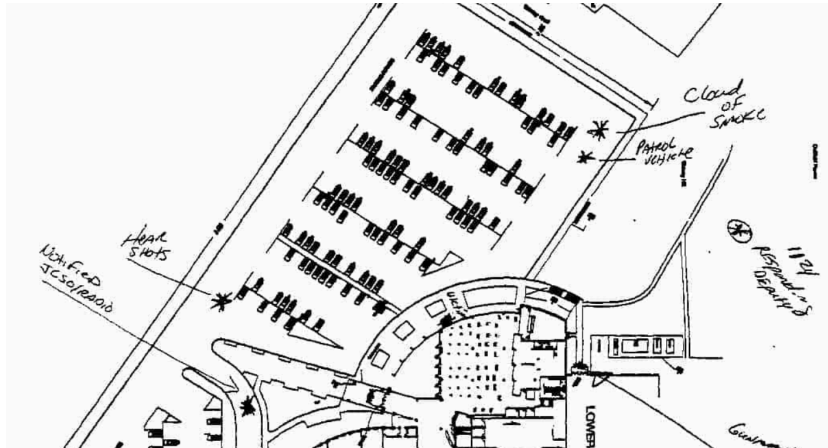

- 0:45

As mentioned earlier, Mark Taylor described a gunman approach him and throw two bombs, one exploding closeby him and apparently injuring him. Then, according to him, the cops arrived and the gunman ran off. Consequently, Andrew Marton had seen an explosion/smoke in the spot

perfectly matching evidence markers for a cricket bomb #2723, so it seems the second bomb Mark Taylor describes thrown around him is this last cricket bomb.

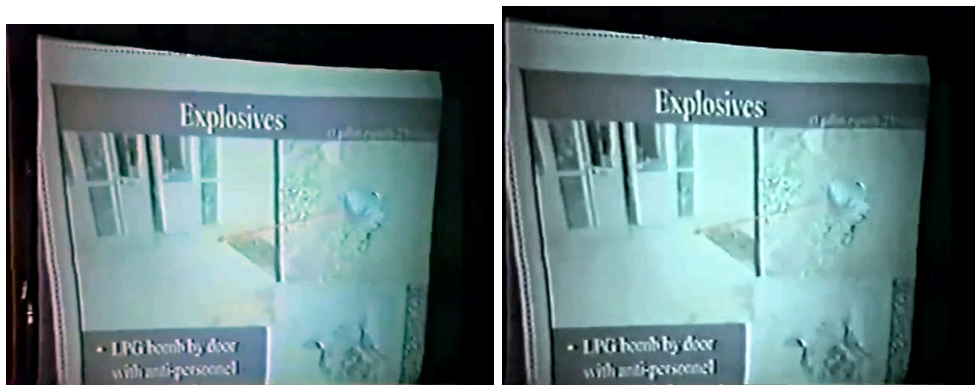

On Lindsie Maceys 911 call, she says “cops just pulled up” at 11:23:59.

- Map of Andrew Marton, who was with Gardner; demonstrating that the cloud of smoke was further down the lot, matches perfectly with the exact location of evidence #2723, which is listed as “CO2 remnant”

**Mark Taylor** - In a news interview; “and then i saw him, with a grenade, and he was coming towards me. And then, police officer came, and he ran off”

- Police Officer Gardner Arrives - Eric sets bomb by door

One of the gunmen set up a bomb at the west entrance before they entered the school

This is based on the 1 pound (small) propane bomb placed in front of the west entrance. It is also described in Jeffco's final report. According to Jeffco, the reason the police did not enter via the west entrance was because this bomb was blocking it. It had partially exploded.

There's one reference where somebody even says playing with Eric with Duke Nukem he would do that - set a trip bomb, shoot inside.

- Apparently, this was typical of the videogames the gunmen played.

-----

=== After these events outdoors, the gunmen enter the school via the West Entrance, and the rest of the shooting takes place in the hallways, library, cafeteria, and the principals office ===

Note: Eric's Shootout with Police Officer Gardner occurs after some shots fired in the hallways.

## BULLET TALLY

This is Eric's carbine bullet tally in the outside shooting. This list is to see at what points he would have reloaded, and how many bullets were fired at times when the number is unspecified (like shots into the parking lot).

According to JEFFCO, 47 bullets by Eric were fired outside. 40 by the fence, - 7 just in front of the west entrance (from Eric's shootout with Gardner)

This means Eric fired his gun 40 times before entering the school.

- #2101, 2102, 2107 are near each other on the stair hill, Eric described as coming down stair hill when shooting at soccer field.

- Testimonies describing 5-6 times may also be based on the fact that shots into the parking lot (2), and soccer shooting (3), occurred close to one another (=5).

- 3 shots at Soccer, 1 live bullet Foss?

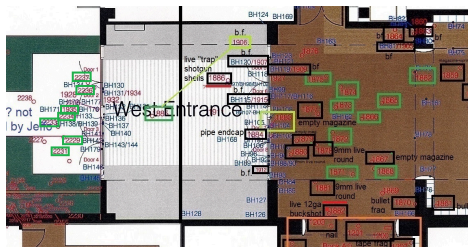

- NO this does not make sense; 40 FIRED casings total, as well as no 4th magazine from Eric by fence (which he would have needed

to drop if he had dropped a live bullet). Confirmed, live bullet 2109 is NOT from Eric

## BOMB TALLY

The report states there were 13 bombs exploded and 2 unexploded outside. Police would describe that later on, minutes before the gunmen suicide; Eric threw a pipebomb through the libraries back door. So, 12 bombs exploded bombs and 2 unexploded bombs were thrown outside before they entered the school.

- 1 initial bomb (2356/2357 "bomb fragments..around dumpster")
- 1 bomb near hochhalter - on grass knoll = 2710 listed as "nail-duct tape-shut" near one of the grass knolls, and 2715 listed "match-nail" on sidewalk
- 2 bombs on roof (evidence #3007 and #3008)
- 1 pipebomb in parking lot Dylan [time bomb], 2738 "clock parts" + witness testimonies

## TIMING

\*\*\*\*\* ~11:17 - beginning:

Brandi described that Lauren had also called her mother and was engaging her mother in conversation when Brandi noticed that an unidentified male student came running from the west, down the main hallway and ran out the main doors. She told me that as this person ran past her that she had an opportunity to look down at her pager and it was approximately 11:17 a.m. As she was looking at her pager, she recalled hearing "popping" noises coming from the west end of the main hallway. She described them as being firecrackers and telling me that they were definitely in the upstairs area of the high school. After hearing this, she

- "As she was looking at her pager, she recalled hearing popping noises from the west end of the main hallway" - shots occurring during 11:17. No evidence to contradict/refute this.
- According to witness Bowie, "John Vigel" had run into the office trying to tell people what was going on with the shootings. This is John Veigel in the 'not on campus' witnesses. There is no testimony from him, as according to police his parents refused to let police speak with him.
  - Alternatively; this kid who ran past Brandi had not witnessed anything/had nothing to do with what was going on. Nevertheless; Brandi states as she was looking at her pager which showed a time of 11:17, she heard popping noises
- This is very direct. The person looked at their pager and saw a time of 11:17, and said they heard shots from the area of the west entrance while looking at their pager. Its not reasonable to, and theres no direct reason to disregard it. We have nothing to directly contradict this.

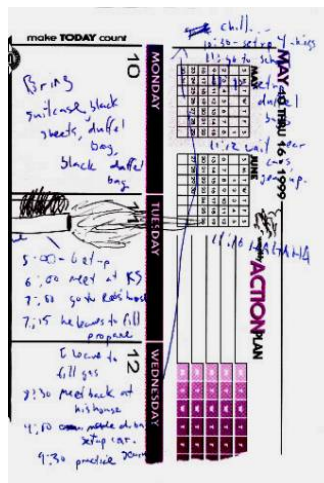

**Russel Schyler:** As he was walking down the hall, several students and a female teacher ran down the hall toward the office, with the female teacher yelling in anger to get into the office. Then he glanced at his watch and saw it was **11:18**. Then he heard 5-10 firecrackers coming from outside the school by the library.

**Jayson Autenrieth** says Dylan walked off 1 minute into the attack, and that Rorhbough, Kirklin, and Graves were shot about 3-4 minutes into the attack [and as will be demonstrated, we know they were shot around 11:21]. Originally assuming the ~11:19 start time, i figured he was just wrong, but given the 11:17 start time from Brandi Helling and Russel Schyler, this fits exactly.

- According to Autenrieth the first sounds he heard were "possibly a minute or so" after 11:15
- Multiple other witnesses offer a time of around or just after 11:15

According to JEFFCO's final report, the bombs in the cafeteria were timed to go off at 11:17 am. Dylan Klebold had a watch on him. The gunmen's original plan had been for the kids in the cafeteria to be killed by the bomb, and then to finish off stragglers. The typical assumption had been that they waited for the bombs to go off and then went to plan B at 11:19 when it became clear the bombs failed.

However, perhaps, assuming the bombs would go off when they were supposed to (and they had no reason to think they would fail); they decided to kill people who were already outside once it became 11:17 and get more once they started flowing out.

walk in, set bombs at 11:09, for 11:17  
 leave, set bombs.  
 Drive to cemetery park. Clear up.  
 Get back by 11:15  
 Park cars, set car bombs for 11:18  
 get out, go to outside hill, wait.  
 when first bombs go off, attack.  
 have fun!

- Per gunmans' handwritten notes; they expected cafeteria bombs to go off between 11:16 and 11:17.

#### \*\*\*\*\* ~1 minute into the attack - Dylan walks off

According to Autenrieth, Dylan walked off out of his view towards the west entrance about 1 minute into the attack

#### \*\*\*\*\* ~11:20 - Eric shoots at Mark Taylor

Adam Thomas says Denny Rowe checked his watch at 11:20 "just after" the firecrackers were going off, and later clarifies it was 11:20 around the time Eric shot at them the first time

#### \*\*\*\*\* ~11:21 - Grass hill shot + Rohrbough/Kirklin/Graves + Hochhalter

According to Jayson Autenrieth, the shots at Rohrbough+ occurred about 3-4 minutes into the attack, around 11:20-11:21.

- Shots at Hochhalter occurred "moments after" shots at Rohrbough+ ended, according to Blair, who was with Hochhalter and Autenrieth.

Adam Thomas, a Witness who was with the group of kids on the grass hill stated after running from the shots fired at his group he reached the shed at which time Denny Rowe checked his watch, and "1 minute 57 seconds" had passed since "Eric had initially shot at them". It is not reasonable to think that he did the math and came up with that number, more likely; he meant 1 minute and 57 seconds had passed since 11:20, the last time Denny Rowe checked his watch. So, they reached the shed at 11:21:57, and the shots at the grass hill occurred shortly before this.

- This timing of the grass hill shooting also helps time the two events which directly preceded them being shot at; shots at Hochhalter and shots at kids coming up the stairs Roughbough+

**\*\*\*\*\* 11:22:32 - Kirklin shot point-blank**

As previously discussed, many witnesses in the cafeteria cctv near tables UU and VV can be seen looking out the window, and testimonies from kids at these tables have them say they saw Kirklin being shot by Dylan with a shotgun.

- Witness Brooke says there was a commotion by the windows, she heard a single "pop" and then a janitor yelled for everyone to get down. On the cctv, everyone has a startled reaction to something at 11:22:32, and then shortly after they began to get down. Their startled reaction may be to Kirklin being shot.

**\*\*\*\*\* ~11:22:42 Dylan approaches Hochhalter**

Mary Baribeau - says while in the cafeteria, at table I (i), Kim Blair ran in and asked Mary for help. She went outside and saw Ann Marie Hochhalter bleeding, with Jayson Autenrieth looking after her, in the location matching where Autenrieth dragged her. She never heard anything while outside. While outside, she turned away from Anne Marie and saw subject matching description of Klebold; trenchcoat with handgun. The gunman was "pointing his gun and turning", "he wasn't really pointing at anything in particular". Mary Baribeau says when she returned to the cafeteria she got down on the floor.

- We can see exactly what she describes on the CCTV. At about 11:22:36 (after the shot at Kirklin) a few people come into the cafeteria from the south entrance (the one with multiple doors) with one girl (Kim Blair) seeming to yell/plead at another girl (Mary Baribeau) at table I (i), and they get up and head outside/exit the doors. At 11:22:51 they return inside to table I (i) and they get down on the floor.
- Diana Barker - was with Mary Baribeau, "Kim Blair ran in through one of the south cafeteria doors and went to Mary who was seated at Diana's table. Kim started to shake Mary and she was screaming hysterical that she needed help" - this exact shaking motion Kim does to Mary can be seen in cctv. They looked outside and saw Ann Marie bent over ... As they started to go outside through the same door, Mary stopped and commented that someone was shooting and she pushed everybody back inside. Diana did not see anyone with a gun but heard gunshots at that time.
- So, this incident occurred between 11:22:40 and 11:22:50
- Also at around this time, someone can be seen trailing something happening outside the cafeteria windows

**\*\*\*\*\* 11:22:38 - Lindsie Macey calls 911, first 911 call**

The first 911 call at the school comes from Lindsie Macey and begins 11:22:38 (according to a retiming). She called from a phone near the south entrance to the cafeteria after she saw Hochhalter screaming.

**\*\*\*\*\* ~11:22:45-46 - Dylan First bomb in parking lot**

According to witness Chris William Donnelly, just as teachers/janitors were telling people to get down, he looked outside the cafeteria windows and saw smoke in the parking lot. Then he got down. In the CCTV footage, people begin getting down at ~11:22:55

- According to him, he was at table WW. This is right by the cameras. At ~11:22:45 there is a boy at that table (dark shirt, with a white piece of clothing around his neck/on his shoulders) who (with a girl beside him) have a sudden shocked reaction to something happening outside, and flinches/duck down. This may be Chris. Because the camera is split at this time, we can also see a group of girls stopping in their tracks at 11:22:46 to look toward the windows in the same direction.

**\*\*\*\*\* ~1 minute after shots at Grass Hill 2nd time - Soccer Shooting**

Arnold Allen states he heard firecrackers (which seem to correspond to shots at the grass hill), then after 1 minute the gunmen shot at the soccer field. Adam Thomas and Denny Rowe's time helps give a rough estimate of the time of the soccer shooting. The shots at the grass hill occurred before 11:21:57, so the soccer shooting may have occurred around just before 11:22:57

**\*\*\*\*\* ~11:22:50 - Eric heads to parking lot**

Megan Steckley (cafeteria): "i saw a guy in a white shirt, walking down the hill from the soccer fields possibly carrying a gun. we got down under the table"

- This describes Eric coming into the parking lot after shooting at the soccer field to throw 3 bombs as reported by other witnesses. Students in the cafeteria begin getting down at ~11:23:00. So he descends just before

**\*\*\*\*\* ~11:23:28 - Patti Nielson/Brian Anderson shot**

Patti Nielson's call begins 11:23:44. She ran into the library, which was adjacent to the west entrance where she was shot; not a great distance. It helps give us a rough estimate of when she was shot. My own personal estimate, is 11:23:28 (16 seconds from her being shot until beginning the phone call) based on what she and other witnesses describe of her activities as she sprinted to the phone.

- Based on multiple testimonies; the shot at Nick Foss occurred just before Patti/Anderson were shot.

11:23:44 - Patti Nielson call begins.

**\*\*\*\*\* 11:23:43 - explosion+smoke in parking lot**

In Lindsie Maceys call synched to the cafeteria cctv, dispatch asks her if she sees anything, she says no, then says "actually" she sees smoke in the lot, at 11:23:43

- At 11:23:41 Lindsie Macey says "i hear lots of loud noises".

According to Bree Pasquale, patti nielson began to use the phone at which point she looked out the window and saw dylan klebold holding a pipe bomb which he threw into the parking lot. Patti nielsons call begins at around 11:23:44. In a news interview she says the reason she looked out the window was because she heard popping noises.

**\*\*\*\*\* ~11:23:50 - Klebold enters cafeteria**

Witness Karnes says people were still on the floor when suspect matching klebold description enters. Hayes says just as dylan entered people began to follow mr sanders out, seen with face covering. Witness Bae says Dylan enters around time everyone began running. We can see this happening in the cctv at 11:23:50, when a boy suddenly stands up in reaction to something happening near the cafeteria west entrance

**\*\*\*\*\* 11:23:59 - Police officer Gardner arrives**

In Lindsie Maceys call, at 11:23:59, she says “cops just pulled up” after mentioning seeing smoke in the parking lot (the same smoke which gardner and andrew marton saw and drove towards). Gardners arrival occurred just as the last bomb thrown by Eric at the far end of the parking lot exploded.

- Later she says “they’re headed in the right direction” [ie; towards smoke in the lot] at 11:24:05
- According to Mark Taylor, a gunman came towards him to throw a grenade, and then ran off when the cops arrived.

**\*\*\*\*\* ~11:24:20 - Gunmen enter west entrance**

In a synch of Patti Nielson and Karen Nielsons phone calls to the cafeteria footage, the first audible gunshot in the hallway occur at 11:24:30. This and the above detail help put the gunmens’ entry at shortly before this; perhaps ~11:24:15-20

- According to Gardner, just as he reached the end of the lot and turned towards the west entrance, he heard a gunshot/explosion from inside the school, and that there were no noises prior to this. This explosion/gunshot must be 11:24:30, the first audible gunshot/explosion from inside the hallway, meaning he reached the far end of the lot and turned the corner at about 11:24:30.
