

The cats

I opened my eyes and had no idea where I was. I observed around and I think: "I am in the moon?"

Yes, I was in the moon. Behind me there were a lot of cats. I can see a simple cat, a wall cat, a cat with an axe, a cow cat and a titan cat.

In the moon there was an army of cats. It's interesting, because there was a commander cat. The army seemed that they attack to a big face.
