Abstract— This document gives formatting instructions for authors preparing papers for publication in the International journal of Computer Science (IJTERS). The authors must follow the instructions given in the document for the papers to be published. You can use this document as both an instruction set and a template into which you can type your own text. Please leave the space above the title empty. Space is intentionally spared for the journal title. IJTERS requires the authors to cite at least 30 sources, and all the citations in-text must be synchronized with references. It is highly recommended to use a citation manager to ensure citation synchronization. **The word number in abstract should be within 250-300 words and consists of objectives, materials, method, results, and implication for further research.**

Keywords— Put your keywords here; keywords are separated by a semicolon.

Manuscript received 15 Oct. 2020; revised 29 Jan. 2021; accepted 2 Feb. 2021. Date of publication 17 Feb. 2021.

I. INTRODUCTION

Authors are suggested to present their articles in the section structure: **INTRODUCTION - THE MATERIALS AND METHOD - RESULTS AND DISCUSSION - CONCLUSION**. The discussion should provide a bridge between results and the literature review in introduction. Please be sure that the citations are up to date. All the citations should be listed in the references. It is expected that the citations are **at least 30 sources**, and 70% are the publication within 2019-2023. Use **Mendeley** for citation and references. IJTERS requires authors to submit **at least 8 pages article**, excluding the references. Maximum number of **authors is 10**

II. PAGE LAYOUT

An easy way to comply with the conference paper formatting requirements is to use this document as a camera-ready template.

A. Page Layout

Your paper must use a page size corresponding to A4 which is 210mm (8.27") wide and 297mm (11.69") long. The margins must be set as follows:

- Top = 19mm (0.75")
- Bottom = 28mm (1.1")
- Left = Right = 14.32mm (0.56")

Your paper must be in two column formats with a space of 8.5mm (0.34") between columns.

III. PAGE STYLE

All paragraphs must be indented. All paragraphs must be justified, i.e., both left-justified and right-justified.

A. Text Font of Entire Document

The entire document should be Times New Roman at 10 points in size. Other font type and size may be used if needed for special purposes. Recommended font type and sizes are shown in Table 1.

TABLE I
FONT SIZES FOR PAPERS

Font Size	Appearance (in Times New Roman or Times)		
	Regular	Bold	Italic
8	table caption (in Small Caps), figure caption, reference item		reference item (partial)

9	Institution, author email address, and cell in a table	abstract body	abstract heading (also in Bold)
10	level-1 heading (in Small Caps), paragraph		author affiliation
12	author name		level-2 heading, level-3 heading,
18	title		

B. Title and Author Details

Title must be Times New Roman at 18 points in size. Author name must be Times New Roman at 12 points in size. Author affiliation must be Times New Roman at 9 points in size and *italic*. Corresponding email address must be Times New Roman at 9 points in size. All title and author (s) affiliation must be in single-column format and must be centered.

Every word in a title must be capitalized except for short minor words such as “a”, “an”, “and”, “as”, “at”, “by”, “for”, “from”, “if”, “in”, “into”, “on”, “or”, “of”, “the”, “to”, “with”.

Author details must not show any professional title (e.g., Managing Director), any academic title (e.g., Dr.) or any membership of any professional organization.

To avoid confusion, the family name must be written as the last part of each author name (e.g., John A.K. Smith). Each affiliation must include, at the very least, the name of the company and the name of the country where the author is based (e.g., Causal Productions Pty Ltd, Australia).

C. Section Headings

No more than 3 levels of headings should be used. All headings must be in 10pt font. Every word in a heading must be capitalized except for short minor words as listed in Section III-B.

1) *Level-1 Heading:* A level-1 heading must be in Small Caps, centered and numbered using uppercase Roman numerals. For example, see heading “III. Page Style” of this document. The two level-1 headings which must not be numbered are “Acknowledgment” and “References”.

2) *Level-2 Heading:* A level-2 heading must be in *Italic*, left-justified and numbered using an uppercase alphabetic letter followed by a period. For example, see heading “C. Section Headings” above.

3) *Level-3 Heading:* A level-3 heading must be indented, in *Italic* and numbered with an Arabic numeral followed by a right parenthesis. The level-3 heading must end with a colon. The body of the level-3 section immediately follows the level-3 heading in the same paragraph. For example, this paragraph begins with a level-3 heading.

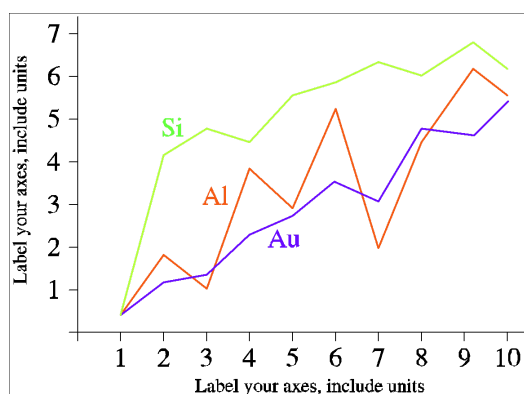

Fig. 1 A sample line graph using colors which contrast well both on screen and on a black-and-white hardcopy

D. Figures and Tables

Figures and tables must be centered in the column. Large figures and tables may span across both columns. Any table or figure that takes up more than 1 column width must be positioned either at the top or at the bottom of the page.

Graphics may be full color. All colors will be retained on the CDROM. Graphics must not use stipple fill patterns because they may not be reproduced properly. Please use only *SOLID FILL* colors which contrast well both on screen and on a black-and-white hardcopy, as shown in Fig. 1.

Fig. 2 shows an example of a low-resolution image which would not be acceptable, whereas Fig. 3 shows an example of an image with adequate resolution. Check that the resolution is adequate to reveal the important detail in the figure.

Please check all figures in your paper both on screen and on a black-and-white hardcopy. When you check your paper on a black-and-white hardcopy, please ensure that:

- the colors used in each figure contrast well,
- the image used in each figure is clear,
- all text labels in each figure are legible.

E. Figure Captions

Figures must be numbered using Arabic numerals. Figure captions must be Times New Roman at 8 points in size. Captions of a single line (e.g., Fig. 2) must be centered whereas multi-line captions must be justified (e.g., Fig. 1). Captions with figure numbers must be placed after their associated figures, as shown in Fig. 1.

Fig. 2 Example of an unacceptable low-resolution image

Fig. 3 Example of an image with acceptable resolution

F. Table Captions

Tables must be numbered using uppercase Roman numerals. Table captions must be centred and in 8 pt Regular font with Small Caps. Every word in a table caption must be capitalized except for short minor words as listed in Section III-B. Captions with table numbers must be placed before their associated tables, as shown in Table 1.

G. Page Numbers, Headers and Footers

Page numbers, headers and footers must not be used.

H. Links and Bookmarks

All hypertext links and section bookmarks will be removed from papers during the processing of papers for publication. If you need to refer to an Internet email address or URL in your paper, you must type out the address or URL fully in Regular font.

I. Equations

Equations should be placed flush-left with the text margin. Equations are centered and numbered consecutively starting from 1 as follows

$$E(F) = E(0) + \sum_i \left(\frac{\delta E(F)}{\delta F_i} \right) F_i \quad (1)$$

J. References

The heading of the References section must not be numbered. All reference items must be Times New Roman at 8 points in size. Please use Regular and Italic styles to distinguish different fields as shown in the References section. Number the reference items consecutively in square brackets (e.g. [1]). The examples of reference items of different format are as follows:

- Basic format for books [1], [2]
- Basic format for periodicals [3], [4], [5]
- Basic format for reports [6], [7]
- Basic format for handbooks [8], [9]
- Basic format for books (when available online) [10], [11], [12], [13]
- Basic format for journals (when available online) [14], [15], [16]
- Basic format for papers presented at conferences (when available online) [17]
- Basic format for reports and handbooks (when available online) [18], [19]

- Basic format for computer programs and electronic documents (when available online) [20]
- Basic format for patents (when available online) [21]
- Basic format for conference proceedings (published) [22]
- Example for papers presented at conferences (unpublished) [23]
- Basic format for patents [24]
- Basic format for theses (M.S.) and dissertations (Ph.D.) [25], [26]
- Basic format for the most common types of unpublished references [27], [28], [29]
- Basic formats for standards [30], [31].

IV. CONCLUSION

The conclusion should consist of the summary of the discussion and the implication for further research. The paper will not be reformatted, so please strictly keep the instructions given above, otherwise it will be returned for improvement. Please upload your paper in DOC file through the IJTERS website (<http://IJTERS.org>) under Online Submissions menu. Papers sent by e-mail will not be processed.
