HELLO RIVER RATS!

This directory contains self-submitted entries in the following format:
First name/Last in HS/Last now/Spouse/Partner/Address/City/ST/Zip/Cell/Email
What have you been up to? *What advice would you give your younger self?*

Sorted alphabetically by your last name in High School.

KEY

"Unaccounted for" = we could not find any information for that classmate.

"No entry" = we found them, but they did not fill out the Alumni Survey.

"On FB group" = a member of the Huron High Class of 1975 Facebook group: https://www.facebook.com/groups/3181190515426785

"Deceased" = their story, if available, is located on the In Memoriam page of the Reunion website: https://sites.google.com/view/huronhighclassof1975/in-memoriam.

Please email any corrections to HuronHighClass1975@yahoo.com.

Happy Reading!

Jennifer Adams Coon, 2455 Dunstan Rd, Apt 625 Houston, TX 77005, 216-548-0652, jencoon@comcast.net
After graduating UM (BBA '79), went to work at Michigan Consolidated Gas Company in downtown Detroit as a computer programmer where I met my late husband Bill (married in 1980). Twins Meredith & David born in suburban Detroit in 1989, at which point I left the workforce for a number of years. Relocated to Cleveland, OH in 1992. Youngest son Steven born a few months later. Raised kids in suburban Cleveland, moved to Houston in Fall 2011 as empty nesters. Bill worked in HR at Texas Children's Hospital until passing away in June 2017 from pancreatic cancer. I've been at Baylor College of Medicine in an administrative role since 2011, working with a group that conducts childhood obesity research. Hope to retire in a year or 2 and move to NYC to be closer to family (Meredith & David and their spouses in NYC, Steven & spouse in Wilmington,

NC). In the meantime, I've been ramping up the travel adventures. Looking forward to reconnecting with the class of '75, although it won't be the same without my HS bestie Barb (Dulgeroff) Smith.

Mimi Aldrich Henderson, Hamish, 25 Suffolk Rd, London UK SW13 9NA
+44 777 574 2005 Mimihenderson@outlook.com
Worked in finance, banking and education, moved to London in 1983, raised 2 children, acquired 3 more in a second marriage, lived in Tripoli (Libya) for a few years until the Arab spring took hold, hiked the Annapurna trail, Kota Kinabalu, the UK's coastal paths and bagged a few of Scotland's Munros. Skied in the Alps and sailed the Med in the summers. And I am a Grandmother! *The French classes you took in high school will come in handy!*

Wayne Baer, Rachel, IL, wayne_baer@hotmail.com
Technology has been the driving force for me. Staying on the bleeding edge has been a lifelong challenge. Being part of an R&D team on North Campus, Electrical Engineering was the spark. In the interim, I've moved 2 times from Ann Arbor and presently live in a

Chicago suburb with my amazing wife and 2 kids. My hobbies include racing off-road motorcycles, coaching baseball, restoring vintage vehicles, and being active on several 501c3 boards. *Enjoy the journey, it's not the destination that's important (well, it is a little).*

Richard Beard, Beth (Lovelace), 14282 Hickory Hill Dr, Manitou Beach, MI 49253
Cell 517-936-8359 home 517-467-4861, beardrichard85@gmail.com

June 9, 1975, began my journeyman electrician career at Uniloy in Manchester thanks to Jeff Barhoff's father.
September 1977, I accepted the Lord Jesus as my Savior, and it was the greatest decision I ever made.
May 12, 1979, I married my sweetheart and high school rival (Pioneer grad), Beth Lovelace. Together we have raised 6 children and now have 12 grandchildren.
October 1988 we moved to our home in the country on 10 acres and have enjoyed gardening, breeding dogs, raising chickens, camping and fishing with the family, and traveling to Hawaii and the Caribbean. We are active in our church, and have enjoyed ministry opportunities, singing in choir, working in bus and children's ministries, Bible study, and visitation ministry.

January 2003 Uniloy/Cincinnati Milicron moved production to Ohio, and I worked in a number of factories as a maintenance electrician until August 31, 2022, when I retired from Alpha Packaging in Ypsilanti, after 13 years being employed with them.
God has blessed my life abundantly, in more ways than I have space to write. I would be more than happy to share my experiences as a Christian with you. Please call, text, or email, and we discuss how you can know for sure that you are going to heaven and have the peace of God that passes all understanding. I look forward to seeing you all at the reunion.

Bob Carden, Patty, 5096 Village, Saline, MI 48176, 734-751-9326, Bcarden1957@gmail.com
Graduated from Michigan State. Worked at GM for 10 years and then 30 years in the charter airline business. *Don't drop math in 10th grade. Date more chicks.*

Patti Carey Tate, Jack, 5220 Scarborough Ln, Dallas, TX 75287, 214-850-0791, pattitate@sbcglobal.net
Graduated WMU in '79, BS Education. Moved to Houston where I met and married Jack, 41 years ago. We've been living in Dallas where we raised our son Michael and daughter, Chelsea and have two grandchildren ages 7 and 5. We enjoy traveling and vacationing, yes, there's a difference, entertaining and all water activities at our lakehouse on Cedar Creek Reservoir. In addition, I've spent numerous hours volunteering at schools and currently through my church. I have fond memories of my HS years and hope life has treated each of you well. Hope to see many of you at the reunion. Cheers!

Loretta Castor Adkins, 559 Wayland Grove Ln, Apex, NC 27523, 330-464-7214, loriadkins57@gmail.com
I attended the University of Michigan School of Music and received my Bachelor in Music Education in 1979. I loved teaching elementary and middle school orchestra/strings for 43 years, and I retired in 2023. Spending my last 27 years teaching in Ohio, I developed a successful string program at a Montessori school and was a middle school orchestra director. In addition, I also directed youth symphonies in Florida and Ohio and performed professionally as a violist in two string quartets and symphony orchestras in Clearwater and Tallahassee (FL), Lima and Springfield (OH) and a long tenure commuting to Richmond (IN) from Ohio.
In 1999, I adopted Kina, a beautiful 3-year-old girl from Bulgaria, who is now a 28-year-old violinist, pianist and music teacher. We both moved from Ohio to North Carolina in 2023 to be nearer my older sister's family and for my daughter's job opportunity. Since then, I have finished writing a book, exercise regularly with Tai Chi,

Silver Sneakers and Chair Yoga, play specials in church and walk trails or greenways. I also enjoy creative activities like scrapbooking, writing, poetry, painting abstract art, crewel embroidery, practicing my instruments, as well as reading and visiting National Parks.

Seek God's direction for your life & let Him lead! Don't let others talk you out of your dreams! Cultivate a close community of friends with whom you can share life's ups & downs!

Mary Ann Cochrane Gardner, Mark, 5146 Lakesprings Ct, Dunwoody, GA 30338, 678-524-9187, magardner77@gmail.com

I went to Duke University and studied accounting. I was on the varsity Field Hockey team, played in the Duke Symphony and was very active in the Kappa Alpha Theta sorority.

I moved to Atlanta and worked in public accounting auditing for about 2 years

I went to work for MSA, an accounting software company where I taught users how to use the Fixed Assets accounting program. From training, I moved to design and testing of accounting systems for 25 years. I spent another 10 years at 2 other software companies managing Quality Assurance teams and running software performance tests. The final 5 years of my career I consulted and used Tableau software to perform Data Analysis.

In 1992 I married Mark Gardner who was involved in production home building. We have 2 daughters. Ann lives in the Atlanta area works doing home renovation design. Lisa lives in N Augusta and works as liaison between engineering and sales.
I have continued enjoying music playing cello in a local community orchestra until the girls were born. Starting in the 1990's I started singing with my church choir and now am still singing in 2 choirs and ringing handbells.
We have lived in the same home since 1992 and my husband, Mark, is quite the handyman. Together we have done a lot of home renovations, most recently a screened porch that is my new happy place! I've enjoyed doing lots of gardening too.
Since retirement we have enjoyed traveling with highlights including trips to Israel, Peru and National Parks of the Southwest.
These days I keep busy with volunteering at my church and community. I have also taken up watercolor painting. *Don't be hesitant to meet new people.*

Candace Cook Bass, John, kndbass@aol.com
Having left Michigan 40+years ago, I may have lost the mid-west accent that I grew up with, but I haven't lost my love for my mid-west friends or the school memories that we share. I will be forever grateful for and proud of my Ann Arbor roots. After high school, I eventually followed my family legacy by graduating from the U of M. I earned a B.A. in Education, while my husband John, also a U-M alum, graduated at the same time with his MBA. At our shared Graduation, Mom was on the stage with the other profs. Over the years, I taught from pre-school through eighth grade in public, private and Catholic schools. After helping my father through several years of Parkinson's Disease, I immersed myself in a wide range of community work. I placed my community work on the back burner when I became a grandparent. Our son, daughter-in-law and our triplet grandsons have been the center of our lives for the past six years. Being a grandparent is THE BEST. "Story Time" with my grandsons is probably my favorite past time these days. These lyrics hold a special place in my heart- "Reach out and touch somebody's hand-make this world a better place if you can."

Stephanie Crane, James Herronen (friend), 4226 Boulder Pond Dr, Ann Arbor, MI 48108, 734-368-3486, stephcrn@umich.edu
Attended undergrad at Connecticut College in New London Conn. Lived in Boston and worked as an assistant buyer at Filene's of Boston post-graduation. Returned to Ann Arbor and attended graduate school in public health/hospital administration at the U of M. Did a residency at a community hospital in Monroe Mi. Became engaged to a young MD who subsequently passed away from brain cancer (glioblastoma). Worked in Detroit for Henry Ford Hospital and Blue Cross Blue Shield of Michigan. Returned to Ann Arbor to assist parents in various stages of decline; father Lewy Body syndrome, mother heart disease/diabetes. Bought a house in Stonebridge of Ann Arbor. Worked at Michigan Medicine as an administrative director of the homecare division for 19 years. Retired from the U of M in 2020. Became an RN/BSN at Eastern Michigan University while working full time then worked at St. Joe's in Ypsilanti as an RN for 2 years. Now I work part-time (if that) doing case-management for mental health and geriatric community members. I'm currently earning my real estate license. I enjoy cooking, nature, reading, swimming/tennis, travelling and tending to a large flower and vegetable garden. I most enjoy cooking the vegetables we grow and experimenting with international cuisine. I have 4 siblings and am an aunt to 5 young adults and a great aunt to two children, one just two weeks old! I like to visit my siblings outside of Boston (Winchester, Sarah), brother in Savannah GA (Chris) and sister in Hilton Head SC (Catherine). I am fortunate to have many friends and enjoy attending dance recitals, graduations etc. of my own and my friend's grandchildren. I have been taking courses at WCC and learning Spanish; I already am fluent in French. I am a member of two book clubs and the Ann Arbor quilter and fiber arts guilds. I have a timeshare in Mexico and I'm currently contemplating best places to flee to escape Michigan's long winters!

Do what you love and have fun! Always be willing to try new things.

MaryJo DeHart Felsted, Alan "Frip", 10718 Spring Buck Tr, Orlando, FL 32825, 407-421-5029, mjfelsted@gmail.com

After graduation, I toured Europe with the Musical Youth International choir. Then, I started college at Michigan State University. Freshman year was a turning point. Confronted with what the Bible says about life after death, I began a relationship with God that has carried me through life.

I graduated MSU in 1979, then joined Campus Crusade for Christ staff, now Cru in the US. I worked in Southern California for 2 years. In 1983, I went overseas for one year to Korea. Upon my return, I met my husband, Alan “Frip” Felsted. We were married on Valentine’s Day, 1987. Two of our girls were born in California, then we moved to Orlando, Florida. We left the ministry in 1994.

Three more children (a girl and two boys) were born in Florida. We homeschooled all five through high school. After 24 years, my last one graduated in 2017. Each has done well: teacher, musician (clarinet and piano) with a Doctor of Arts, business retail manager, computer programmer, and EMT school.

While homeschooling, I helped Frip with a part-time photography business, worked in childcare administration, and taught sewing classes. Now I’m the full-time Cru Archives Manager. Two girls are married, and one has my three grandchildren, ages 7, 5 and almost 4. I love being “Nana.” Our youngest gets married this August 2025.

Life revolves around grandchildren, church, work, Frip’s retired activities, and hopefully an RV trailer with travels in the future. We’ve adopted a 12-pound Chihuahua/Jack Russell rescue, named “Luther.” He brings us snuggles and laughs. For two years, we’ve hosted a Cuban family of four, who are legal immigrants. Never a dull moment for us, adventure abounds.

Be practical, don’t worry about what others think, and have fun in the process.
“Trust in the Lord with all your heart

And do not lean on your own understanding.
In all your ways acknowledge Him,
And He will make your paths straight." -Proverbs 3:5-6

Jim Fenton, Jane, 14772 SW Trevor Ln, Tigard, OR 97224, 503-737-5566, 503-926-4848, jamesfe007@gmail.com
Pursued a career as an Electrical Engineer after graduating from the University of Michigan with a BSEE degree in 1980. Ran track and cross-country while at Michigan, lettered in cross-country in 1978.
Moved to Oregon where I met my future wife Jane, married (1982) and had two children, Justin (1985) and Sonja (1987).
Went to night school and earned three master's degrees over a 25-year period: MSEE (1985), MBA (2007) and an MEM (2007). Got to meet President Obama at the White House in 2010 as a result of the American Recovery and Reinvestment Act of 2009 (ARRA) while working for A123 Systems.
Ran in the Oregon Hood-to-Coast 198-mile Relay Race 10 times, best team finish (12 people per team) was 19th place out of 1,000 teams. I averaged under 6-minutes per mile for my three 6-mile legs of the relay race.
Started pursuing a PhD. degree (2015) but soon realized it would take me 10 years part time, so I switched to teaching at the Oregon Institute of Technology for seven years as an adjunct professor instead (2015-2021).
Presently I am studying for my Electrical Engineering PE license so I can do consulting work when I semi-retire as Chief Engineer of Energy Systems from Hyster-Yale in a few years. *Take more time to enjoy life with family and friends rather than work all the time.*

Kathy Fingerle Mccolm, Single, 379 Canon Dr, Santa Barbara, CA 93105, 805-886-1115, kathymccolm@gmail.com
After a couple of years in Los Angeles, I moved to Santa Barbara, my home for 44 years. Married 23 years and now divorced. After stints in the computer world and non-profit fundraising, I worked in residential property management and raised three children—two daughters live in Portland, Oregon, my son, outside of Philadelphia. I'm an "Oma" to one granddaughter and two grandsons. Now retired, I'm enjoying many travel adventures, and when home, I'm busy as a docent at Santa Barbara's historic County Courthouse, and volunteer full time every February for the Santa Barbara International Film Festival. I attend many concerts home and in travel—from rock to country, classical to jazz. Enjoying all aspects of life fifty years later!

1977 - Move to Florida to pursue a career as a pilot.
1982 - Pilot gig not working out too well; pivot to ATC.
1989 - First marriage; first child (son).
2002 - UCF Bachelors' degrees for two—yay!
2003 - "Starter marriage" ends. 😝
2004 - Move to Northern California.
2008 - Second marriage—much better this time! 😎
2010 - First son moves in, goes to college.
2014 - First son: Cal Poly BSME; Bay Area tech career.
2014 - Twins! (Son/daughter)
2016 - Retire from ATC; continue pilot career.
2019 - First son marries.
2020 - Pilot career ended by pandemic.
2022 - Move to Florida, become bicoastal snowbirds.
2024 - First grandson!
2025 - Is it fifty years already? So much still to do….
Don't settle; strive and have faith that God will carry you when you stumble.

Paul Guttman, Mary Cullen Guttman, 4957 S Ridgeside Cir, Ann Arbor, MI 48105, 734-323-5425, pguttman@umich.edu
After earning degrees from the University of Michigan (UM) and Michigan State University (MSU), I embraced a two-year interlude in Steamboat Springs, Colorado, blending professional work with mastering expert-level skiing—a pursuit that instilled resilience and strategic risk-assessment skills.
In 1983 I returned to Ann Arbor and dedicated eight years to a Detroit-based construction management firm as a Project Manager overseeing complex renovation and new facilities construction. This expertise paved the way for a 32-year tenure as Director of Construction Services at the University of Michigan, where I oversaw an organization dedicated to the improvement of campus expansions and renovations.
My wife Mary and I raised four children—all River Rat High School graduates—in Ann Arbor. I retired in 2023 and now balance construction consulting with recreational pursuits, including golf, skiing, and travel, while prioritizing time with family and friends.

Life begins outside of one's comfort zone. I would tell myself to take action and not worry about missteps along the way. Many times, I let fear stop me from taking action. I would also tell my younger self to make sure to live life with ethics, values and an open heart.

Linda Hinkley Barry, Robert, 8595 Dexter Townhall Rd, Pinckney, MI 48169-8903, 734-368-4229, Lhbarry@gmail.com

Over the past 50 years, my life has been filled with love, adversity, adventure, and joy. I married Bob Barry (St. Thomas Class of ’74) in August 1976, and together we raised three children—Katie, Jake, and Lauren. We’re now proud grandparents to seven grandchildren. I’m the luckiest Grammie to have all of my family living within 10 miles. Our journey included career changes, parenting joys and some really hard moments too. We bought a wholesale distribution business that Bob managed while I continued to grow my freelance accounting business. As it does, life took an unexpected turn; while driving to the office on a Saturday morning in 1999 Bob's car was T-boned. He suffered a traumatic brain injury, leading to a long, hard recovery. We are so fortunate that he essentially had a full recovery. In 2018, we bought my parents’ home on Silver Lake—known as Camp Gramma. It’s the best “magnet”. Even the teenagers want to bring friends out for tubing, fishing and boating. Having a space the family wants to gather is the best way to keep close ties with them. These days, I spend my time renovating the house, planning trips, walking and working out. A newer hobby I’m passionate about is baking bread and pies. Each summer I process 150 lbs. of peaches into pies, jam and hot sauce. Our business has benefited us with travel to Italy every 2-3 yrs, France, UK, Spain, Netherlands, India, Africa, UAE and Brazil this fall. Life is full, and while we love to travel, home is the place I want to be.

Slow down and be curious

Pat Jewell Holland, Dan, 57 Kingsbury Dr, Waynesboro, VA 22980, 715-570-1104, pholland100@gmail.com
Studied music at UofM but graduated with a BA in History. Worked at St. Joseph Mercy Hospital in various clerical and professional capacities, during which time I met and then married Dan Holland. Returned to school (MSU) in 1988 for master's in music and continued at UofM for doctorate (DMA '93). Lived in "greater suburban" Grass Lake from 1980-94; moved to Stevens Point WI for teaching position at the University of Wisconsin-Stevens Point, where I went through the ranks from tenure-track to full professor across a span of 25 years, including 9 years as department chair. Many wonderful performing experiences! Retired in 2019 and moved to Waynesboro VA (a lot less snow and shorter winters than central Wisconsin!), where COVID hit a couple of months after we got settled. Hard to start out in a new place in quarantine, but we gradually got to know people here and when quarantine was lifted, I started playing in

the Waynesboro Symphony. You never lack for friends when you're in music! It's been the scenic route, but wonderful! Will miss seeing you at the reunion but looking forward to seeing lots of photos and accounts on FB!

Ruth Larson Bender, Daniel, 3317 Garfield Ave, Minneapolis, MN 55408, 612-756-0295, rlarsonbender@gmail.com
I married Daniel Bender ('70) in 1978 and we have two children, Anna and Will. I received a master's degree in Agricultural Economics from Iowa State University and, upon graduation, became an analyst for the Iowa State Legislative Fiscal Bureau. In 1988, we moved to Tokyo where Dan became the Elementary School Principal at The American School in Japan (ASIJ). We ended up staying there for 27 years because we fell in love with the school community, Japan, and the chance to travel that living overseas afforded. In Japan, I was a stay-at-home mom until Anna and Will were old enough to attend ASIJ. Then I began working at ASIJ's elementary and high school libraries. I earned a master's of library and information science from San Jose State University during that time. In 2015, we moved back to the United States to make our home in Minneapolis. I worked as an associate librarian at the Minneapolis Central Library until my retirement in 2023. Retirement is grand! We have lots of time to visit our kids and their families, including two grandsons. We enjoy all that Minneapolis has to offer and we continue to travel! We have recently hiked the Camino de Santiago and are set to walk St. Cuthbert's Way in Scotland & Northumberland.

Keith Mann, Claudia Buchmann, 40 E. South St, Worthington, OH 43085, 740-362-3537, Kolinmann@gmail.com
Like many of you, I've enjoyed many great times and experienced some not-so-good times.
I attended MSU for a year and then transferred to Michigan, where I blew through several natural science majors and played on the lacrosse club. I also continued playing backup guitar for Jay Steilstra around town. I finally settled on geology and earned my B.S. in '79.
I worked for ERIM for a bit but then headed west a few weeks after Mount St. Helens erupted. I lived out of my pickup truck (primarily camping, hiking, backpacking, & bicycling) before returning to A2 in the fall to work as a carpenter. I also sailed across Lake Huron to Canada & back in early October with some friends. One night, a storm pummeled us, and we barely made it into a Canadian harbor, where we bumped into Cousteau's lead crew that was preparing to study the "Gales of November" on the Great Lakes.
When temperatures warmed in the spring, I headed west again in my truck. I ended up living with several geology majors who attended Colorado College, and I landed a job working as a land surveyor. I was living my dream in Colorado and bagging fourteeners with my new cadre of friends.
However, that dream came to an end when some graduate schools extended offers. So, I headed to Texas in '82 and served as the T.A. for their summer geology field camp before I began classes in the fall. That December, I ran my first marathon, which started a life-long love of running (I ran a half marathon this past April). My research focused on shell geochemistry, and I earned my Master's Degree in paleontology in '84. I then headed to the University of Iowa for my doctorate in paleontology. I also spent a summer in East Greenland collecting single-celled fossils from Proterozoic rocks (~750 million years old). And I studied the effects of deforestation on coral reefs along Panama's coast. Later, while conducting solo fieldwork in the Arbuckle Mountains, a rockslide enveloped me. As the rocks and I cascaded over a small cliff and hit bottom, I suffered a compound fracture of my femur—the month in the hospital and the recovery were not fun. While in Iowa, I also started racing bicycles competitively, rode RAGBRAI twice, whitewater kayaked in Wisconsin many times (though after I perfected my kayak

roll, I became too cocky, got Maytaged in a hole at the bottom of a small waterfall, and broke two teeth).

I married after graduation and worked at the Iowa Geological Survey. Our research group investigated groundwater degradation due to agricultural chemicals. I also picked up a job on the side as a visiting Assistant Professor of Geology at Grinnell College, which changed my career trajectory. I now wanted to teach at a small, private liberal arts college rather than pursue a career at an R1 university. I'm so glad I did.

The following year, Juniata College hired me, and we moved to central Pennsylvania. A few years later, Kyle, our first son, was born. What a magical experience. (He earned a BS in mathematics at Oberlin College, attended College Semesters in Mathematics in Budapest, and earned his Master's in biostatistics from the Gillings School of Global Public Health at the University of North Carolina. He then started working on Phase I, II, and III clinical trials for cancer drugs & a few years ago also began working on his PhD in statistics).

We began to feel limited in the Appalachian Mountains of Pennsylvania. So, I accepted a teaching position at Ohio Wesleyan University in '97. I also developed a research program with a series of students working on the number, rate, and extent of sea-level incursions into the Midwest that occurred during the Middle Devonian (397 to 385 million years ago), when North America resided just south of the equator.

The birth of Mason in May '98 filled my heart with great joy. Three years later, I built a summer/retirement home in northern Michigan with the help of two former students. Over the following years I also built the cabinets and furniture. (Mason went on to attend Georgia Tech University, studied in France, and earned his B.S. during the pandemic, with no ceremony. He continued his studies there, earned his Master's Degree, and so we did get to see him graduate! He's now on the faculty at New York University, lives in Brooklyn, and thoroughly enjoys the city's creative scene.)

In 2005, unbeknownst to me, trouble loomed on the horizon. My spouse wanted a divorce and then moved to Arizona. Several months later, I officially became a full-time single dad—what luck! Plus, I had a great role model, my dad. After my mom died of cancer when I was in third grade, he raised my sister and me by himself.

Luckily, in 2007, I met my kindred spirit, Claudia, who also had two kids. She grew up in Milwaukee, graduated from the University of Wisconsin and then Indiana University, and is a Professor of Sociology at Ohio State University. She also loves to camp, bicycle, hike, cross-country ski, alpine ski, sail, and canoe! We began blending our families while planning our wedding for the summer of 2011.

But in November 2010, I learned I had a rare form of a rare cancer. I tried giving Claudia a way out of my predicament before we married, but she just looked at me and said, "No way." What a lucky guy I am! We traveled to the University of Michigan for

my treatment because they specialized in my cancer type. Since my tumor would not respond to chemotherapy or radiation, I had two surgeries (followed by scans for five years). I've been NED ever since!

Unfortunately, in May 2011, a hit-and-run driver left my oldest son and his bicycle on the side of the road. When I arrived at the emergency department, a doctor told me, "If your son had not been wearing his helmet (which had broken into several pieces), we would be having an entirely different conversation right now." He suffered a shattered jaw and many other injuries that required a string of surgeries over the following two years. Thankfully, he healed completely! Claudia and I did get married Up North, and Kyle played “Blackbird" by the Beatles on his guitar, one of Claudia's favorite songs. Blending our families worked far better than we had hoped. Also, Claudia's oldest child became a geology major at The College of Wooster and now works for a geotechnical engineering firm in Columbus, Ohio. And her youngest will be a senior at Denison University in Granville, Ohio, this fall.

I absolutely loved being a geology professor. It was the perfect job for me. I could not have invented a better job for myself. Nonetheless, I retired from Ohio Wesleyan University, along with 40 other senior faculty members, during the pandemic.

I have thoroughly enjoyed retirement. I often feel like a three-year-old: I want to do so many things (traveling and doing things with Claudia, building furniture, running races, pursuing photography, writing essays, leading geology field trips in the Sleeping Bear Dunes National Lakeshore . . .) all at once!

We hosted Kyle's wedding last week at our place near the Sleeping Bear Dunes National Lakeshore. And now, Mason and I are building an art studio addition to that house. Claudia will soon retire and looks forward to dedicating more time to her oil painting in that art studio (she's already had several solo art shows in Glen Arbor). I'll also use it for photography.

Claudia and I hold our marriage dearly and realize, after our earlier experiences, how lucky we are. We swim in gratitude daily.

As John Gorka, a folk singer, sang in the eighties—

"If all my luck ran out tomorrow
I'd have to say that I have had my share
Enough to balance out the sorrow
Enough to say that I'm a little scared

'Cause this is not what I expected
I did not expect to feel this good . . .

All the rest is just like gravy on the table
And I'll pour and pass as long as I am able
And I know it takes some time to understand
The rules of behavior here in gravyland
Here in gravyland"

Ron Mathews, Janis, 1911 Lorraine Pl, Ann Arbor, MI 48104, 520-488-5728, mathewintn@yaoo.com
After attending Sparty & UM, I headed west & graduated from U of AZ with a business degree. Loved being in Tucson in the winter and playing softball in the summer in Ann Arbor. Earned my MBA at MSU then on to a career in supply chain management in the automotive industry, working for Chrysler (before Daimler, Fiat, Stellantis!) in Detroit and Nissan in Nashville & LA. A car guy for life, I guess! It was interesting working in such a global environment, with many trips to Japan and elsewhere. I had a 1968 Firebird

which I completely overhauled and now enjoy fooling around with a 1990 Mustang convertible, green with a white top, the “7-Up” version. My main hobby is renovating old houses, currently a 1926 vintage one in Ann Arbor. I also like golfing, biking, and hiking. Former runner, but too many aches & pains now! Married happily for 38 years. Janis & I have been snowbirds for the past 10 years, wintering in Tucson & Sarasota, and spending the rest of the year in good ‘ol Ann Arbor.

Laurie McCalla Isley, James, 2683 S. Grosvenor Hwy, Palmyra, MI 49268, 517-260-0348, lisley5775@gmail.com
I attended Michigan State where I earned my bachelor’s degree in Agriscience/Natural Resources Education. I also met my husband, Jim at MSU. We were married in 1979, and I began teaching Agriculture and Biology at Blissfield Schools. Jim and I also own and operate Sunrise Farms. Jim is the fifth generation to farm this land. We have three wonderful children, Alysa, Luke and Jake, who are married, employed and have blessed us with eight beautiful grandchildren. I retired from full time teaching HS after 32 years, but now work part-time teaching adults, who want to earn their high school diploma. Growing up on a hog farm just outside of Ann Arbor and marrying a farmer, gave me an appreciation for agriculture that has influenced my career path and given me many great opportunities. I volunteered extensively with Farm Bureau and served nine years on the Michigan Soybean Check-Off board. I currently represent Michigan as one of three directors on the United Soybean Board. Through these organizations, I’ve been able to travel to many different countries to discuss our agricultural practices and promote US soybeans.
Our faith has been the foundation of our marriage and our family. Both Jim and I have served in the Emmaus community, participated in several mission trips and served in our church. We recognize that we have been blessed in so many ways, and we thank God for his faithfulness.
Look for the good in every person and situation and be grateful.

Roy More, 1881 Snowberry Ridge Rd, Ann Arbor, MI 48103, 734-945-6564, ramore@ameritech.net
Went to UofM. Earned BS in Econ and BSE in Industrial Engineering '79, cum laude. Then MSE in Operations Research '81. Inducted into Vulcans (top Engineering students) and Michigamua (later Order of Angell) - top 25 senior student leaders on campus. President of social fraternity, VP of UM student government, CFO of UAC. After masters graduation went into hospital consulting, first as an external consultant dealing with hospital reorganizations and with information systems management. Then the CIO of UM Health Systems recruited me to facilitate transition to electronic medical records. Ended up working for the COO and Chief of Clinical Affairs on improving operational efficiency. Saved an estimated $200 million over five years. Retired in 2001. In 1983 with brother Jeff (HHS '76) opened up Ashley's Restaurant on campus. Full-service restaurant. Brought ""pint glasses"" to the USA after visiting England in '85. Kept expanding our beer selection and tap lines. Original tag line was ""Home of the English ales"" then ""Michigan's premier multi-tap."" When we first opened ""multi-tap"" would have been four or more taps. We eventually expanded to 72. Serving ""craft beer"" before it was called craft beer. Helped get Bell's going. Keeping Founders alive. And others. We were actually selling more Bell's than in the first couple years of Bell's at Comerica Park. Eventually though Comerica Park overtook us. These days a full gastropub with most menu items made from scratch on site. Dollar wise sell as much spirits as we do beers. 30th anniversary was a different custom beer each month from

brewers across the country (Bell's, Stone, Blue Point, Dark Horse, Short's, etc.). 40th anniversary though was barrel select bourbons and scotches.
Bought southeastern Michigan franchise rights to Pizzeria Uno. Very mixed experience. Company bought out by private equity and new CEO drove them into bankruptcy nearly taking my brother and I with them. Created and hosted a top 10 beer festival - North American Belgian Beer Festival. If it wasn't brewed in Belgium, it was not allowed. Brother and I were knighted in Belgium (""enthronement ceremony"" it is called). Served on several local, regional and national non-profits including Chair, Administration Commission, St. Mary's Parish; President local Boy Scout Council, BSA National Council voting member; President of Michigan chapter of HIMSS; incoming President-elect Rotary Club of Ann Arbor (one of the largest such chapters in the world). Married but now divorced. Children in San Francisco, Denver, and Grand Rapids. One grandson. So far.

You're more likely to regret the things you don't do than the things you do do.

Doug Murphy, Melinda, 3254 Williamsburg Rd, Ann Arbor, MI 48108, 734-973-6250, dmm325@outlook.com
After graduation I worked and went to school, then in 1979 my girlfriend Melinda and I were married. We met in 1973, and I was fortunate when I went through her vetting process at sixteen, I made the cut, and she picked me. Melinda's been the best coach and wife that I could have ever asked for.
After going to college for business I landed a position with a Michigan based company Whirlpool Corporation, where I worked until retirement for thirty-five years.
I've been retired seven years, and we have enjoyed many winters in the warm climate of Florida and plan on continuing to escape the cold winters returning some place warm.
During retirement we have traveled and continue to enjoy theatre, golf, following our sports teams and of course spending time with family and friends.
I've even officiated several weddings for family and friends since retirement, which was an honor to be asked.
I took up bicycling after retiring and it's been a passion of mine ever since.
Being close to seventy, I hope to continue my positive outlook on life so that I can continue experiencing lifelong memories one day at a time.
The advice to my younger self, that's easy! First, I would say thanks for the experiences you chose at the time, whether it was for the good or bad. Your choices made me who I am today, you did great! Thanks for the interesting life. Older Doug

Worked for GM for 11 years while attending several trade schools which led to a 36-year cargo airline maintenance career. While working for the airlines I traveled the world, to date I've either lived, vacationed, or short business visits to 54 countries. Too many adventures to list or describe! Some of the more memorable, African Safaris, Gorilla Trekking in Uganda, Great Wall, Taj Mahal, Base Camp 17K Mt Everest, To the Top of Mt. Kilimanjaro!!! (Can't believe I made IT!!) Cave explorations in Vietnam and Laos, and just last year finally made Antarctica, which made all 7 continents as well.
Met my beautiful Polish wife (Joanna) during a 5-month business trip in Beirut back in 1998, married in early 2000.
I just retired, but I am spending some time instructing courses, and tutoring students in aircraft maintenance in attempts to keep air travel safe!! Let's hope I still know what I am doing!!
I have a couple more vacation destinations in the next few years which will probably bring the country count to 60 before I just drive a motorhome around the US.
Wouldn't change a thing

Franchise Domino's Pizza.

Linda Owers Narhi, Don, 2890 Los Cedros Cir, Camarillo, CA 93012, 805-377-6347, lindaonarhi@gmail.com
Got my BS in Chemistry, and Cell and Molecular Biology, from U of M (roommates with Linda Hutchins and then Judy Polakowski). Met my husband Don Sophomore year, got married the same week as graduation moved to Southern California for grad school and never left!
PhD in Biological Chemistry from UCLA and then was lucky enough to get a job at Amgen when Biotech was just transitioning from a concept to a viable way to make therapeutics. Got to watch the company and the science evolve, and work on many projects including some drugs that benefited family and friends.
Retired from Amgen in 2018, and now consult, am on industrial advisory boards for several Univ of CA campuses and am an adjunct Prof at UCSB where I teach a lab class every fall quarter (love interacting with the students). Enjoy reading, gardening, hiking, and making jams and other preserves.
Our family includes a son and daughter and their life partners, and a 2-year-old granddaughter (with another on the way) from our son and daughter-in-law. Being a grandma is the best!!
Life really is about the journey, not the destination, make sure to pay attention and enjoy the trip! No decision is set in stone, so don't worry about each one so much.

Shortly after graduation, I relocated to Virginia Beach, VA but that did not work out well so moved back home. In 1978, I started working at Bechtel Corporation which led me to a temporary assignment with Commonwealth Edison (ComEd) in Chicago, IL. After 3 years as a contractor in 1991 I joined ComEd working in various Nuclear Energy positions and locations. I married in 1993, had a son in 1993 and another son in 1996. I lost my oldest son in 2018. My youngest son lives in Phoenix, AZ. I retired from ComEd, now called Constellation Energy in 2018. In retirement I have enjoyed traveling, volunteer work and helping family and friends through challenging times.
Don't be delicate, be vast and Brilliant

In my twenties, I got some more education, took some long trips to South America, and made a career choice. From age 30 until retirement at 65 I was a Foreign Service Officer and lived in various places around the world, plus Washington, DC, and New York, NY. Instant family in my late 30s when I married a wonderful Brazilian woman with two boys, then we had two more boys, so a full house for many years. In retirement, I have become active in hyper-local affairs, and I have a seat on our neighborhood council in downtown DC. I enjoy learning languages, foreign and domestic travel, reading, and good TV series.
Above all, take care of your family's well-being. After that, be humble; pick bosses, not jobs; hang on to good real estate.

Hank Savage, Janis Long, Chevy Chase, MD 20815, hasavage1@comcast.net
Earned a BA in economics from the University of Michigan, where I founded the Michigan Economics Society. Studied at the University of Oslo, Norway. Worked for 2 years as ship's photographer on an early small expedition cruise ship, sailing around the world to all 7 continents, from polar circle to polar circle, and up and down the navigable length of the Amazon. Graduated from Tulane Law School in New Orleans, where I studied maritime law, and met my Louisiana wife. Worked for 35 years in the nonpartisan legislative drafting service of the U.S House of Representatives, writing laws related to ocean shipping, wildlife and ocean resources conservation, Federal mining and oil and gas leasing, homeland security, and other topics. Raised 2 wonderful sons. Now retired and enjoying extensive traveling, gardening, cooking, eating Chesapeake Bay crabs and Louisiana crawfish, enjoying our 2 step-grandkids, and waiting for the birth of our first grandson.
Study hard, learn lots, see the world, love your family, and be kind and respectful to all you meet. Oh, and stay away from Angelina Jolie.

I graduated from University of Michigan with a number of degrees, ending with a PhD in Biostatistics. Married my high school sweetheart, Debbie, almost 47 years ago. We have two sons and one granddaughter (so far). Worked in clinical and health services research for 43 years, with stints at The University of Michigan, Humana and The Joint Commission. Retired in 2023. Recently moved back to the Ann Arbor area, after being gone for 34 years, to be closer to family. Currently building a new house in Saline which will keep us busy for the near future. Since retirement I have kept busy with traveling, keeping up with cultural activities in the area, reading, experimenting with baking bread,

learning to play the soprano saxophone, and pursuing interests in statistical visualization.

The trick in life is to identify the few things that are really important and concentrate on those and to not sweat the rest.

Janis Stephens Mathews, Ron, 1911 Lorraine Pl, Ann Arbor, MI 48104, 520-488-7405, mathewsintn@yahoo.com
Went to MSU, roomed with Robin Snedeker freshman year, and we're still friends! Earned MBA at night at EMU in 1983. Supply Chain/Logistics career in medical device, computer hardware, & beverage industries. Everybody needs an efficient supply chain! Married Ron in 1987, took turns following each other's careers from San Diego to Nashville to Tucson.
Retired in 2015. Pursued my passion for art history by running an art book club for 10 years at the local library, and designing art travel itineraries for out-of-town trips, shepherding groups of 20-25 from Denver to Palm Springs to Bentonville, AR, to raise money for the Tucson Museum of Art. After many adventures and near misses, decided that was much more fun to do with family & friends!
We divide our time between A2 & anywhere warm! Love bike rides & rehabbing old houses. *Embrace change!*

Rebecca Stevens, Don Ha, 2250 San Francisco Ave, Long Beach, CA 90806, 562-882-3035, reb2s@netscape.net
Climbing mountains, riding horses, body surfing, reading, waitressing, leasing high rise apartments, learning, teaching, Living life fully with appreciation.
Listen deeply, ask clarifying questions, determine the credibility of your source, reread, ask for assistance when you get stuck. Create time to meet new people, to learn and practice new things, to be of service in ways that bring you joy.

Janice Stewart Shock, Larry, 5507 Hidden Pines Dr, Brighton, MI 48116, 810-227-8270,
810-599-5395, ljmhshockers@sbcglobal.net
After graduation, I went to UM, then accepted a job offer for an administrative & flight attendant position with Chrysler's flight department. Attended night school to finish my business degree. The entry-level job turned into a 37-year career with Chrysler/Daimler/ Cerberus/Fiat, with various HR roles in aviation, engineering and manufacturing. Married Larry Shock (Huron class of '73). Two adult children, both educators. I enjoy running, yoga, reading, Detroit Lions football/travel, trips with my sisters, & most of all, travel around the world with Larry. 70 countries so far & still on the go!

Jim Stewart, Karen Stewart, 2521 Tail Spin Trl, Port Orange, FL 32128, 507-261-5884, Miltonajim@gmail.com

U of M. Worked at IBM Rochester MN for 35 years. Now retired in Florida. 2 kids & 2 grandchildren. *Enjoy the early years - they go by so fast.*

Ian Stockdale, ies@acm.org
I went on to UM, where I did a BS in Physics as planned and unexpectedly discovered a love for Italy. Especially Florence. Then came a graduate degree in particle physics, getting into wine and opera and doing theater as a way to procrastinate on my dissertation. That kept up for about 20 years (theater, not the dissertation). There was a postdoc based at Stanford, with wine and theater, then after a brief foray into a faculty job in Cincinnati, it was out of physics and back to the San Francisco Bay Area for the duration.
I've been in tech since then. First NASA (the aeronautics bit, not the space part), then riding the internet bubble up and down, followed by a long tenure at a Michigan-based software company and I am now doing program management for a Really Big Software Company. At some point the theater gave way to working on science fiction conventions, most recently last year's Worldcon in Glasgow, Scotland.
Embrace the unexpected.

Stephen Sutherland, Christie, 5906 E B Ave, Richland, MI 49083, 269-720-2507, sutherlanddvm@gmail.com
I attended Michigan State University to become a veterinarian. After graduating in 1980, I went into private practice, primarily working with dairy cattle. After that I started a career in the animal health industry, working in research and development. Most of my career has been in regulatory affairs in Kalamazoo working for Upjohn, Pharmacia, Pfizer and Zoetis. I led teams responsible for obtaining product registrations on a global basis. After a brief semi-retirement, I'm working for a 'startup' animal health company, based in Long Beach, CA. Most importantly, I've been blessed with 3 children and 2 grandchildren. I love being outside, biking and enjoying lots of time in Traverse City and a local rustic cottage.
Life doesn't come with a blueprint. You have to create your own and 'roll with the punches'.

Take nothing for granted. Live each day like it is your last.

I always wanted to be an archaeologist, right up through high school, but I allowed a Huron High teacher whose husband was doing the same for U of M dissuade me ... she told me it was such a hard scrabble life. So instead of digging in ruins in faraway places, I went to Western Michigan University in Kalamazoo to become a journalist, as I've always loved to write. After some print and radio gigs in Kalamazoo, it was hard to find a job. I went back to the Detroit area and worked a long while for a TV news marketing research firm which then revamped to do market research for the burgeoning cable industry. Yes, cable was just beginning. Discovery Channel was a client and offered me a research analyst position in Bethesda, Maryland but I had to decline. I eventually found myself back in Ann Arbor working for a good stretch in sales/marketing at Con-way, which is now XPO Logistics. When that ended, I joined the University of Michigan as an assistant to a medical scholar/author. A family situation necessitated going to Atlanta temporarily in 2010. I started thinking about staying in Michigan and working at the University forever or trying something new. In my early 50's, I decided to stay in Georgia, found a position at a paper/packaging industry mammoth, bought a house, and have recently retired. I'm a Northern gal for sure, but I love the beauty of the South, the proximity of the mountains and of the beaches, and I haven't regretted a day here. No doubt life has delivered challenges to us all, but I've welcomed a good and serene life thus far.
Time flies. Just Do It! No regrets! Chalk it up to learning and experience.
