Luxembourg's schools cycle to the moon!

Luxembourgish schools are invited to together cover the distance to the moon until May 24 by bike!

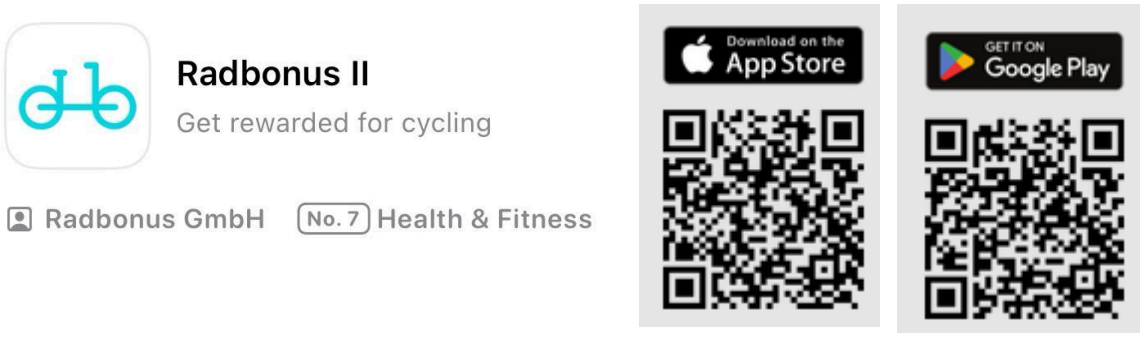

There is also a team competition among Luxembourg high schools and the University of Luxembourg. Individual participants can enter raffles and win prizes for a specific number of ride days or cycled kilometers.

If you were thinking about starting to cycle to work or to school - now is the moment to give it a go!

This initiative replaces "Mam Vëlo op d'Schoul/ op d'Schaff".

And here is how to participate if you are a student, a teacher, a staff member or a parent (even an alumni) of our school:

1. Download the app Radbonus II.

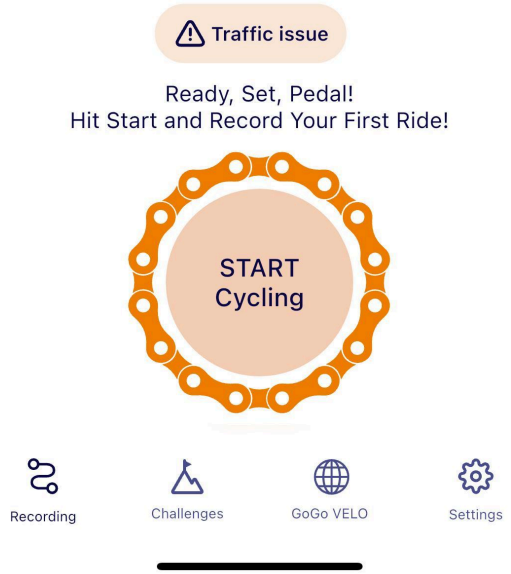

2. Put in the access code "Gogovelo".

Select European School Lux 2 so that all your cycled kilometers are added to the team.

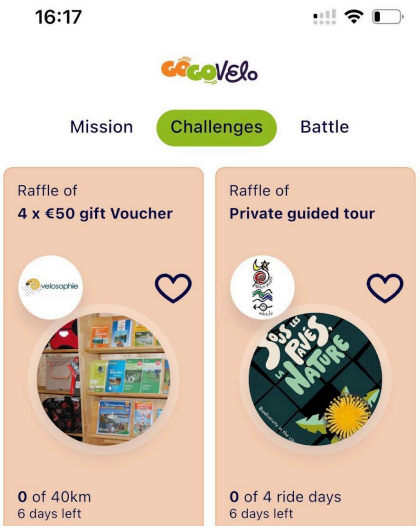

Then every time you cycle, if it's to school or anywhere else, make sure to capture it in the app.

Given the number of cyclists, our school should come out pretty high in the ranking!

You will also be able to enter raffles for prizes in the app, for instance gift vouchers, see example...

Cycling is not only good for your health and the health of the planet, it also is often the fastest and most flexible way of transport.

The more we can make cyclists visible, the easier it will be to campaign for better cycling infrastructure in Luxembourg.

More info under www.gogovelo.lu or directly with your parent association under sustainability@apeeel2.lu.
