Values and Beliefs

- What do they currently believe is true about themselves and the problems they face?
- They believe that once a woman makes up her mind, it's impossible to get out of the friendzone and the easiest way to get out of it is to just leave the woman and ghost

her.

- They believe that most of the women are not worth their time and hassle, as soon as they start showing red flags it would be best to dump her.
- Once she puts you in the friend zone - it's over, you can't do nothing about it.
- Leveling up is the easiest and best path
- "I am soft black pill on this one. It is nearly impossible to be promoted out especially if she sees me as a slave type of friend whose only purpose is to help her out with house chores."
- Being yourself is the best thing to do
- "You attract what you are"
- "I can't just sit around and wait for something to happen"
- Women are always looking for a better option
- "I'll still lose to a 6feet chad with a nice car and body"

- Who do they blame for their current problems and frustrations?

- Themselves
- The girl not seeing them as a real boyfriend material

- Have they tried to solve the problem before and failed?

- Helping the girl to heal and get over her past relationships
- Helping the girl with household duties
- Having sex with her "in between" the time she had boyfriends
- Always being there for her
- Just telling her his feelings

- Why do they think they failed in the past?

- The girl failed to see that they would be a better material than their mates at the time

- How do they evaluate and decide if a solution is going to work or not?

- It must have enough social proof and credibility that it must push through a certain threshold (e.g. they won't break up a relationship with a "friend" who cucks them because a random guy on YT told them so)

- What figures or brands in the space do they respect and why?

- They are aware about Rich Cooper

- What can I do to keep a dream girl and stop her from leaving me?
- How can I stop thinking about my ex?
- How to be like one of those “chads” she immediately runs to when she wants to get railed?
- Why is she constantly going to these guys even though they are hurting her?
- Why doesn't she notice me and see me as her option?
- What do I do to stop her from running around after every other dude except me?
- Why continue a relationship (friend zone) if she is just gonna date other men in the meantime?
- How can I be a guy they actually want to be with instead just friend zone?
- Do women really friend zone only the nice guys?
- Do I really need to be a “bad guy” for her to date me?
- How can I make the relationship progress faster instead of her wanting to “take it slow”?
- Does she truly miss me?
- How can I stop letting emotions ruin me?
- How do I turn a friendship into a proper relationship without ruining everything?

Phrases

- “Being in the friendzone is like getting kicked in the balls every day and being thankful for the opportunity.”
- “The woman I loved said she loved me but didn't act like it”

Other

1. They are so scared of rejection and being left alone that they think it's the best to dump a woman as soon as she shows any red flags.
2. They want to avoid the hard thing (in their mind - talking to women) and they are coping by saying “Just level up yourself” whilst it is just a mechanism to escape the true difficulty
3. They blame everything but not themselves in a straight forward way
4. The key here is to make them believe in the solution and that this will actually work unlike other stuff they've tried

Thresholds:

“Worth it?” Threshold (on a scale from 1 to 10): Before reading they're around 6, to buy they need to be on 8, I cross it multiple times throughout the copy, raising it to 9

“Does the idea work?” Threshold: Before reading they're at 1, to buy they need to be on 7, I throughout the copy, raising it to exactly 7 by showing the process of coming up with the idea, showing testimonials in a unique and funny way, and showing them I understand their situation and I speak just like them.

“Do I trust this guy enough?” Threshold: Before reading they’re at 3, to buy they need to be on 8, I throughout the copy, raising it to 9 by writing with a lot of character and without unnecessary filter, just like a friend would talk to them

Where do I want them to go?

I want them to trust the brand and consider the offer as a complete steal because it’s so good, then I want them to scroll down and purchase the ebook.

What are the steps to get them from where they are right now to where I want them to go?

1. Catch their attention
2. Amplify their intrigue
3. Present the guru with credibility
4. Show them how my opportunity came to existence
5. Show them briefly the opportunity
6. Address their objections
7. Go in depth about what they get in the ebook
8. Present them the bonuses
9. Price anchor
10. Make the offer look like an absolute steal

What are they thinking?

“Fuck, I’ve tried so many different things but nothing works and I also can’t figure out how to get out of this friendzone thing, I want something different, something that really works”

Where are they emotionally and physically?

Emotionally they’re angry at women and slightly blame them but really they are very needy and want to be an “alpha” guy whilst they’re just overall pussies. Physically they’ve just clicked through on the next page after watching our free video.

Where are they in the funnel?

They’ve already went through these steps:

1. Clicked an ad from us which advertised a free video explaining three phases that a women goes through
2. They’ve given us their name and email address to get access to the free video
3. They’ve watched the free video and clicked “I want more!” CTA at the bottom of the free video’s page

(The free video at the end mentioned the ebook as a great opportunity and directed them to this page, so they already know it’s a book, the part of the free video talking about the ebook is also on this sales page in case they haven’t watched it already)

Personal Analysis:

- A huge problem for me was the hook in here because I wanted to match their sophistication and awareness levels while matching what is happening in their mind, I fixed this by coming up with the hook you see below, I think it’s decent

- Big concern was the lead of this sales letter because I decided that first I need to grab their attention before I go into a short “credibility” section, I’m still not sure if the lead itself sparks up the curiosity enough
- Throughout the copy I sometimes get a feeling like there’s unnecessary friction created and it feels rough (e.g. when introducing the guru after the lead), but I genuinely have no idea how to go about solving this
- I’ve done something I avoided before which is going for way more sophisticated language at some points but from what I’ve seen a lot of men will be either aware of these terms or they’ll think “Damn, this guy knows so much stuff, his thing must be good”

This Fabric-Fresh Book Explains The **Only Scientifically-Backed 83 Facts** You Need To Know Today To Grasp Why Women Act Like They Do...

PLUS A Predictable Trick *(which will work even if you’re poor and 4’11)* To **Avoid Getting Friend-zoned, Cheated On, Or Rejected Ever Again...**

[Video Part]

(in this 3-minute part of your free video I explain exactly how it ties into the three phases a woman goes through and other things I talked about in the video)

Would you enjoy it if your woman were the one pursuing you, almost desperately trying to grab your attention because she sees you as her “king”?

Because in a second I’ll share with you the exact system that allowed me to find my dream wife despite being in a “lost position”...

And this exact mechanism explains:

- ✓ How to get multiple girls to compete with each other only to “win” your attention
- ✓ What you NEED to do to avoid getting played by a girl who “doesn’t see you this way” or “isn’t ready”
- ✓ Why it is simple to never have to watch how your female friend dates douchebag after douchebag just to reject you *(who was supporting her after all the break-ups)* as soon as you whisper out your feelings
- ✓ When to say **this one phrase** (it’s explained on page 46) so she doesn’t call you out for “lack of experience” and ruin your reputation forever

✅ How to keep your **wifey-quality dream girl** once you find her and what NOT to say to make sure she doesn't cheat on you with a random guy at the bar

I'm Ansar, a certified therapist, and relationship counselor and after studying a ton of different types of therapy (EFT, REBT, CBT, and PCT)

I've come up with a brand-new therapy process that allowed 100s of men to not only find their "dream wifey material girl" but also keep her and thrive in the masculine-feminine dynamic

But Something Felt Wrong...and I had no idea what it was

So one evening I grabbed a warm cup of tea and said to my wife:

"Listen, we need to talk..."

As she sat down on a leather couch right in front of me I started explaining that...

I had no idea how I could help MORE men because I can't get onto 100 calls every single day

And before she even managed to say a word...

I jumped up from my seat and burst out through the door...

...straight into my office

And started planning out something I called:

"Simple Guide Through Woman's Mind"

This quick-to-read book will help you:

- **Even if** you are struggling with finding the woman of your dreams who would finally love you as much as **you deserve it**
- **Even if** you're currently in a relationship and you're worrying she'll lose respect for you
- **And even if** all the women you've approached end up completely ignoring your existence

Because the reason for any relationship-related problems you have...

Whether it is simply failing every single time you approach a new girl that you want to hook up with

Or you can't manage to find your dream girl who would respect and treat you like her man, not a child-like boy

It all comes down to...

How Female Mind Operates 🤯

And it is NOT about:

- ❌ Copy-paste "pick-up" lines which sound like you've hit puberty five minutes ago
- ❌ Creepy Instagram DMs that you're supposed to spam to any girl that makes your pee-pee hard
- ❌ Going "ghost mode" and disappearing for 6 months like an anti-social incel

Because what I will show yo-

"Bu-but I've heard a few gurus talk about these strategies"

Could you not interrupt me please?

But let's answer your concern and let me ask you...

If all those other strategies really worked, would you be on this page, reading my words right now? 🙋

No, you would not

You would be sitting comfortably in any club or coffee shop of your choice...

Knowing that as soon as you see a girl you like you'll know:

- Why the process of attracting a girl starts as soon as she sees you (no, it's not about "first impression", it's way deeper)

- What exact primal emotions you HAVE to invoke in a girl if you want her to sleep with you TODAY
- Where is the fine line that the girl's feelings must cross for her to be ready to start dating you
- How to get a woman to treat you like a MAN, like her alpha instead of a little child-like boy
- Who do you need to become (it doesn't take more than 3 minutes) to make sure she doesn't cheat on you
- The simple secret that allows you to start a conversation with a woman completely effortlessly and without any pressure
- Which one of biological rules to use in order to fix any relationship you think you've fucked up

So, that's why-

“But Ansar, how do I know this is all true?” 🤔

...

...

Aghhhhhhhh...

...

Ok, it was all a lie 😊

For real, Tobias **DID NOT** level up his confidence in every realm of his life (not only relationships)

And Aaron **NEVER MANAGED** to understand and fix issues in his relationships:

Also, this guy **DIDN'T EVER** recover from his ex and he never managed to welcome happiness back into his life:

“

I honestly appreciate the advices that I got from u it helped me sm in building my confidence. There was a time where I felt so low that I wanted to give up and not continue going far in life, such as going to uni and becoming successful. I was feeling so depressed thinking about that 1 person, but talking to u have changed my mind and opened my mind to many things. You motivated me to do what I have to do and be confident in all the choices I make.

I have started to move on from my past and think of the life ahead of me to build myself as a better person, we definitely need more life coaches in the world to help us out through our tough times. Ansar has made me feel that I can be that happy person I was before and that no one can put me down and stop me from reaching my goals in life, I honestly felt so happy after talking to u n felt like my life has a meaning, just because someone leaves from ur life doesnt mean ur life has stopped, it pushes u to achieve more goals out there and opens alot of opportunities so thank u sm for ur kind support and ur time it really meant a lot to me.”

And I certainly **DID NOT** help this guy in any way, shape or form:

“

I have never come across a relationship coach who hears & analyses & dissects the issue in the way Ansar does. His 10yrs of experience in understanding people really showed from the way he was able to relate to my problem.

Actually the way you could understand me is like you (Ansar) were watching the whole past of mine, that level of understanding, vision, picturisation, analysing & sound decision you helped me make was really comforting.

Also the way you places yourself into the client mind & think & give instant counsel is really great & a relief such coaches exist.”

And I **DID NOT** save Jeremy from wasting his wife with a girl who didn't appreciate him and completely shitted on his opinion:

“

I got into a relationship that was great at first as there was fun, excitement and physical attraction. It wasn't until I moved to where she lived that it slowly started to break down. I realised I wasn't happy because there was many differences in our ways of thinking, ambition and aims in life. We invested a couple of years but soon found it hard because of the differences. I really felt in pain and the more I tried to talk the worse it got. She didn't want to know or grow together. I asked Ansar for advice and help and he was able to break down clearly all the red flags and toxic behaviour she was showing.

It was clear we jumped into the relationship without talking about the important things and with this information he explained how to try and fix it by communicating the issues, taking accountability and seeing if it changes. She wasn't willing to budge and I couldn't go on. Ansar helped me make an important decision that saved me years of heartache that was causing me stress, anxiety and unhappiness and I can't thank him enough for being genuinely interested in trying to understand the full picture, looking at both sides and trying to mend it if it were possible. Most coaches just push you to do what they think but he guided me to making the best choice for my happiness and now I'm with an amazing girl from my hometown with similar values, thanks so much brother!."

So as you see all these people **DID NOT** manage to succeed with me... 😞

Or wait...maybe they did 🤔

Anyway, in the "Simple Guide Through Woman's Mind"

You'll learn exactly:

- What is the actual data behind why women cheat (and how often they do it) and what conclusion you can draw from it... (Page 3)
- What type of women are you with currently or what type of woman are you looking for? (Page 10)
- What is the "mate switching hypothesis" and how it will impact your relationships (Page 19)
- How is it that so many men get cuckolded by their wives, girlfriends or best friends and how you can avoid it (Page 27)

We'll also dive deeper into the Three Phases of Women's Mating Strategy

(Page 53)

If you've watched your free video then you understand the bare basics of this topic

But this topic is way too complicated to explain in a single video that's why I'm gonna show you exactly how you use these phases to attract whichever woman you want

AND you'll also learn:

- Why women are better at break-ups than men (and what you can do about it) (Page 60)
- How to pass her "shit-tests" with an "A+", PLUS a science-based explanation for why she "examines" you like that (Page 86)
- How women get "sucked into the vortex" and become prone to cheating (Page 99)
- The quick method to identify if you are "her best choice" or how I like to call it - "her contextual alpha" (Page 125)
- What you need to do to show her what you want to communicate by action, without using words (Page 142)

And why women never lie... Even though they do

(Page 147)

Because the truth is that her mind works in a weird and confusing way

And whether she is telling the truth or lying straight into your face stays a mystery...

Unless you're able to identify:

- What is the "secret button" you have to push to activate her "competition anxiety" and make her fight with other girls just to get you (Page 163)
- How to make sure you don't look insecure when telling her not to go out with her friends dressed like a hoe (Page 169)
- How to create a preventative plan for the follicular phase (and what the hell this thing even is) (Page 185)

Btw, would you enjoy...
Your girl imagining the face of another guy when you fuck her? 😨

I guess not (unless you are really, reaaaaally weird)
