[Dataverse Community Call 2 Notes](#)

Dataverse Community Call 1 (2 AM UTC)

Dataverse Community Call 1 Agenda

- Dataverse 5.2
- GDCC Updates
- Community Questions

Dataverse Community Call 1 Attendees

- Danny Brooke (IQSS)
- Jim Myers (GDCC, QDR, TDL)
- Jamie Jamison (UCLA)
- Marina (ADA)
- Mingjing (ADA)
- Janet (ADA)
- Steve (ADA)

Dataverse Community Call 1 Notes

- Dataverse 5.2
 - Available on demo.dataverse.org and dataverse.harvard.edu
 - <https://github.com/IQSS/dataverse/releases/tag/v5.2>
- GDCC Updates
 - Metadata WG started, first meeting held, notes avail (thanks to Danny)
 - Plan to record meetings, have additional discussion after comm. meetings
 - Thursday topic is code/container metadata
 - Next mtg Dec. 3 Working with Oliver to move to github.com/GDCC
 -

- Will keep previewers working throughout transition
 - Working with DANS re: ORE/Bag enhancements - RFC email later this week
 - Contacted DataCite re: managing file DOI requests and how to migrate DOIs
 - Working with TRSA on remote store support
 - From last comm call - created [#7397](#)
- Community Questions
 - (Steve) re: Metadata WG - how do we progress the governance discussion (good discussions on Slack)?
 - (Jim) Slack could be a good place for discussion, but maybe a Google Doc with some thoughts could be a good start
 - (Steve) re: Metadata WG - using this time as a way to advance the group is good, but a limitation is that the groups will be mutually exclusive - how do we keep things in sync? We should try to find a way to have at least some calls with the whole group
 - (Jim) I think a reasonable approach would be to have the kickoff meeting for a topic and then have a topic subgroup lead the efforts move things (and hopefully fewer people will make it easier to schedule)

Dataverse Community Call 2 (3 PM UTC)

Dataverse Community Call 2 Agenda

- Dataverse 5.2
- GDCC Updates
 - Metadata WG started, first meeting held, notes avail (thanks to Danny)
 - Plan to record meetings, have additional discussion after comm. meetings
 - Thursday topic is code/container metadata
 - Next mtg Dec. 3
 - Working with Oliver to move to github.com/GDCC
 - Will keep previewers working throughout transition
 - Working with DANS re: ORE/Bag enhancements - RFC email later this week
 - Contacted DataCite re: managing file DOI requests and how to migrate DOIs
 - Working with TRSA on remote store support
- Community Questions

Dataverse Community Call 2 Attendees

- Danny Brooke (IQSS)
- Gustavo Durand (IQSS)
- Jim Myers (GDCC, QDR, TDL)
- Oliver Bertuch (FZJ)
- Courtney Mumma (TDL)

- Sherry Lake (UVA)
- Don Sizemore (Odum)
- Christina Chan-Park (TDR/Baylor)
- Pedro Principe (Univ. of Minho, Portugal)
- Phil Durbin (IQSS)

Dataverse Community Call 2 Notes

- Dataverse 5.2
- GDCC Updates
 - Metadata working group started. Notes:
 - Planning to record meetings in the future.
 - Will use the Monday evening (Boston time) community call slot, after the main meeting, to continue metadata discussion.
 - Next presentation is on code containers.
 - Moving to github.com/gdcc, will take care so that previewers can be transitioned.
 - ORE enhancements, request for comments coming, working with DANS.
 - Questions into DataCite about file DOIs (lots of them). How to avoid a big hit, performance problems. How to move datasets between Dataverse installations, especially in terms of DOIs.
 - TRSA and HTTP Overlay, remote stores.
- Community Questions
 - (Sherry) Upgrading to Dataverse 5. I'm supposed to have my ducks in a row before I go to my sysadmins. I'm also considering a move to the cloud.
 - (Danny) See the 5.0 release notes. <https://github.com/IQSS/dataverse/releases/tag/v5.0>
 - (Jim) The Payara upgrade directions are complete. You should follow them closely.
 - (Don) I've had good luck upgrading on test systems.
 - <https://github.com/IQSS/dataverse/releases/tag/v5.0> Sherry you'll want <https://guides.dataverse.org/en/latest/developers/deployment.html#migrating-datafiles-from-local-storage-to-s3> for your S3 migration
 - (Danny) We're happy to have a call with you if you have any questions.
 - (Oliver) Postgres driver, EJB timers, etc.
