**Female (preferably) or Male Vocalist, for singing on the track and recording a vocal tag announcing the name of the artist and event**

## **Track Link and Details:**

SoundCloud: <https://soundcloud.com/avatsavirs/still-untitled/s-Rm9Qd>

Tempo: 130 BPM

Scale: C Major (may or may not be alterable at the request of the vocalist)

## Requirements:

1. Vocalist should have a voice for EDM, Pop like genres
2. Vocalist should be in tune. I would preferably use as little auto tune as possible.
3. Vocalist should have a decent quality microphone, pop filter and other recording necessities. Can be overlooked if the singer is exceptionally good.

## Other details:

This track is being produced as a theme for my university's annual techno-cultural fest. There probably would be a decent number of people that will be listening to the track and hence, will be a good track to promote yourself. This also means that this track is a more critical work as compared to others i've made before. Please do not apply if you don't have the time to put in the work, or if there's a chance that you might leave midway.

## Excerpt from the lyrics:

We love, We feel;

We lose; Forfeit;

We rise, We lead;

Start over, Repeat

And I don't wanna follow rules;

With life I've come to make a truce;

So watch as i let go; I'll scream out loud,

Nothing holds me back no more,

Cuz' having fun, having fun is what it's all about!
