Be Internet Awesome teaches kids the fundamentals of digital citizenship and safety so they can explore the online world with confidence.

Play Interland, a free, web-based game designed to help kids learn five foundational lessons across four different mini-games. Interland has been well-received by kids ages 7-12, but can be enjoyed by older and younger kids, too.

All materials are free and openly available; no sign-in is required to access any part of Be Internet Awesome.

Hour of Code celebrates computer science, with 1-hour coding activities. Hour of Code encourages critical thinking, problem solving, perseverance, and supports Newton's STEAM initiatives. (Science, Technology, Engineering, Arts, Math)

Check out all the tutorials and activities, organized by grade level.

GRADES 3 - 5 ONLY

Keyboarding Without Tears is a keyboarding program that builds computer readiness, technique, online test prep skills, and digital citizenship while building typing speed and fluency.
